The notes form part of these financial statements

#### **Balance sheet statements**

For the year ending 31 January 2021 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

This report was approved by the board of directors on 19 November 2021 and signed on behalf of the board by:

Name: Paul Anthony Hession

Status: Director

The notes form part of these financial statements

#### **Notes to the Financial Statements**

#### for the Period Ended 31 January 2021

#### 1. Accounting policies

#### Basis of measurement and preparation

These financial statements have been prepared in accordance with the provisions of Section 1A (Small Entities) of Financial Reporting Standard 102

#### **Turnover policy**

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from therendering of services. Turnover from the sale of goods is recognised when the significant risks andrewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

#### Other accounting policies

DebtorsShort term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initiallyrecognised at transaction price including any transaction costs and subsequently measured atamortised cost determined using the effective interest method, less any impairment losses for badand doubtful debts. CreditorsShort term creditors are measured at transaction price (which is usually the invoice price). Loansand other financial liabilities are initially recognised at transaction price net of any transaction costsand subsequently measured at amortised cost determined using the effective interest method. TaxationA current tax liability is recognised for the tax payable on the taxable profit of the current and pastperiods. A current tax asset is recognised in respect of a tax loss that can be carried back torecover tax paid in a previous period. Deferred tax is recognised in respect of all timing differencesbetween the recognition of income and expenses in the financial statements and their inclusion intax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to theextent that it is probable that they will be recovered against the reversal of deferred tax liabilities orother future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to thereversal of the timing difference, except for revalued land and investment property where the taxrate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.
