<b>Total equity</b>			<u><u>771,295</u></u>		<u><u>(354,787)</u></u>

The directors of the company have elected not to include a copy of the profit and loss account within the financial statements.

For the financial year ended 31 October 2019 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 OCTOBER 2019

---

### 1 Accounting policies

#### Company information

Spacious Ltd is a private company limited by shares incorporated in England and Wales. The registered office is PO Box 501, The Nexus Building, Broadway, Letchworth Garden City, Herts, SG6 9BL.

#### 1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

#### 1.2 Going concern

The financial statements have been prepared on the going concern basis. The company has again incurred losses during the year. However, the directors have a reasonable expectation that the performance of the company will become profitable when the research and development stage has been completed and the company becomes fully operational. They were again successful in raising additional investments in the year, and along with significant cash balances held, the directors are confident that the company has sufficient resources to meet future liabilities, as and when they become due. On this basis, the directors are therefore of the opinion that the preparation of the annual financial statements on the going concern basis is still appropriate.

#### 1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

#### 1.4 Research and development expenditure

Research and development expenditure is written off against profits in the year in which it is incurred.

#### 1.5 Intangible fixed assets other than goodwill

Intangible assets acquired separately from a business are recognised at cost and are subsequently measured at cost less accumulated amortisation and accumulated impairment losses.

Intangible assets acquired on business combinations are recognised separately from goodwill at the acquisition date where it is probable that the expected future economic benefits that are attributable to the asset will flow to the entity and the fair value of the asset can be measured reliably.

Amortisation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Patents & licences	20% straight line
--------------------	-------------------

# SPACIOUS LTD

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2019

### 1 Accounting policies

(Continued)

#### 1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Office equipment	33% straight line
IT equipment	33% straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

#### 1.7 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

#### 1.8 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

#### 1.9 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

##### **Basic financial assets**

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

##### **Impairment of financial assets**

Financial assets, other than those held at fair value, which are dealt with through profit and loss, are assessed for indicators of impairment at each reporting end date.

# SPACIOUS LTD

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2019

---

### 1 Accounting policies

(Continued)

#### ***Derecognition of financial assets***

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

#### ***Classification of financial liabilities***

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

#### ***Basic financial liabilities***

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

#### ***Derecognition of financial liabilities***

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

### 1.10 Compound instruments

The component parts of compound instruments issued by the company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangement. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-convertible instrument. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date. The equity component is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity net of income tax effects and is not subsequently remeasured.

### 1.11 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

### 1.12 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

# SPACIOUS LTD

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2019

---

### 1 Accounting policies

(Continued)

#### **Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

#### **Deferred tax**

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

#### **1.13 Employee benefits**

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

#### **1.14 Retirement benefits**

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

#### **1.15 Share-based payments**

Equity-settled share-based payments are measured at fair value at the date of grant by reference to recent market transactions. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the estimate of shares that will eventually vest. A corresponding adjustment is made to equity.

When the terms and conditions of equity-settled share-based payments at the time they were granted are subsequently modified, the fair value of the share-based payment under the original terms and conditions and under the modified terms and conditions are both determined at the date of the modification. Any excess of the modified fair value over the original fair value is recognised over the remaining vesting period in addition to the grant date fair value of the original share-based payment. The share-based payment expense is not adjusted if the modified fair value is less than the original fair value.

Cancellations or settlements (including those resulting from employee redundancies) are treated as an acceleration of vesting and the amount that would have been recognised over the remaining vesting period is recognised immediately.

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2019

### 1 Accounting policies

(Continued)

#### 1.16 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

#### 1.17 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation are included in the profit and loss account for the period.

### 2 Employees

The average monthly number of persons (including directors) employed by the company during the year was 45 (2018 - 22).

# SPACIOUS LTD

## NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 OCTOBER 2019

### 7 Share-based payment transactions

The company operates an equity settled share based payment plan for certain employees using the Enterprise Management Incentive (EMI) scheme framework.

Each employee in the scheme has been awarded an option to acquire ordinary shares in the company over a vesting period. The conditions of the agreement require the employee to remain employed by the company throughout this period. The maximum term of the options is 10 years from the grant date.

The company also operates three non-tax advantaged share based payment arrangements for non-employees and employees who do not qualify for the EMI share option scheme. These arrangements are substantially the same as the EMI scheme and so are not disclosed separately.

	Number of share options		Weighted average exercise price	
	2019 Number	2018 Number	2019 £	2018 £
Outstanding at 1 November 2018	306,138	277,088	0.12	0.11
Outstanding post share split (see below)	3,061,380	277,088	0.01	0.11
Granted	2,266,226	43,115	0.05	0.12
Forfeited	(1,027,982)	(3,300)	0.02	0.11
Exercised	(669,851)	(10,765)	0.01	0.11
Outstanding at 31 October 2019	3,629,773	306,138	0.03	0.12
Exercisable at 31 October 2019	1,116,157	112,065	0.01	0.12

The options outstanding at 31 October 2019 had an exercise price ranging from £0.00001 to £0.048.

The fair value of the share options at grant has been measured in line with recent market transactions in the entity's shares.

During the year, the company carried out a sub-division of shares. The brought forward number of shares has therefore increased by a multiple of 10 and the weighted average exercise price has reduced by a multiple of 10 to reflect the sub-division. There is no impact on the overall expense or equity reserve recognised in these financial statements.

8,744,560 Seed Ordinary shares of 0.001p each	87	87
2,692,747 (2018: 0) Series A Ordinary shares of 0.001p each	27	-
5,983,887 (2018: 0) Series A1 Preferred shares of 0.001p each		
	60	-
588,160 (2018: 0) Series A2 Preferred shares of 0.001p each	6	-
	<u>327</u>	<u>233</u>

Ordinary shares carry the right to vote at meetings and are entitled to any dividend payments, distributions or return of capital.

Seed ordinary shares carry the right to vote at meetings and are entitled to any dividend payments, distributions or return of capital.

Series A ordinary shares carry the right to vote at meetings and are entitled to any dividend payments, distributions or return of capital.

Series A1 preferred shares carry the right to vote at meetings and are entitled to any dividend payments, distributions or return of capital.

Series A2 preferred shares carry the right to vote at meetings and are entitled to any dividend payments, distributions or return of capital.

The shares are ranked in accordance with section 5.1 of the company's articles of association.

### 9 Operating lease commitments

#### Lessee

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, as follows:

2019 £	2018 £
230,200	-

### 10 Events after the reporting date

Prior to the approval of these financial statements, but after the balance sheet date, the company secured a loan facility of £1,000,000.

### 11 Related party transactions

At the balance sheet date the company was owed £106 (2018 - £nil) by T Agarwal, a director. This loan was interest free and there are no terms for repayment.
