31 March 2021

These financial statements were approved by the board of directors and authorised for issue on 20 September 2021 , and are signed on behalf of the board by:

Mr K D Ransome

Director

Company registration number: 08471113

Focus Security (East Anglia) Ltd

Notes to the Financial Statements

Year ended 31 March 2021

1. General information

The company is a private company limited by shares, registered in United Kingdom. The address of the registered office is 10 Oak Street, Fakenham, Norfolk, NR21 9DY.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Revenue recognition

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax. Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful life of that asset as follows:

Goodwill - 5 year straight line

If there is an indication that there has been a significant change in amortisation rate, useful life or residual value of an intangible asset, the amortisation is revised prospectively to reflect the new estimates.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in equity, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in equity in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in equity in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

| | | |
|---------------------|---|----------------------|
| Fixtures & Fittings | - | 20% reducing balance |
| Motor Vehicles | - | 25% reducing balance |
| Equipment | - | 20% reducing balance |

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets. For impairment testing of goodwill, the goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the company are assigned to those units.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Finance leases and hire purchase contracts

Assets held under finance leases and hire purchase contracts are recognised in the balance sheet as assets and liabilities at the lower of the fair value of the assets and the present value of the minimum lease payments, which is determined at the inception of the lease term. Any initial direct costs of the lease are added to the amount recognised as an asset. Lease payments are apportioned between the finance charges and reduction of the outstanding lease liability using the effective interest method. Finance charges are allocated to each period so as to produce a constant rate of interest on the remaining balance of the liability.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event, it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the balance sheet and the amount of the provision as an expense. Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised as a finance cost in profit or loss in the period it arises.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

4. Employee numbers

The average number of persons employed by the company during the year amounted to 2 (2020: 2).

5. Intangible assets

| | Goodwill £ |
|-----------------------------------|---------------|
| Cost | |
| At 1 April 2020 and 31 March 2021 | 10,000 |
| Amortisation | |
| At 1 April 2020 and 31 March 2021 | 10,000 |
| Carrying amount | |
| At 31 March 2021 | — |
| At 31 March 2020 | — |

6. Tangible assets

| | Fixtures and fittings £ | Motor vehicles £ | Equipment £ | Total £ |
|-------------------------|-------------------------------|---------------------|----------------|---------------|
| Cost | | | | |
| At 1 April 2020 | 3,105 | 18,627 | 3,963 | 25,695 |
| Additions | — | — | 1,266 | 1,266 |
| At 31 March 2021 | 3,105 | 18,627 | 5,229 | 26,961 |
| Depreciation | | | | |
| At 1 April 2020 | 2,085 | 4,655 | 2,919 | 9,659 |
| Charge for the year | 203 | 3,492 | 335 | 4,030 |
| At 31 March 2021 | 2,288 | 8,147 | 3,254 | 13,689 |
| Carrying amount | | | | |
| At 31 March 2021 | 817 | 10,480 | 1,975 | 13,272 |
| At 31 March 2020 | 1,020 | 13,972 | 1,044 | 16,036 |

7. Debtors

| | 2021 £ | 2020 £ |
|---------------|---------------|---------------|
| Trade debtors | 47,090 | 40,391 |
| Other debtors | 1,137 | 850 |
| | 48,227 | 41,241 |

8. Creditors: amounts falling due within one year

| | 2021 £ | 2020 £ |
|---------------------------------|---------------|---------------|
| Bank loans and overdrafts | 4,769 | — |
| Trade creditors | 42,715 | 28,000 |
| Corporation tax | 3,966 | 312 |
| Social security and other taxes | 2,621 | 6,610 |
| Other creditors | 18,955 | 24,080 |
| | 73,026 | 59,002 |

Included within bank loans and overdrafts falling due within one year is an amount of £4,769 (2020: £Nil) which is

secured against the business.

Other creditors includes £3,577 (2020:£3,577) of hire purchase agreements that are secured on the the fixed assets concerned.

9. Creditors: amounts falling due after more than one year

| | 2021 | 2020 |
|---------------------------|---------------|--------|
| | £ | £ |
| Bank loans and overdrafts | 25,231 | – |
| Other creditors | 7,154 | 10,731 |
| | 32,385 | 10,731 |
