The financial statements for the year ended 31 December 2014 were prepared under UK GAAP

The adoption of IFRS has resulted in no material adjustments to the accounting policies used by the company

The preparation of financial statements in compliance with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Partnership's accounting policies (see Note 2)

The principal accounting policies are summarised below

##### **1.3 Going concern**

At the year end, the company is in a net asset position

Having made the requisite enquiries and assessed the resources at the disposal of the company, the directors have a reasonable expectation that the company will have adequate resources to continue its operation for the foreseeable future. Accordingly they continue to adopt the going concern basis in preparing the financial statements

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2015**

**1. ACCOUNTING POLICIES (continued)**

**1.4 Cash flow statement**

The company had no cash flows during the year or the prior period and accordingly, has not produced a cash flow statement

**1.5 Investments**

Investments in subsidiaries are stated at cost less any provision for impairment

Investments in partnerships are stated at fair value, with changes recognised in other comprehensive income unless the carrying amount of the investment falls below its original cost, after which the deficit is recognised in the income statement

Income from investments is recognised as the company becomes entitled to receive payment Dividend income from investments in companies is recognised when received or irrevocably declared Revenue profits and losses in partnerships are recognised on an accruals basis

**1.6 Financial instruments**

**Trade and other receivables**

Trade and other receivables are recognised initially at fair value A provision for impairment is established where there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the debtor concerned

**Trade and other payables**

Trade and other payables are stated at cost

**1.7 Taxation**

Current tax is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date Timing differences are differences between the company's taxable profits and its results as stated in financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in financial statements

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing difference Deferred tax relating to investment property is measured using the tax rates and allowances that apply to the sale of the asset

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expenses or income

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2015**

**2. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

**Valuation of investments**

Investments in partnerships are carried at fair value. The directors have valued the investment at the company's share of the partnership's net asset value, as adjusted for the fair value of the partnership's property interest.

**Valuation of development properties**

The company uses valuations performed by independent valuers as the fair value of properties. The valuations are based upon assumptions including future rental income, anticipated void costs, the appropriate discount rate or yield and the estimated costs to completion. The valuers also make reference to market evidence of transaction prices for similar properties.

**3. AUDITOR'S REMUNERATION**

Auditor's remuneration of £555 (2014 - £550) for the audit of the company has been borne by Braeburn Estates Limited Partnership.

### **Going Concern**

The Partnership is in a net liability position at the year end

Braeburn Estates Limited Partnership has expressed its intention to provide or procure adequate financial resources to allow the Partnership to continue its operations and to make available any funds that may be required for the Partnership to enable it to meet its obligations as they fall due for a period of not less than 12 months from the signing date of the financial statements

Having made the requisite enquiries and assessed the resources at the disposal of the Partnership, the Partners have a reasonable expectation that the Partnership will have adequate resources to continue its operation for the foreseeable future. Accordingly they continue to adopt the going concern basis in preparing the financial statements

### **Revenue**

Revenue from property sales is recognised, net of VAT, on completion, when the significant risks and returns pass to the acquirer

Investments are stated at cost less any provision for impairment

Income from investments is recognised as the Partnership becomes entitled to receive payment

### **Work in progress**

Work in progress is stated at the lower of cost and net realisable value. Cost includes construction costs and development expenditure directly related to the development, including attributable employee and related costs

### **Financial instruments**

#### **(i) Trade and other receivables**

Debtors are recognised initially at fair value. A provision for impairment is established where there is objective evidence that the Partnership will not be able to collect all amounts due according to the original terms of the debtor concerned

Trade and other creditors are stated at cost
