Drove Lane Solar Park CIC

Response to questions from the Office of the Regulator

1. What consultation has taken place with the community and how?

In July 2014 Community Heat and Power Ltd were contracted to consult with the community at Coombe Bissett. Over the summer/autumn period letters were sent out to village organisations informing them of the opportunities for community benefit funding and potential for shared ownership of the solar farm. The following organisations were contacted:

- Primary School
- Parish Council
- Church
- Village Hall
- Garden Club

Additionally, telephone and face to face conversations with the Parish Council (via the Clerk) took place regarding the potential benefits of the solar farm to the local community.

2. How will the CIC and local community benefit from the initiative?

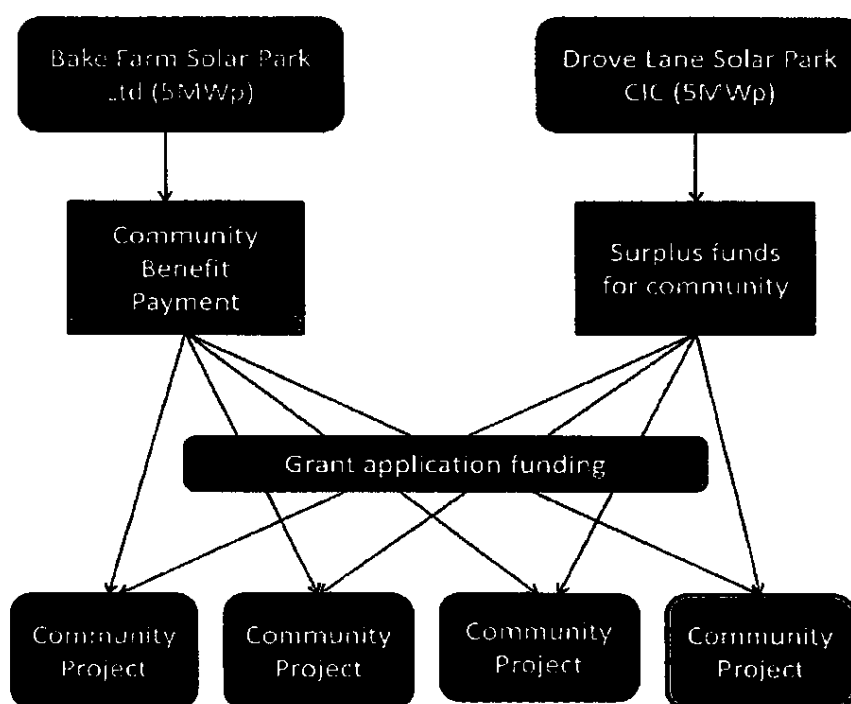

As outlined in the CIC 37 the purpose of the CIC is to create a trading surplus through which community projects will be funded. The funding will take the form of grants which will be made available to local community organisations which make suitable applications. It is also envisaged that any unspent income from this process will be used to fund advice and guidance on energy efficiency, tackling fuel poverty and providing support to community groups interested in exploring community energy projects.

The creation of the CIC, its aims and objectives and the associated grant application process would be advertised to the community in the following ways:

- A leaflet promoting the grant fund will be distributed to every community/voluntary/interest group, Parish Councils, Local Authorities and community and voluntary sector organisations working within the identified area of benefit.
- A dedicated website for the CIC fund will be created.
- A local grant committee would be established to process grant applications.
- The rules and regulations of the grant process will follow best practice and will be checked and audited by an accountant and solicitor to ensure all financial legislation has been met.

3. Will the CIC be an energy provider or is it intended as a SPV for an energy provider? If so, who is the energy provider and can we confirm what the community benefit from the activity will be specifically?

The CIC will own a solar park (with an installed capacity of approximately 5MW) The income from the solar park will be cash from electricity Feed in Tariff ("FIT") subsidy and exported generation to the grid The energy provider is the solar park in the SPV – the community will benefit from the excess cash flow generated by the solar park to fund the aforementioned community projects and activities The following structure will be adopted which also identifies Community Benefit Payments from Bake Farm Solar Park Limited in addition to the trading surplus from the CIC It is anticipated that a further CIC will be incorporated at the level of 'Grant Application Funding' as a conduit to distribute the funds Once incorporated this distribution CIC will be identified as Drove Lane Solar Park CIC's nominated asset locked body with its articles updated accordingly

4. Will the CIC be accessing debt finance or share investment and will this be through Sitr?

The CIC will be accessing construction finance initially to enable it to fund the build of the solar park via an EPC contract with British Solar Renewables Limited. Once the solar park has been built and accredited the CIC will either be refinanced or potentially sold to a similar organisation. Sitr is not applicable as initial funding will be in the form of debt.

5. How long will the scheme run for?

The build is currently planned to start in August 2015 and the park is scheduled to be completed in November 2015. Once built the solar park will have the FIT subsidy for a period of 20 years.

6. How long will the scheme run for and how long do you anticipate it will take before the debt is repaid before the end of scheme?

The CIC will be refinanced based on the forecast cash flows of the solar park. The financing will assume that the life of the park is 25 years and the debt will be assumed to be repaid over a 20 year period.
