3. COMPANY INFORMATION

4. ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

The accounts have been prepared on the going concern basis.

The accounts show that the company made a loss of £300 in the period. At the balance sheet date the company had net liabilities of £1,559. The directors have therefore had to consider the appropriateness of the going concern basis.

The company has been able to finance its operations largely because of the support from group companies. The directors are satisfied that with their support the company should be able to meet its obligations.

Transition to FRS 102

The entity transitioned from previous UK GAAP to FRS 102 as at 1 January 2015. Details of how FRS 102 has affected the reported financial position and financial performance are given in note 9.

Investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.
