Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with the applicable law and United Kingdom Accounting Standard FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company, and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

1 ACCOUNTING POLICIES

The principal accounting policies are summarised below. They have all been applied consistently throughout the year.

General information and basis of accounting

Blackstone Real Estate Capital UK Asia Limited is a company incorporated in the United Kingdom under the Companies Act. The Company's principal activity is set out in the Directors' report.

The financial statements have been prepared under historical cost convention, and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council. This is the first year that the Company has presented its financial statements under FRS 102 issued by the Financial Reporting Council. The following disclosures are required in the year of transition. The last financial statements under previous UK GAAP were for the period ended 31 December 2014 and the date of transition to FRS 102 was therefore 1 June 2014.

The functional currency of the Company is considered to be US Dollars because that is the currency of the primary economic environment in which the Company operates.

The Company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available. Exemptions have been taken in relation to presentation of a cash flow statement and intra group transactions.

Financial Assets

The Company holds an equity investment, and a debtor, both of which are classified as a financial asset.

Equity investments are initially recognised at fair value, and are subsequently re-measured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately. Fair value measurement is based on audited financial statements of the underlying entity.

Going concern

The directors consider the principal risk to be financial risk and believe that the Company has sufficient procedures in place to manage its risks successfully, and has access to sufficient cash and financial resources from its parent entities and is expected to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Taxation

UK corporation tax is provided at amounts expected to be paid using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are not discounted.

for the year ended 31 December 2015

2 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATED UNCERTAINTY

In the application of the Company's accounting policies, which are described in note 1, the members are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources, the estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

There were no critical accounting judgements, nor key sources of estimation uncertainty for the year ended 31 December 2015.
