#### 2. Accounting policies

#### **Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102 ("FRS 102"), 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' issued by the Financial Reporting Council and give a true and fair view. The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements. #### **Basis of preparation**

The Company is exempt by virtue of s400 of the Companies Act 2006 from the requirement to prepare group accounts, as it is included within the consolidated financial statements of Bridges Fund Management Limited.

The consolidated financial statements of Bridges Fund Management Limited, within which the Company is included, can be obtained from the address given in Note 10.

#### Going concern

The Company's ultimate parent undertaking has undertaken to provide such funds as necessary to meet ongoing administrative expenses, therefore the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, the Directors continue to adopt the going concern basis in preparing the financial statements.

#### **Cash Flow Statement**

In accordance with Section 1A of FRS 102, the Company has not prepared a Cash Flow Statement, on the grounds that it qualifies as a small company.

#### Critical accounting judgements and key sources of estimation uncertainty

In application of the Company's accounting policies, which are described in this Note 2, the Directors may be required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.
