Capital Safety Global Holdings Limited

Strategic report

Business review

The company's activities are those of an intermediate holding company within the 3M Group of companies. The company is managed within the overall 3M Group and therefore its activities are intrinsically linked to the performance and strategy of the 3M Group. Further details on the performance and strategy of the 3M Group can be found at www.investors.3m.com.

The company ended the year with net assets being principally the cost of its investments in subsidiaries of \$662m (2017: \$662m).

The company received dividend from other group companies of \$nil (2017: \$nil) and paid dividends in the year of \$nil (2017: \$nil). The directors have not proposed any further dividend at the date these financial statements are issued (2017:\$nil).

Key Performance Indicators

In order to support the company's strategy and to monitor performance, the directors use a number of financial and key performance indicators (KPIs). Details of a selection of the KPIs are shown below:

- Net loss for the year was \$19k (2017 loss: \$14k), the increase in this loss is due to the administrative expenses increasing from the prior year.
- Net Assets as at 31 December 2018 were \$662m (2017: \$662m), which consist primarily of intercompany investments.

Principal risks and uncertainties

The principal risks and uncertainties for the company relate to the performance of the underlying investments. The company has no trading activities and therefore its principal risk is that the economic performance of its underlying investments deteriorates such that it causes impairment of the balance sheet carrying values. These risks are managed by other companies within the 3M Group.

Future developments

The directors do not anticipate any change in the company's principal activities in 2019.

Despite the uncertainty created in the UK following the Brexit vote, the directors expect the general level of activity within the underlying investments to increase in the coming years after exit as the certainty returns the UK's trading relationships. The group remains confident about the long-term position of the UK economy.

Climate change continues to be a high priority within the 3M group and initiatives are in place within the underlying trading investments to reduce the group's impact on the environment.

The directors are not aware of any important events affecting the company which have occurred since the end of the year, as disclosed in Note 11.

Capital Safety Global Holdings Limited

Directors' report

The directors' present their annual report on the affairs of the company, together with audited financial statements and auditor's report for Capital Safety Global Holdings Limited ("the company") for the year ended 31 December 2018. The comparatives shown are for the year ended 31 December 2017.

Activities

The company's principal activity is that of an intermediate holding company. The principal activities of its subsidiaries are the manufacture, assembly and distribution of technical safety systems. Future developments of the business are included in the strategic report.

Directors

The directors who served during the year and thereafter are shown on Page 1.

Future developments, principal risks and uncertainties, proposed dividends and subsequent events.

Details of future developments, principal risks and uncertainties, proposed dividends and subsequent events can be found in the strategic report on Page 2.

Directors Indemnities

The company maintains liability insurance for its directors and officers in accordance with the Articles of the company. The company has also provided an indemnity for its directors and the company secretary, which is a qualifying third party indemnity provision for the purposes of the Companies Act 2006. The provisions in place cover associated companies within the group.

Financial risk management objectives and policies

The directors manage the liquidity risk of the company by reviewing the timing of future cash flows against future availability of cash and loans. The company is a holding company for the underlying trading companies and provides liquidity for the operations of the companies in the group. The company does not use derivative financial instruments.

Going concern

The current economic environment creates uncertainty particularly over the level of demand for the Group's products and the fluctuations in the exchange rates amongst the major currencies.

After making enquiries, the directors have a reasonable expectation that the company and the Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements. 3M West Europe BV have provided a letter of support which agrees to provide funding as necessary to Capital Safety Global Holdings Limited to enable them to meet their financial obligations as they fall due in the foreseeable future.

Auditor

Each of the persons who is a director at the date of approval of this report confirms that:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- the director has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

A resolution for the re-appointment of Deloitte LLP will be proposed at the forthcoming Annual General Meeting.

Approved by the Board and signed on its behalf by:

S. Semerciyan
Director

Capital Safety Global Holdings Limited

Directors' responsibilities statement

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Capital Safety Global Holdings Limited

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of Capital Safety Global Holdings Limited (the 'company'):

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 11.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We are required by ISAs (UK) to report in respect of the following matters where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of these matters.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

Independent auditor's report to the members of Capital Safety Global Holdings Limited (continued)

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Capital Safety Global Holdings Limited

Notes to the financial statements For the year ended 31 December 2018

1. Accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and to the preceding year.

General information and basis of accounting

Capital Safety Global Holdings Limited is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the registered office is given on page 1.

The principal activities of the company and its subsidiaries and the nature of the company's operations are set out in the Directors' report on page 3.

The functional currency of company is considered to be US Dollars because that is the currency of the primary economic environment in which the company operates. The financial statements are also presented in US Dollars.

The financial statements have been prepared under the historical cost convention, and in accordance with Financial Reporting Standard 102 (FRS 102) 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' issued by the Financial Reporting Council.

The company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it, in these separate financial statements, in respect of presentation of a cash flow statement, remuneration of key management personnel and relevant disclosures for financial instruments.

Going concern

The current economic environment creates uncertainty particularly over the level of demand for the Group's products and the fluctuations in the exchange rates amongst the major currencies.

After making enquiries, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

The company has obtained a letter of support from a parent company of the group with strong financial resources. As a consequence, the Directors believe that the company is well placed to manage its business risks successfully.

Investments

Investments held as fixed assets are stated at cost less provisions for any impairment in value.

Foreign currencies

Transactions in foreign currencies are recorded at the exchange rate at the date of the transaction unless matched by a forward currency contract. Monetary assets and liabilities denominated in foreign currency at the balance sheet date are reported at the rate prevailing at that date, or, where appropriate, at the forward currency contract rate. Any gain or loss arising from subsequent exchange rate movements is included as an exchange gain or loss in the profit and loss account.

Capital Safety Global Holdings Limited

Notes to the financial statements (continued) For the year ended 31 December 2018

1. Accounting policies (continued)

Financial instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

(i) Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

(ii) Investments

Investments in subsidiaries and associates are measured at cost less impairment.

Taxation

The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Consolidation

These financial statements present information about the company as an individual undertaking and not about its group. The company is not required to prepare group financial statements because the company itself is a wholly owned subsidiary undertaking of a company registered in the United States of America, 3M company, which prepares consolidated financial statements. Additional information is disclosed in the notes to the financial statements on related parties.

Capital Safety Global Holdings Limited

Notes to the financial statements (continued) For the year ended 31 December 2018

2. Critical accounting judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements that the directors have made in the process of applying the company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

There are no key sources of estimation uncertainty identified.

Impairment of Investments

Investment values are carried at cost on the company's balance sheet less any accumulated impairment. The directors apply judgement to ensure that they assess these investments for impairment on an ongoing basis. Where an indicator of impairment is identified these investment balances are written down to their respective recoverable amount.

3. Loss before taxation

The company has paid no remuneration to its directors in the year (2017: \$nil) for services rendered to the company.

The company had no employees throughout the year (2017: none).

Auditor's remuneration for the year for the audit of the 2018 financial statements of £8,500 excluding VAT (2017: £8,000) has been borne by Capital Safety Acquisitions Limited, a subsidiary company.

For tax services remuneration for the year for compliance work of £2,500 excluding VAT (2017: £3,450) has been borne by Capital Safety Acquisitions Limited, a subsidiary company.

Capital Safety Global Holdings Limited

Notes to the financial statements (continued) For the year ended 31 December 2018

4. Tax on loss

The tax charge comprises:

	2018 US\$'000	2017 US\$'000
Current taxation	<u>-</u>	<u>-</u>

The differences between the total tax charge shown above and the amount calculated by applying the standard rate of UK corporation tax to the loss before tax is as follows:

	2018 US\$'000	2017 US\$'000
Loss before taxation	<u>(19)</u>	<u>(14)</u>
Tax on loss at standard UK corporation tax rate of 19% (2017: 19%)	4	-
Effects of:		
Non-taxable income	<u>(4)</u>	<u>-</u>
Total current taxation	<u>-</u>	<u>-</u>

The Finance (No 2) Act 2015, which provides for reductions in the main rate of corporation tax from 20% to 19% effective from 1 April 2017 and to 18% effective from 1 April 2020, was substantively enacted on 26 October 2015. Subsequently, the Finance Act 2016, which provides for a further reduction in the main rate of corporation tax to 17% effective from 1 April 2020, was substantively enacted on 6 September 2016.

5. Investments

	US\$'000
Cost and net book value	
At 1 January 2018	<u>661,800</u>
At 31 December 2018	<u>661,800</u>
