ELEVATE LEGAL SERVICES UK LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

1. General information

Elevate Legal Services UK Limited (company number: 08484761), having its registered office and principal place of business at One Central Parkway, Newcastle Upon Tyne, NE1 3BZ, is a private limited company incorporated in England and Wales.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Going concern

The worldwide spread of coronavirus (COVID-19) in the first quarter of 2020 created significant volatility, uncertainty, and disruption to the global economy. The Directors closely monitor the impact of the COVID-19 pandemic on all aspects of our business, including how it will impact our clients, employees, and business partners.

While the COVID 19 pandemic did not have a significant impact on our financials throughout 2020, the Company experienced an unfavorable impact on sales and business development activities in 2020 due to decrease in the demand for the services provided that may be considered by our customers to be more discretionary in nature.

At 31 December 2020 the Company had net liabilities of £7,127,682 (2019: £3,995,283), however the directors have prepared the financial statements on the going concern basis because the ultimate parent company has given assurance it will provide any necessary funding to ensure the company can meet its liabilities as they fall due.

The ultimate parent company's assurance is provided until the earlier of two events; (1) the company having adequate resources to meet its liabilities as they fall due or (2) after a year from the date the financial statements are approved by the directors.

2021 is showing a return to growth as the global economy settles after the uncertainty of COVID 19's impact in 2020. The company's services are geared toward helping customers run their businesses more efficiently, which is attractive as customers find a new normal.

2.3 Statement of Cash Flows

The Company has taken advantage of the exemption in Financial Reporting Standard 102 Section 1A.7 from the requirement to provide a Statement of Cash Flows on the grounds that it is a small company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

2. Accounting policies (continued)

2.4 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is British Pound Sterling GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Income and Retained Earnings.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of Income and Retained Earnings within 'finance income or costs'.

2.5 Turnover

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the Company and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before turnover is recognised:

Rendering of services

Turnover from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the Company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

2.6 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to the Statement of Income and Retained Earnings on a straight line basis over the lease term.

2.7 Finance costs

Finance costs are charged to the Statement of Income and Retained Earnings over the term of the debt using the effective interest method.

2. Accounting policies (continued)

2.8 Pensions

Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in the Statement of Income and Retained Earnings. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.9 Taxation

Tax is recognised in the Statement of Income and Retained Earnings.

The current corporation tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the Balance Sheet date.

2.10 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives.

Depreciation is provided on the following basis:

Leasehold improvements	- over the term of the lease
Other fixed assets	- 2.5 years straight-line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of Income and Retained Earnings.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

2. Accounting policies (continued)

2.11 Debtors

Short-term debtors are measured at transaction price, less any impairment.

2.12 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

2.13 Creditors

Short-term creditors are measured at the transaction price.

2.14 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties and loans to related parties.

Debt instruments that are payable or receivable within one year, typically trade debtors and creditors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the Balance Sheet date.

2.15 Prior year reclassifications

In the current year expenses have been analysed by business unit for accounting purposes, rather than as direct and indirect expenses. As such all expenses are now shown within administrative expenses, and the prior year amounts have been reclassified to ensure comparability.

3. Employees

The average monthly number of employees, including directors, during the year was 95 (2019 - 48).
