These abridged financial statements were approved by the board of directors and authorised for issue on 26 November 2021 , and are signed on behalf of the board by:

Mr T Reeves

Director

Company registration number: 08915858

Craylin Limited

Notes to the Abridged Financial Statements

Year ended 28 February 2021

1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 2 Charlotte Park Avenue, Bromley, Kent, BR1 2UG, United Kingdom.

2. Statement of compliance

These abridged financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

Basis of preparation

The abridged financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The abridged financial statements are prepared in sterling, which is the functional currency of the entity.

Revenue recognition

Turnover represents rents receivable during the year.

Income tax

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in equity, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in equity in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in equity in respect of that asset, the excess shall be recognised in profit or loss.

Investment property

Investment property is initially recorded at cost, which includes purchase price and any directly attributable expenditure. Investment property is revalued to its fair value at each reporting date and any changes in fair value are recognised in profit or loss.

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event, it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the abridged statement of financial position and the amount of the provision as an expense. Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised as a finance cost in profit or loss in the period it arises.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

4. Tangible assets

	£
Cost or valuation	
At 1 March 2020	574,786
Additions	100,529
Revaluations	1,685
