### 1. General information

Lanchester Energy Limited ('the company') is a private company limited by shares, incorporated in the United Kingdom and registered in England. The address of the registered office is Greencroft Industrial Estate, Tower Road, Annfield Plain, County Durham, DH9 7XP.

### 2. Statement of compliance

These financial statements have been prepared in accordance with Section 1A of Financial Reporting Standard 102 '*The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland*' and the Companies Act 2006.

### 3. Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

#### 3.1 Basis of preparation of financial statements

The financial statements are prepared on a going concern basis and under the historical cost convention. They are presented in pounds sterling and rounded to the nearest £.

#### 3.2 Revenue recognition

Turnover comprises revenue recognised in respect of services supplied during the year, net of discounts and excluding Value Added Tax. Revenue is recognised as the service is provided and invoiced.

#### 3.3 Tangible fixed assets

Tangible fixed assets are stated at cost, less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price plus any further costs directly attributable to bringing the asset to its working condition for its intended use. Assets under construction are not depreciated until they are capable of being brought into use.

Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their estimated useful lives as follows:

Turbines	-	5% straight-line
----------	---	------------------

Asset residual values and useful lives are reviewed at the end of each reporting period, and adjusted if appropriate. The effect of any change is accounted for prospectively.

#### 3.4 Short term debtors and creditors

Short term debtors and creditors with no stated interest rate are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account.

### 3. Accounting policies (continued)

#### 3.5 Taxation

The taxation expense for the year comprises current and deferred tax and is recognised in the profit and loss account except to the extent that it relates to items recognised in other comprehensive income, or directly in equity, in which case the tax expense is also recognised in other comprehensive income or directly in equity.

Current tax is the amount of income tax payable in respect of the taxable profit for the current or past reporting periods. It is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax represents the future tax consequences of transactions and events recognised in the financial statements of current and previous periods. It is recognised in respect of all timing differences, with certain exceptions. Timing differences arise from the inclusion of transactions and events in the financial statements in periods different from those in which they are assessed for tax.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing differences.

### 4. Employees

The company did not have any employees during the current or preceding year, other than the directors.
