Strategic Report

Principal Activities and Review of the Business

The company is incorporated and domiciled in the UK, it is a wholly owned subsidiary company with the sole shareholder being the parent company City Hospitals Sunderland NHS Foundation Trust.

The principal activities of the company are to provide and operate hospitals, healthcare establishments and healthcare facilities and the provision of related services. The company aims to provide safe, effective, sustainable and modern healthcare and working environments.

As part of an agreement to provide managed healthcare services, the company operates a 10 year lease arrangement with City Hospitals Sunderland NHS Foundation Trust. On 1st February 2017, the company acquired a leasehold interest in the three main sites at Sunderland Royal Hospital, Sunderland Eye Infirmary and the Children's Centre, in order to provide an Operated Healthcare Facility to the named sites via a leaseback arrangement.

The company operates under licence an independent outpatient pharmacy service at Sunderland Royal Hospital and Sunderland Eye Infirmary and commenced activities on 4 August 2014.

The company also receives rental income from shorter term retail and independent healthcare providers which are located in the hospital properties.

The company managed its responsibilities and effectively delivered the services that it intended to its customers during the period to 31 March 2018.

Key Performance Indicators

The operating profit of £2.8m resulted from turnover of £40.72m and operating expenses of £37.94m.

Corporation tax on ordinary activities was a charge of £302k and the profit for the financial year was £1.24m after tax.

The company made a charitable donation to a connected party, City Hospitals Sunderland NHS Foundation Trust Charitable Fund in the year, to be used in purchasing medical equipment. The total value of the donation was £300k.

The strong liquidity position resulted in a positive cash balance of £4.6m at the end of the financial year.

Principal Risks and Uncertainties

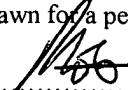

The company maintains a comprehensive risk register as part of its risk management strategy and this is reviewed at the company's monthly Board meeting. The expansion into healthcare facilities management and the associated transfer of staff and services to the company emphasises the importance of embedding a risk aware culture across the organisation.

The company has not suffered any significant financial risk and has met expectations of delivery of its financial commitments since incorporation.

Going concern

The financial statements have been prepared on a going concern basis. The company has recorded a profit before tax of £1,538,785 (2017: profit £286,923).

The company is forecasting sustained profitability from 2018/19, and has sufficient cash reserves to meet its liabilities as they fall due. The company is supported by intercompany loans from its ultimate parent entity of £1,000,000 and £27,749,722 of which £23,895,980 remains owing, and the directors have obtained assurances that this facility will not be withdrawn for a period of at least 12 months from the date of signing the financial statements.

Signed:  (Paul Robinson, Finance Director)

Date: 23rd November 2018

Directors' Report

The directors present their annual report and audited financial statements of the company for the year ended 31 March 2018.

Dividends

The directors do not recommend the payment of a dividend.

Directors

The directors, who served throughout the year and up to the date of signing the financial statements except as noted, were as follows:

Dr I K Makinson, Managing Director

Mr P Robinson, Finance Director

Mr M Stouph, Non-executive Director (Chair)

Mr W Carr, Estates and Facilities Director

Political Donations

The company made no political donations nor incurred any political expenditure during the financial year.

Employment of Disabled Persons

It is the company's policy to give employment to disabled persons wherever practicable.

Directors' and Officers' Liability Insurance

During the period, the company has made indemnity provision for the benefit of its directors which remains in force at the date of this report.

Disclosure of Information to Auditor

The directors who held office at the date of the approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware, and each director has taken all the steps that they ought to have taken as director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information. This confirmation is given and should be interpreted in accordance with the provision of s418 of the Companies Act 2006.

Events after the balance sheet date

The directors are not aware of any events after the reporting period, commitments or contingencies other than those disclosed in the financial statements for the period ending 31 March 2018.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the directors have appointed Ernst & Young LLP as the company's registered auditor.

Signed on Behalf of the Board of Directors.

Ian Makinson

Managing Director

Date:

23rd November 2018

Statement of Directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 *Reduced Disclosure Framework*. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CITY HOSPITALS INDEPENDENT COMMERCIAL ENTERPRISES LIMITED

Opinion

We have audited the financial statements of City Hospitals Independent Commercial Enterprises Limited for the year ended 31 March 2018 which comprise the Profit and Loss Account, the Balance Sheet, the Statement of Changes in Equity and the related notes 1 to 19, including the Statement of Accounting Policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 101 "Reduced Disclosure Framework".

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 March 2018 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Statement of Directors' responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements set out on page 3, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

City Hospitals Independent Commercial Enterprises Limited

Notes to the financial statements

1. General Information

The company is incorporated in the United Kingdom under the Companies Act. The address of the registered office is given in the administrative details section of this report. The nature of the company's operations and its principal activities are set out in the business review section.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the company operates.

The company is a wholly owned subsidiary of City Hospitals Sunderland NHS Foundation Trust.

These financial statements are separate financial statements, the company is exempt from the preparation of consolidated financial statements as it is included in the group accounts of City Hospitals Sunderland NHS Foundation Trust. The group accounts for City Hospitals Sunderland NHS Foundation Trust are available to the public and can be obtained as set out in note 18.

2. Statement of Accounting Policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Basis of accounting

The company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council. The financial statements have therefore been prepared in accordance with FRS 101 (Financial Reporting Standard 101) 'Reduced Disclosure Format' as issued by the Financial Reporting Council.

As permitted by FRS 101, exemptions from applying the following requirements have been adopted:

IFRS 7 - Financial Instruments Disclosures

IAS 1 - Presentation of Financial Statements paragraphs 10(d), 10(f), 39(c) and 134-136

IAS 1 - Presentation of Financial Statements paragraph 38 (requirement to present comparative information) in respect of:

i - IAS 16 - Property Plant and Equipment paragraph 73(e)

ii - IAS 38 - Intangible Assets paragraph 118(e)

IAS 7 - Statement of Cash Flows

IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors paragraphs 30 and 31

IAS 24 - Related Party Disclosures paragraph 17

The company has also taken advantage of the exemption from the requirements in IAS 24 'Related Party Disclosures' to disclose related party transactions entered into between two or more members of the group where the parties to the transaction are wholly owned by a member of the group.

Going concern

The company has contracts with its main Shareholder for the provision of outpatient drug dispensing services and an operated healthcare facility. The directors believe that the company will be able to maintain positive cash flows for the foreseeable future and has obtained assurance of continued support from the ultimate parent company, City Hospitals Sunderland NHS Foundation Trust, regarding the ongoing availability of the intercompany loan facility. Therefore, the financial statements have been prepared on a going concern basis. The company has recorded a profit after tax of £1,236,437 (2017: profit £228,475).

Notes to the financial statements (continued)

2. Statement of Accounting Policies (continued)

Tangible fixed assets and depreciation

Tangible Fixed Assets are stated at cost net of depreciation and any provision for impairment. Assets begin depreciating in the quarter following their purchase, and are depreciated to a nil residual value. Depreciation is provided on all tangible fixed assets at rates to write off the cost of each asset on a straight line basis over its expected useful life, as follows:

	Min Years	Max Years
Plant and Machinery	5	15

Intangible fixed assets and amortisation

Intangible Fixed Assets are stated at cost net of amortisation and any provision for impairment. Assets begin amortisation in the quarter following their purchase, and are amortised to a nil residual value. Amortisation is provided on all intangible fixed assets at rates to write off the cost of each asset on a straight line basis over its expected useful life, as follows:

	Min Years	Max Years
Software	1	5

Stock

Stock is stated at the lower of cost or net realisable value, and are calculated on a first in first out basis.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

Timing differences are differences between the taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

Turnover

Turnover is stated net of VAT and trade discounts. Turnover from the sale of goods is recognised when the goods are physically dispensed or delivered to the customer. Turnover also reflects the value of work performed in the period under the operated healthcare facilities agreement.

Notes to the financial statements (continued)

2. Statement of Accounting Policies (continued)

Pension costs

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Finance costs

Finance costs of financial liabilities are recognised in the profit and loss account over the term of such instruments at a constant rate on the carrying amount.

Operating leases

Costs in respect of operating leases are charged to the profit and loss account on a straight line basis over the lease term.

Classification of financial instruments issued by the company

Financial instruments issued by the company are treated as equity (i.e. forming part of shareholder's funds) only to the extent that they meet the following two conditions;

- a. they include no contractual obligation upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company; and
- b. where the instruments will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own share, the amounts presented in these financial statements for called up share capital exclude amounts in relation to those shares.

Notes to the financial statements (continued)

3. Turnover

Turnover represents amounts derived from the provision of goods and services which fall within the company's ordinary activities after deduction of trade discounts and value added tax and arise from sales made solely in the UK.

4. Operating expenses

	Year ending 31 March 2018	Year ending 31 March 2017

	<u><u>7,111,872</u></u>	<u><u>7,812,400</u></u>

The finance lease relates to equipment provided through the company's provision of a fully managed healthcare facility. On 1 February 2017, the company leased the buildings from the Trust under an operating lease which was paid in full and is shown in Note 13, the company then provides the Trust with an operated healthcare facility including certain equipment classes which were purchased by the company from the Trust and then provided back to the Trust under a finance lease arrangement. The agreement transfers substantially all the risks and rewards incidental to ownership of the equipment assets to City Hospitals Sunderland NHS Foundation Trust.

The interest rate inherent in the lease is fixed at the contract date for the full lease term. The average effective interest rate equates to 2.8% per annum.

The operating lease relates to an agreement between the company and City Hospitals Sunderland NHS Foundation Trust. This agreement is for the company to provide managed health care services to the Trust, which will operate via a 10 year lease arrangement. On 1st February 2017 the company acquired a leasehold interest in the three main sites at Sunderland Royal Hospital, Sunderland Eye Infirmary and the Childrens Centre, in order to provide an Operated Healthcare Facility to the named sites via a leaseback arrangement.

15. Retirement benefit schemes

NHS Pension Scheme

Past and present employees are covered by the provisions of the NHS Pensions Scheme. The Scheme is an unfunded, defined benefit scheme that covers NHS employers, general practices and other bodies, allowed under the direction of Secretary of State, in England and Wales. It is not possible for the NHS Foundation Trust to identify its share of the underlying scheme liabilities. Therefore, the scheme is accounted for as a defined contribution scheme. Employer's pension cost contributions are charged to operating expenses as and when they become due.

Additional pension liabilities arising from early retirements are not funded by the scheme except where the retirement is due to ill-health. The full amount of the liability for the additional costs is charged to the operating expenses at the time the Trust commits itself to the retirement, regardless of the method of payment.

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions.

Both schemes are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the accounts do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that 'the period between formal valuations shall be four years, with approximate assessments in intervening years'. An outline of these follows:

a) Accounting valuation

A valuation of the scheme liability is carried out annually by the scheme actuary as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and are accepted as providing suitably robust figures for financial reporting purposes. The valuation of scheme liability as at 31 March 2018 is based on valuation data as 31 March 2017, updated to 31 March 2018 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the scheme actuary report, which forms part of the annual NHS Pension Scheme (England and Wales) Pension Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account their recent demographic experience), and to recommend contribution rates payable by employees and employers.

The Scheme Regulations allow for the level of contribution rates to be changed by the Secretary of State for Health, with the consent of HM Treasury, and consideration of the advice of the Scheme Actuary and appropriate employee and employer representatives as deemed appropriate.

The last published actuarial valuation undertaken for the NHS Pension Scheme was completed for the year ending 31 March 2012.

The Scheme Regulations allow for the level of contribution rates to be changed by the Secretary of State for Health, with the consent of HM Treasury, and consideration of the advice of the Scheme Actuary and appropriate employee and employer representatives as deemed appropriate.

The next actuarial valuation is to be carried out as at 31 March 2016. This will set the employer contribution rate payable from April 2019 and will consider the cost of the Scheme relative to the employer cost cap. There are provisions in the Public Service Pension Act 2013 to adjust member benefits or contribution rates if the cost of the Scheme changes by more than 2% of pay. Subject to this 'employer cost cap' assessment, any required revisions to member benefits or contribution rates will be determined by the Secretary of State for Health after consultation with the relevant stakeholders.

Estimated employer contributions for 2018/19 are £20,435k this is based upon the contribution rate of 14.38%.

Notes to the financial statements (continued)

15. Retirement benefit schemes (cont'd)

c) Scheme provisions

The NHS Pension Scheme provides defined benefits, which are summarised below. This list is an illustrative guide only, and is not intended to detail all the benefits provided by the Scheme or the specific conditions that must be met before these benefits can be obtained.

The 1995 and 2008 Schemes are “final salary” schemes. Annual pensions are normally based on 1/80th for the 1995 section and of the best of the last three years pensionable pay for each year of service, and 1/60th for the 2008 section of reckonable pay per year of membership. Members who are practitioners as defined by the Scheme Regulations have their annual pensions based upon total pensionable earnings over the relevant pensionable service.

With effect from 1 April 2008 members can choose to give up some of their annual pension for an additional tax free lump sum, up to a maximum amount permitted under HMRC rules. This new provision is known as “pension commutation”.

Annual increases are applied to pension payments at rates defined by the Pensions (Increase) Act 1971, and are based on changes in retail prices in the twelve months ending 30 September in the previous calendar year. From 2011-12 the Consumer Price Index (CPI) has been used and replaced the Retail Prices Index (RPI).

With effect from 1 April 2015 a pension scheme was introduced based on career average revalued earning (CARE) with benefits based on a proportion of pensionable earnings during an employee's career. There is a build-up rate of 1/54 of each year's pensionable earnings. The annual increase in this scheme is based on CPI plus 1.5%.

Early payment of a pension, with enhancement, is available to members of the scheme who are permanently incapable of fulfilling their duties effectively through illness or infirmity. A death gratuity of twice final year's pensionable pay for death in service, and five times their annual pension for death after retirement is payable. For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to the employer.

Members can purchase additional service in the NHS Scheme and contribute to money purchase AVCs run by the Scheme's approved providers or by other Free Standing Additional Voluntary Contributions (FSAVC) providers.

National Employment Savings Trust (NEST)

The Pensions Act 2008 (the Act) introduced a new requirement for employers to automatically enrol any eligible job holders working for them into a workplace pension scheme that meets certain requirements and provide a minimum employer contribution. The Foundation Trust implemented auto-enrolment on 1 May 2013.

Where an employee is eligible to join the NHS Pension Scheme then they will be automatically enrolled into this scheme, even if they have previously opted out. However, where an employee is not eligible to join the NHS Pension Scheme (e.g. flexible retiree employees) then an alternative scheme must be made available by the Group.

The Group has chosen NEST as an alternative scheme for the Foundation Trust and as the main scheme for CHOICE (as new CHOICE employees are not eligible to join the NHS Pension Scheme). NEST is a defined contribution pension scheme that was created as part of the government's workplace pensions reforms under the Pensions Act 2008.

Employers' pension cost contributions for both schemes are charged to operating expenses as and when they become due.

Notes to the financial statements (continued)

15. Retirement benefit schemes (continued)

With effect from 1 April 2015 a pension scheme was introduced based on career average revalued earning (CARE) with benefits based on a proportion of pensionable earnings during an employee's career. There is a build-up rate of 1/54 of each year's pensionable earnings. The annual increase in this scheme is based on CPI plus 1.5%.

Early payment of a pension, with enhancement, is available to members of the scheme who are permanently incapable of fulfilling their duties effectively through illness or infirmity. A death gratuity of twice final year's pensionable pay for death in service, and five times their annual pension for death after retirement is payable.

For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to the employer.

Members can purchase additional service in the NHS Scheme and contribute to money purchase AVCs run by the Scheme's approved providers or by other Free Standing Additional Voluntary Contributions (FSAVC) providers.

16. Provision for Liabilities

17. Called up share capital

	Nominal value	2017 number	31 March 2017
			£
Allotted, called up and fully paid: Ordinary shares	£1 each	11,892,527	11,892,527
	Nominal value	2018 number	43,190
			£
Allotted, called up and fully paid: Ordinary shares	£1 each	11,892,527	11,892,527

The company was incorporated on 10 December 2013 through the issue of 1 share at £1 par value which was settled in cash. In order to fully finance the introduction of the operated healthcare facility, part of the funding required was raised through a share issue transacted on 1 February 2017. The total funding, £39,655,086, required by the company was financed by a group loan and a share issue based on an industry standard 70:30 ratio which results in a share value increase of £11,892,526.
