**Strategic Report**  
**Year ended 31 December 2021**

---

The directors present their strategic report for the year ended 31 December 2021.

**Review of business**

Keolis Amey Docklands Limited (KAD), a joint venture formed between Keolis (UK) Limited and Amey Rail Limited (a subsidiary of Amey Limited (formerly called Amey Plc), has the franchise to operate and maintain the Docklands Light Railway (DLR).

Keolis (UK) Limited holds 70% and Amey Rail Limited 30% of the share capital of Keolis Amey Docklands Limited. On 4 July 2014, Transport for London (TfL) announced that Keolis Amey Docklands Limited was the preferred bidder to operate the Docklands Light Railway (DLR). The franchise was initially to the period until 31 March 2021, with an option for an extension to 14 October 2023, however in December 2019 the franchise was extended to 31 March 2025, with the option of further 7 period extension to 11 October 2025.

The franchise focuses on boosting services and on implementing a series of service improvements to make journeys better for passengers. This means cleaner trains and stations, more reliable lifts and escalators, more efficient and reliable station maintenance, and faster passenger journeys. Prior to COVID-19, between Monday and Friday, trains ran as often as every three-and-a-half minute during peak times, and every five to ten minutes during off-peak times and at weekends. As the UK economy recovery continues, a new timetable was implemented on 26 September 2022, which aims to reduce waiting times, relieve crowding, and make it easier for people to travel across the Docklands and east London. The changes will result in more trains during the evenings and at weekends. For example, on weekday evenings, Bank-Lewisham services will run every 5 minutes rather than every 10 minutes.

The DLR is an integrated part of London's transport system, connecting with the tube, Emirates Air Line, rail, and buses throughout the DLR network.

**Principal risks and uncertainties**

The Company, in carrying out its business, faces several risks and uncertainties including exposure to credit risk, cash flow and liquidity risk, political risks, franchise compliance and safety risk.

**Credit risk**

Credit risk is the risk that one party of a financial instrument will cause a financial loss for the other party by failing to discharge its obligation. The Company does not consider there is exposure to credit risk, however material uncertainties remain as to the level of operational funding that TfL will receive during the funding period as there remains areas of significant uncertainty, and what this means for TfL's ability to continue operating the level of services currently provided.

**Cash flow and liquidity risk**

Cash flow and liquidity risk is the risk that the Company's available cash will not be enough to meet its financial obligations. The Company actively manages its cash flow position including collection of debts and timely payment of creditors. This coupled with the ongoing support of the parent companies, Keolis (UK) Limited and Amey Rail Limited, with a shareholder loan facility if required is deemed sufficient to minimise the Company's exposure to cash flow and liquidity risk.

**Franchise compliance**

KAD is required to comply with certain conditions as part of its franchise agreement. If it fails to comply with these conditions, it may be liable to penalties including the potential termination of the franchise. Compliance with franchise conditions is closely managed and monitored and procedures are in place to minimise the risk of non-compliance.

**Safety risk**

KAD remains committed, through annual continuous improvement, to maintaining a safe and secure environment for its passengers, workforce, and the public. These are supported by specific focus on safety targets including passenger and staff (internal and contractors) accident levels.

In recognition of the unprecedented events of COVID-19 the Company has been proactive in following the guidance issued by the government and introduced a range of measures to ensure the safety of passengers, staff, and the public. These measures include but are not limited to additional cleaning across the network and offices, working from home for all office-based staff (returned to office in a hybrid solution from 4 April 2022), social distancing measures such as one-way systems, providing adequate PPE to ensure a safe and secure working environment, and working with TfL to introduce new timetables to further help with social distancing on the network.

**Strategic Report - continued**  
**Year ended 31 December 2021**

---

**Performance in the year**

Service performance was excellent during the year, with an average Departure 99.22% (Franchise Target 98.4%) (2020: 99.27%), Excess Waiting Time 0.09 minutes (Franchise Target 0.18 minutes) (2020: 0.09 minutes) and Journey Times 98.74% (Franchise Target 95.00%) (2020: 98.77%). These are all significantly above the contractual targets. Annual ridership increased by 15% from the 57 million passengers in 2020 to 66 million passengers in 2021.

The directors are satisfied with the performance of the Company during the year. Turnover was £94,114,674 (2020: £91,951,826) with Profit before Tax of £3,221,393 (2020: £640,167).

**Key performance indicators**

We consider that our key financial performance indicators are those that communicate the financial performance and strength of the Company as a whole, these being turnover and profit before tax, which were in line with budget.

**Future developments**

Due to the investment made in the business in terms of additional staff, systems, and training in the first years of the franchise, all with a view to ensuring success is both sustainable and in line with the highest level of safety for both our staff and passengers, the directors do not anticipate any changes in the principal activities in the foreseeable future.

**Post balance sheets events**

Please refer to the paragraph entitled 'Events after the balance sheet date' in the Directors' Report.

**Section 172(1) statement – Director's duty to promote success of the company**

The Directors ensure that all decisions are taken for the long term and aim to always uphold the highest standard of conduct. Similarly, the Directors acknowledge that the business can only grow and prosper over the long-term if they understand and respect the views and needs of the company's stakeholders to whom we are accountable, as well as the environment we operate within.

In discharging their duties, the Directors have paid regard to the following matters:

- a) likely consequences of any decisions in the long-term
- b) interests of our employees
- c) need to foster the company's business relationships with suppliers, customers, and other key stakeholders
- d) need to act fairly between members of the company
- e) impact of the company's operations on communities and the environment
- f) desirability of the company maintaining a reputation for high standards of business conduct

The Directors have received guidance and training to support the performance of their statutory duties and have been briefed on the additional reporting requirements introduced by the Companies Act (Miscellaneous Reporting) Regulations 2018.

The following summarises how the Directors fulfil their duties under Section 172.

**a) Decision making**

Typically, in a company such as KAD, the Directors fulfil their duties partly through a governance framework that delegates day-to-day decision making to the employees of the company. The Board recognises that such delegation needs to be part of a robust governance structure, which covers our values, how we engage with our stakeholders, and how the Board assures itself that the governance structure and systems of controls continue to be robust.

All matters which under the Company's governance arrangements are reserved for the decision by Directors are presented at the Board meetings. Directors are briefed on any potential impacts and, together with the potential impact to our stakeholders, make a final decision which they believe is in the best interest of the members.

**b) Engaging with employees**

The Directors place considerable value on the input of its employees and put in place several initiatives to ensure they are engaged, empowered, and involved in the decision-making process of the business. The Directors recognise that an engaged workforce results in greater outcomes being achieved. One of the ways in which the Directors engage directly with their employees is to hold business briefings regularly giving employees opportunities to ask any questions or raise concerns. Following the briefings, any questions or concerns raised are recorded, followed, and implemented. The Directors also discuss the results of the annual employee engagement survey with an action plan being implemented to increase engagement year on year. These are just a few examples of how the Directors understand the importance of employee engagement.

**c) Company stakeholder management**

Business relationships with customers and suppliers are paramount to the success of KAD.

The Directors engage with a variety of stakeholders, including customers, regulators, and suppliers, to inform and enable balanced decisions that incorporate multiple viewpoints, whilst maintaining the Company's Strategy. In making decisions the Board considers outcomes from engagements with stakeholders, as well as the importance of maintaining the Company's integrity, brand, and reputation. KAD is committed to the highest standards of conduct, honesty, integrity, and equality and has a zero-tolerance approach to bribery and corruption in the supply chain. As part of engaging with KAD, suppliers must comply with all applicable laws including Equality Act (Section 149), Bribery Act 2010, and Modern Slavery Act 2015.

KAD also have a Responsible Procurement obligation under the Franchise Agreement that must be complied with.

KAD management team and Directors have regular engagement with regulators, discussing the governance and other specific matters in relation to KAD. With the view of instilling best practice under The International Organisation for Standardisation (ISO).

Good customer service is of paramount importance to the Directors. There are processes and policies in place to ensure that customers are treated fairly, with due care and receive the best outcome. Feedback from customers is encouraged and both positive and negative feedback is shared with all employees with the company's intranet.

In relation to suppliers, procurement and outsourcing policy ensure that tender processes are fair and transparent, and suppliers receive feedback on submissions.

**d) The need to act fairly as between members of the Company**

KAD's parent company, Keolis UK (KUK) is involved in key business decisions. KUK approves the annual business plan along with other stakeholders. KUK is represented on the Board of statutory Directors. KAD has regular supervisory meetings with Keolis Executive Board. KAD also has an independent Chair who oversees the Board and therefore ensures KAD act fairly between members.

**e) The impact of the company's operations on the community and the environment**

The Directors take all reasonable steps to minimise any detrimental impact the Company's operations may have on the environment.

KAD has continued its investment by hiring road vehicles which are hybrid or fully electric to help reduce emissions onto the environment.

Corporate Social Responsibility is important to KAD, and it undertakes many initiatives in this area. The Directors recognise the relevance of leading the company in such a way that it contributes to wider society and actively supports employees to take part in charitable events. KAD organised many fundraising events throughout the year for local charities and supported numerous food bank to donate to those in need in the local community.

**f) The desirability of the company maintaining a reputation for high standards of business conduct**

Our commitment to the highest standards of conduct, honesty, integrity, and equality is vital in our position as a contractor to a public body. We ensure all decisions are ethical and in the best interest of the public. Directors are committed to following the 7 principles of public life – selflessness, integrity, objectivity, accountability, openness, honesty, and leadership. KAD also follows the principles of Keolis UK's ethics policies including the code of conduct.

**Streamlining Energy and Carbon Reporting (SECR)**

The 2018 Regulations were put in place to increase awareness of energy costs within organisations and to provide data to inform the adoption of energy efficiency measures and to help reduce the impact on climate change. In 2021 KAD as part of its Service Excellence Every Day (SEED) vision produced a Climate and Sustainability Strategy to deliver a more environmentally friendly operation.

KAD recognises that public transport is a contributor to carbon emissions and while the DLR is an automated, electric system and is one of the greenest modes of transport, KAD believes there are still opportunities to enhance this.

KAD has set some key targets for the coming years as follows

- Achieve net zero greenhouse gas emissions by 2030
- Improve air quality by replacing 100% of diesel fleet vehicles with electric or hybrid alternatives by 2025
- Reduce annual water consumption by 20% by 2025
- Continue to have zero landfill waste and increase how much waste is recycled
- Work with TfL to protect, connect and enhance biodiversity across Docklands Light Railway

**Strategic Report - continued**  
**Year ended 31 December 2021**

The methodology used to calculate total energy consumption and carbon emissions has been invoice data for the financial years stated. Where data was not available, estimates have been calculated using historical profiles

Energy and fuel consumption has been converted to carbon (kgCO<sub>2</sub>e) using DEFRA published conversion factors. Fuel for Transportation has been converted using statistical data sets published by Department of Transport.

New DEFRA conversion tables are issued in June and cover January to December, due to our financial year covering a single data set, this report has used the 2021 annual published factors

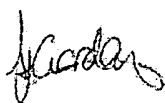

Reporting Category	Year Ended: Dec-21	Year Ended: Dec-20	Variance
<b>Energy consumption used to calculate emissions: (kWh)</b>	<b>63,202,629</b>	<b>63,217,361</b>	<b>-0.02%</b>
Scope 1 (tCO <sub>2</sub> e) Emissions from combustion of gas, transport and fugitive emissions	516	545	-5%
Scope 2 (tCO <sub>2</sub> e) Emissions from purchased electricity	12,915	14,704	-12%
Scope 3 (tCO <sub>2</sub> e) Emissions from purchased electricity	0	2	-100%
<b>Totals (tCO<sub>2</sub>e)</b>	<b>13,431</b>	<b>15,251</b>	<b>-12%</b>
Total gross emissions tCO <sub>2</sub> e '000k miles travelled by the trains	0.86	0.99	-14%

**FY2021 Emissions decrease tCO<sub>2</sub>e**

**1,820**

2020 reported electricity consumption in 2020 SECR report was actual January to April and estimated from May through to December, which has been updated with actuals and resulted in change to consumption and hence associated emissions.

Approved by the board and signed on its behalf by:

Alistair Gordon  
Director

17 February 2023

Evergreen Building North  
160 Euston Road, London, NW1 2DX

**Directors' Report**  
**Year ended 31 December 2021**

The directors present their annual report on the affairs of Keolis Amey Docklands Limited ('the Company'), together with the financial statements and auditor's report, for the year ended 31 December 2021.

**Organisation and principal activity**

Keolis Amey Docklands Limited was incorporated on 2 July 2014 (Companies House registration no 09113304). The principal activity of the Company in the year under review is delivering light rail passenger transport services in East and South East London.

**Future developments**

Details of future developments can be found in the Strategic Report on page 3.

**Events after the balance sheet date**

The Company's sole source of income is from the Franchise Agreement with Docklands Light Railway Limited, a subsidiary of TfL.

COVID-19 has led to a significant reduction in passenger income, which makes up a large proportion of TfL's income. On 25 February 2022 TfL announced that a funding and financing package (the "Fourth Funding Package") had been agreed between TfL and the DfT to support transport services in London for the period from 26 February 2022 to 24 June 2022. The Fourth Funding Package will contribute towards TfL's revenue loss due to reduced passenger numbers using TfL services because of the pandemic. This provides TfL with certainty that it will receive income equivalent to £1.6bn in passenger revenue over the Fourth Funding Period in addition to the Extraordinary Support Grant of £200m.

On 28 July 2022 TfL announced that the current extraordinary funding and financing agreement between TfL and the DfT had been extended to midday on 3 August 2022.

30 August 2022 TfL announced that a Long-Term Funding Settlement (the "Long-Term Funding Settlement") has now been agreed between TfL and the DfT to support transport services in London until 31 March 2024. The overall funding amount will be £598m for the period 30 August 2022 to 31 March 2023 and £565m for 2023/24.

**Dividends**

Nil dividends were paid during the year ended 31 December 2021 (2020: Nil).

**Going concern**

Given the significant impact of COVID-19 on the Rail Industry, the Directors have placed a focus on the appropriateness of adopting the going concern basis in preparing the financial statements for the year ended 31 December 2021. The Directors' going concern assessment is underpinned by several assumptions and takes into consideration several factors including:

- The future business plan of the Company and the projected future cash flows for the period ending 28 February 2024;
- The availability of core financial facilities including those that can be provided by both shareholders (Keolis (UK) Limited and Amey Rail Limited) along with an agreed uncommitted bank overdraft facility;
- The ability of TfL to continue to fund KAD's operations; and
- The collaborative and proactive relationship KAD has developed with both Docklands Light Railway Limited (DLRL) and Transport for London (TfL).

The Company's Directors have reviewed the Company's current financial and cash position and have assessed the forecasts and projections for the period ending 28 February 2024. As part of the cash flow review, the Directors have carried out sensitivity analysis which assumed variable revenues are not paid and this showed that the headroom available would still mean the Company can honour all contractual financial commitments as they fall due, on the premise that TfL will continue to fund the Company's operations. The Directors have also examined the status of the Company's principal contracts and likely future developments. Following this assessment, assuming TfL will continue to fund the Company's operations in line with their commitments under the Franchise Agreement, the Company's Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence from date of approval of these financial statements up to 28 February 2024.

On 30 August 2022, the TfL Board approved a long-term 20-month funding settlement with the Department of Transport (DfT) until 31 March 2024. The overall funding amount will be £598m for the period 30 August 2022 to 31 March 2023 and £565m for the period 1 April 2023 to 31 March 2024.

Although the funding settlement sets out sufficient funding to take TfL to the point of financial sustainability, as disclosed in the most recent TfL financial statements for the year ended 31 March 2022 signed in September 2022, material uncertainty remains on the level of operational funding that will actually be received during the funding period as there remains three areas of significant uncertainty:

**Directors' Report - continued**  
**Year ended 31 December 2021**

- The settlement enables the Secretary of State for Transport to adjust the amount of funding provided to TfL under this settlement using the 'dispute mechanism' if it believes that measures within the funding settlement have not been met;
- The inflation review mechanism, which may provide TfL more funding as expected inflation is likely to exceed the level assumed in TfL's Budget in 2022/23, is not certain as it is subject to Government ministerial approval;
- The requirement to deliver cost savings of £230m in addition to those already assumed in TfL's Budget.

As DLRL is a subsidiary of TfL, the ability of TfL/DLRL to continue to pay for the services it receives under the Franchise Agreement is dependent on receiving sufficient operational funding, this creates a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

Notwithstanding the material uncertainty, based on the assessment described above, the Directors have concluded that it is appropriate to continue to adopt the going concern basis in preparing the financial statements for the year ended 31 December 2021, based on the most recent forecasts and the available funding options.

The financial statements do not contain the adjustments that would result if the company was unable to continue as a going concern.

**Directors**

The directors, who served throughout the year and up to the date of this report, were as follows:

A J F Gordon (appointed 20 May 2021)  
Sir D W Jones (appointed on 20 May 2021)  
A R Joy (resigned on 22 October 2021)  
K Bennett  
N W Stevens (resigned on 25 March 2021)  
R J Graham  
V Merle  
J J Page  
J R Holmes (appointed 24 November 2022)

**Statement as to Director engagement**

Please refer to the paragraph entitled 'Company stakeholder management' in the Strategic Report as to how the directors have engaged with suppliers, customers, and others in a business relationship with the Company.

Please refer to the paragraph entitled 'Engaging with employees' in the Strategic Report as to how directors have engaged with employees and have regards to their interests.

**Employee involvement**

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through formal and informal meetings. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests. The Directors also discuss the results of the annual employee engagement survey with an action plan being implemented to increase engagement year on year.

**Disabled employees**

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

**Statement as to disclosure of information to auditor**

So far as the directors are aware, there is no relevant audit information (as defined by Section 418 of the Companies Act 2006) of which the company's auditor is unaware, and each director has taken all the steps that he ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

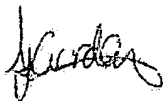

Directors' Report - continued  
Year ended 31 December 2021

---

**Auditor**

Ernst & Young LLP will be proposed for reappointment in accordance Section 485 of the Companies Act 2006

Approved by the board and signed on its behalf by:

Alistair Gordon  
Director

17 February 2023

Evergreen Building North  
160 Euston Road, London, NW1 2DX

**Directors' responsibilities statement**  
**Year ended 31 December 2021**

---

**Directors' responsibilities statement**

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards) including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the situation of the Company and of the profit or loss of the Company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**Independent Auditor's Report to the members of Keolis Amey Docklands Limited**  
**Year ended 31 December 2021**

---

**Qualified opinion**

We have audited the financial statements of Keolis Amey Docklands Limited for the year ended 31 December 2021 which comprise the Profit and Loss Account, the Statement of comprehensive income, the Balance Sheet, the Statement of changes in equity and the related notes 1 to 18, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, except for the possible effects on the corresponding figures of the matters described in the basis for qualified opinion section of our report, the financial statements:

- give a true and fair view of the company's affairs as at 31 December 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

**Basis for qualified opinion**

We did not observe the counting of physical inventories in the year ended 31 December 2019. Further, we were unable to satisfy ourselves by alternative means concerning the inventory quantities of £4,627,798 held at 31 December 2019 by using other audit procedures. Consequently, we were unable to determine whether there was any consequential effect on the inventory consumption costs for the year ended 31 December 2020. Our audit opinion on the financial statements for year ended 31 December 2020 was modified accordingly. Our opinion on the current year's financial statements is also modified because of the possible effect of this matter on the comparability of the current year's figures and the corresponding figures. In addition, were any adjustment to the inventory consumption costs for year ended 31 December 2020 to be required, the corresponding profit before tax figures in the strategic report would also need to be amended.

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

**Material uncertainty related to going concern**

We draw attention to Note 1 in the financial statements, which describes the areas of significant uncertainty relating to the level of operational funding that will actually be received by Transport for London during the funding period which may impact the Company's ability to continue operating the level of services currently provided and to fund committed franchisee obligations. As stated in Note 1, this event or condition, indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

**Other information**

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

**Independent Auditor's Report to the members of Keolis Amey Docklands Limited - continued**  
**Year ended 31 December 2021**

---

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

As described in the basis for qualified opinion section of our report, we were unable to satisfy ourselves concerning the inventory consumption costs for year ended 31 December 2020. We have concluded that where the other information refers to the inventory consumption costs for the comparative period it may be materially misstated for the same reason.

**Opinions on other matters prescribed by the Companies Act 2006**

Except for the possible effects of the matter described in the basis for qualified opinion section of our report, in our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

**Matters on which we are required to report by exception**

Except for the matter described in the basis for qualified opinion section of our report, in the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns;
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

**Responsibilities of directors**

As explained more fully in the directors' responsibilities statement set out on page 9, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

***Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud***

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

**Independent Auditor's Report to the members of Keolis Amey Docklands Limited - continued**  
**Year ended 31 December 2021**

---

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are those that relate to the reporting framework (FRS 102 and the Companies Act 2006) and the relevant direct and indirect tax compliance regulation in the United Kingdom. In addition, the company has to comply with laws & regulations related to its operations, such as General Data Protection Regulation (GDPR), Employment Rights Act 1996, The Equality Act 2010, as well as industry-specific regulations, including Railways Act 1993, Railways Act 2005, Health and Safety at Work Act 1974 and the Railways and Other Guided Transport (Safety) Regulations 2006.
- We understood how the company is complying with those frameworks by making enquiries of management to understand how the company maintains and communicates its policies and procedures in these areas, and corroborated this by reviewing supporting documentation, including the company's Anti-Corruption Policy.
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by meeting with management to understand where they considered there was susceptibility to fraud; determining which account balances are subjective in nature; understanding the company's key performance indicators and considering the process and controls which the company has established to prevent and detect fraud, and how these are monitored.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved: inquiries of management (and where applicable those charged with governance), review of Board minutes; and obtaining written representations. In addition, we incorporated data analytics into our testing of journals. We tested journals identified by specific risk back to source documentation or independent confirmation, ensuring appropriate authorisation of the transactions.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

**Use of our report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1. Accounting policies

Accounting convention

Keolis Amey Docklands Limited ('the Company') is a private Company limited by shares incorporated in England and Wales under the Companies Act. The address of the registered office is given on page 1. The nature of the Company's operations and its principal activities are set out in the strategic report on pages 2 to 3.

The financial statements have been prepared under the historic cost convention and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council.

The functional currency of the Company is pounds sterling because that is the currency of the primary economic environment in which the Company operates. The presentational currency is pounds sterling, and no rounding has been applied.

The Company meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements. The Company is consolidated in the financial statements of its parent, Keolis S.A., a Company registered in France, which may be obtained at 34, avenue Léonard de Vinci 92400 Courbevoie – France, or on the Keolis website at [www.keolis.com](http://www.keolis.com). Exemptions have been taken in these separate Company financial statements in relation to financial instruments, presentation of a cash flow statement and remuneration of key management personnel.

Going concern

Given the significant impact of COVID-19 on the Rail industry, the Directors have placed a focus on the appropriateness of adopting the going concern basis in preparing the financial statements for the year ended 31 December 2021. The Directors' going concern assessment is underpinned by several assumptions and takes into consideration several factors including:

- The future business plan of the Company and the projected future cash flows for the period ending 28 February 2024;
- The availability of core financial facilities including those that can be provided by both shareholders (Keolis (UK) Limited and Amey Rail Limited) along with an agreed uncommitted bank overdraft facility;
- The ability of TFL to continue to fund KAD's operations; and
- The collaborative and proactive relationship KAD has developed with both Docklands Light Railway Limited (DLRL) and Transport for London (TfL).

The Company's Directors have reviewed the Company's current financial and cash position and have assessed the forecasts and projections for the period ending 28 February 2024. As part of the cash flow review, the Directors have carried out sensitivity analysis which assumed variable revenues are not paid and this showed that the headroom available would still mean the Company can honour all contractual financial commitments as they fall due, on the premise that TFL will continue to fund the Company's operations. The Directors have also examined the status of the Company's principal contracts and likely future developments. Following this assessment, assuming TFL will continue to fund the Company's operations in line with their commitments under the Franchise Agreement, the Company's Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence from date of approval of these financial statements up to 28 February 2024.

On 30 August 2022, the TFL Board approved a long-term 20-month funding settlement with the Department of Transport (DfT) until 31 March 2024. The overall funding amount will be £598m for the period 30 August 2022 to 31 March 2023 and £565m for the period 1 April 2023 to 31 March 2024.

Although the funding settlement sets out sufficient funding to take TFL to the point of financial sustainability, as disclosed in the most recent TFL financial statements for the year ended 31 March 2022 signed in September 2022, material uncertainty remains on the level of operational funding that will actually be received during the funding period as there remains three areas of significant uncertainty:

- The settlement enables the Secretary of State for Transport to adjust the amount of funding provided to TFL under this settlement using the 'dispute mechanism' if it believes that measures within the funding settlement have not been met;
- The inflation review mechanism, which may provide TFL more funding as expected inflation is likely to exceed the level assumed in TFL's Budget in 2022/23, is not certain as it is subject to Government ministerial approval;
- The requirement to deliver cost savings of £230m in addition to those already assumed in TFL's Budget.

As DLRL is a subsidiary of TFL, the ability of TFL/DLRL to continue to pay for the services it receives under the Franchise Agreement is dependent on receiving sufficient operational funding, this creates a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern.

Notes to the Financial Statements - continued  
Year ended 31 December 2021

1. Accounting policies – continued

**Going concern – continued**

Notwithstanding the material uncertainty, based on the assessment described above, the Directors have concluded that it is appropriate to continue to adopt the going concern basis in preparing the financial statements for the year ended 31 December 2021, based on the most recent forecasts and the available funding options.

The financial statements do not contain the adjustments that would result if the company was unable to continue as a going concern.

**Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods and services provided in the normal course of business, net of discounts, VAT, and other sales-related taxes.

**Intangible fixed assets**

Intangible fixed assets are amortised at rates calculated to write off the assets on a straight basis over their estimated useful economic lives, not to exceed the franchise term. Impairment of intangible assets is only reviewed where circumstances indicate that the carrying value of an asset may not be fully recoverable. Keolis Amey Docklands Limited mainly have intangible assets relating to development of Asset Management System.

Mobilisation Cost	- straight-line over 6 years (to end of Franchise)
Asset Management System	- straight-line over 6 years (to end of Franchise)
Support Systems	- straight-line over 6 years (to end of Franchise)

**Tangible fixed assets**

Tangible fixed assets are recorded at historical cost less accumulated depreciation. Cost comprises the purchase price and any costs directly attributable to bringing the asset to its working condition and location for its intended use. Depreciation is provided at the following annual rates to write down the cost of each asset to its estimated residual value over its estimated useful life:

Computer and other equipment	- straight-line over 3 years
------------------------------	------------------------------

**Taxation**

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in years different from those in which they are recognised in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, based on all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Deferred tax relating to non-depreciable property, plant and equipment measured using the revaluation model and investment property is measured using the tax rates and allowances that apply to sale of the asset. In other cases, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the way the Company expects, at the end of the reporting year, to recover or settle the carrying amount of its assets and liabilities.

Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Company intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset only if: a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend

Notes to the Financial Statements - continued  
Year ended 31 December 2021

---

1. Accounting policies – continued

**Taxation– continued**

either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future year in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

**Financial assets and liabilities**

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

**Foreign currency**

Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Non-monetary assets and liabilities and transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are considered in arriving at the operating result.

**Operating profit**

Operating profit is stated before investment income and finance costs.

**Pension costs and other post-retirement benefits**

The Company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund.

In addition, Keolis Amey Docklands Limited pays contributions to the DLR Pension Scheme during the Franchise Term at a fixed rate of 35.7% per annum of the Pensionable Salary (as defined in the rules of the DLR Pension Scheme) of each Existing Member. This is a multi-employer defined benefit scheme which the Company accounts for as a defined contribution scheme since enough information is not available to use defined benefit accounting.

The payments made to The Docklands Light Railway Pension Scheme by Keolis Amey Docklands Limited are charged to the profit and loss account when they are incurred.

**Inventories**

Inventories consist primarily of materials required for maintenance of infrastructure and rolling stock. Materials are held as inventory until they are issued to a workorder for reactive, preventative, or planned maintenance, at which stage the costs are taken into account in arriving at the operating result.

Cost is calculated using the weighted average method. Provision is made for obsolete or defective items where appropriate.

**Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Company's accounting policies, which are described above, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

Notes to the Financial Statements - continued  
Year ended 31 December 2021

2. Turnover

The turnover and profit before taxation are attributable to the principal activities of the Company.

An analysis of turnover is given below:

	2021 £	2020 £
Fixed Fee	81,473,287	77,805,513
Performance	9,657,623	9,509,451
Project Assurances	960,326	910,618
Other Income	<u>2,023,438</u>	<u>3,726,244</u>
	<u>94,114,674</u>	<u>91,951,826</u>

3. Staff costs

	2021 £	2020 £
Wages and salaries	46,762,074	46,947,227
Social security costs	5,571,250	5,536,370
Other pension costs	<u>8,029,657</u>	<u>8,189,676</u>
	<u>60,362,981</u>	<u>60,673,273</u>

The average monthly number of employees during the year was as follows:

	2021	2020
Operations	470	506
Engineering and Maintenance	314	287
Support Function	<u>58</u>	<u>60</u>
	<u>842</u>	<u>853</u>

Directors' remuneration and Transactions

	2021 £	2020 £
Directors' Remuneration	18,242	150,929
Directors' Pension Contribution to Money Purchase Schemes	<u>-</u>	<u>-</u>

4. Operating profit

Profit for the year has been arrived at after charging:

	2021 £	2020 £
Materials Consumption	2,688,729	3,431,658
Amortisation – Intangible assets (note 8)	858,884	2,767,191
Depreciation – Tangible assets (note 7)	186,232	241,852
Auditor's remuneration- Statutory audit	<u>61,200</u>	<u>58,900</u>

Notes to the Financial Statements - continued  
Year ended 31 December 2021

5. Interest payable and similar charges

	2021 £	2020 £
Interest payable to group companies	-	40,172
Financial Charges	<u>7,147</u>	<u>12,777</u>
	<u>7,147</u>	<u>52,949</u>

6. Taxation

**Analysis of the tax**

The tax on the profit for the year was as follows:

	2021 £	2020 £
Current tax:		
UK corporation tax	<u>689,064</u>	<u>144,079</u>
Tax on profit	<u>689,064</u>	<u>144,079</u>

**Factors affecting the tax charge for the year**

The tax assessed for the year is higher than the standard rate of corporation tax in the UK. The difference is explained below:

	2021 £	2020 £
Profit before tax	<u>3,221,393</u>	<u>640,167</u>
Profit before tax multiplied by the standard rate of corporation tax in the UK of 19% (2020 19%)	612,065	121,632
Effects of:		
Timing differences	71,303	(6,357)
Non-deductible expenses	220,476	571,718
Capital Allowances	<u>(214,780)</u>	<u>(542,914)</u>
Current Tax charge for the year	<u>689,064</u>	<u>144,079</u>

**Factors that may affect future tax charges**

UK Corporation Tax is calculated at a rate of 19 per cent. In the Spring Budget 2021, it was announced that the main rate of Corporation Tax will increase to 25 per cent with effect from 1 April 2023, this increase was substantively enacted on 24 May 2021. This rate increase will have a consequential effect on the company's future tax charge.

14. Pension commitments

The Company operates a defined benefit and defined contributions pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The pension cost charge represents contributions payable by the Company to the fund amounted to £5,278,078 (2020: £5,647,113).

The Company accounts for the defined benefit scheme (which is a multi-employer scheme) as a defined

Notes to the Financial Statements - continued  
Year ended 31 December 2021

14. Pension commitments - continued

contribution scheme since sufficient information is not available to use defined benefit accounting. The Company is liable to contribute to the Docklands Light Railway Pension Scheme in respect of the increase in the value of liabilities (if any) measured on the current valuation basis in respect of salary increases awarded to active members of the Scheme since the commencement of the Franchise more than Retail Prices Index (RPI) inflation plus 1.5% pa. The aggregate increase in salaries over the period from 7 December 2014 to 1 April 2021 was 20.93%. This is lower than the increase in the RPI over the 84 month period to March 2021 plus 1.5% pa (i.e. 29.03%), hence there is no additional liability to the Company. The Company is not liable to the Docklands Light Railway Pension Scheme for other entities' obligations under the terms and conditions of the multi-employer scheme.

15. Ultimate parent Company

The Company's immediate parent Company is Keolis (UK) Limited, a private company incorporated in England.

Keolis (UK) Limited's immediate parent Company Keolis S.A., a private company incorporated in France. Keolis S.A. is the parent undertaking of the smallest group of companies for which group accounts are prepared. Copies of these accounts can be obtained from the registered office of Keolis S.A. located at 34, avenue Leonard de Vinci 92400 Courbevoie – France, or on the Keolis website at [www.keolis.com](http://www.keolis.com).

The Company's ultimate parent companies and controlling shareholders are SNCF and Caisse de Depot et Placement du Quebec (CDQ). SNCF is a Company registered in France. CDQ is established by statute in Quebec Canada. The respective controlling interests in the Company are 30.0% CDQ and 70.0% SNCF.

SNCF is the parent undertaking of the largest group of companies for which group accounts are prepared. Copies of these accounts can be obtained at SNCF, 34 rue du Commandant René Mouchotte 75014, Paris, France, or on the SNCF website at [www.sncf.com](http://www.sncf.com).

16. Related party disclosures

During the year the Company has accrued expenses for services rendered in the ordinary course of business from Keolis (UK) Limited at a cost of £997,154 (2020: Nil) and Amey Rail Limited at a cost of £427,352 (2020: Nil).

17. Subsequent events

The Company's sole source of income is from the Franchise Agreement with Docklands Light Railway Limited, a subsidiary of TfL.

COVID-19 has led to a significant reduction in passenger income, which makes up a large proportion of TfL's income. On 25 February 2022 TfL announced that a funding and financing package (the "Fourth Funding Package") had been agreed between TfL and the DfT to support transport services in London for the period from 26 February 2022 to 24 June 2022. The Fourth Funding Package will contribute towards TfL's revenue loss due to reduced passenger numbers using TfL services because of the pandemic. This provides TfL with certainty that it will receive income equivalent to £1.6bn in passenger revenue over the Fourth Funding Period in addition to the Extraordinary Support Grant of £200m.

On 28 July 2022 TfL announced that the current extraordinary funding and financing agreement between TfL and the DfT had been extended to midday on 3 August 2022.

30 August 2022 TfL announced that a Long-Term Funding Settlement (the "Long-Term Funding Settlement") has now been agreed between TfL and the DfT to support transport services in London until 31 March 2024. The overall funding amount will be £598m for the period 30 August 2022 to 31 March 2023 and £565m for 2023/24.

HMG also remains supportive of TfL growing its commercial development income, particularly where legislative changes may be needed.

18. Reconciliation of movements in shareholders' funds

	2021 £	2020 £
