The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies Act 2006 relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Profit and Loss Account has not been delivered.

The financial statements were approved by the Board of Directors on 27 September 2017 and were signed on its behalf by:

E Pliakos - Director

Notes to the Financial Statements for the year ended 31 December 2016

1. Statutory information

EGN Projects Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. Statement of compliance

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. This is the first year that the company has presented its financial statements under Financial Reporting Standard 102 ("FRS 102") issued by the Financial Reporting Council.

The last financial statements for the year ended 31 December 2015 were prepared under previous UK GAAP, and the transition date to FRS 102 is therefore 1 January 2015.

The adoption of FRS 102 has not required any material to the accounting policies.

3. Accounting policies

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention.

Preparation of consolidated financial statements

The financial statements contain information about EGN Projects Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

Turnover

i) Design and construction

Profit is recognised on long term contracts on a contract by contract basis, if the final outcome can be assessed with reasonable certainty, by including in the profit and loss account turnover and related costs as the contract activity progresses.

Turnover is calculated as the proportion of the total contract value which relates to the cost incurred on each project prior to the year end.

ii) Maintenance contracts

Turnover on maintenance contracts is recognised as the services are rendered.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.

Fixtures and fittings - 20% straight line
Motor vehicles - 20% straight line
Computer equipment - 33% straight line

Tangible fixed assets are stated at cost (or deemed cost) or valuation less accumulated depreciation and accumulated impairment losses.

Investments in subsidiaries and associates

Investments in subsidiary and associate undertakings are recognised at cost.

Financial instruments

A financial instrument is any contract that creates a financial asset in an enterprise and a financial liability or equity instrument in another.

The company has no financial instruments at fair value.

Trade and other receivables and payables are measured initially at fair value and subsequently at amortised cost.

Notes to the Financial Statements - continued for the year ended 31 December 2016

3. Accounting policies - continued

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

4. Tangible fixed assets
