SKSi LimitedNotes to the Financial Statements
for the Year Ended 30 November 2021**1. ACCOUNTING POLICIES****BASIS OF PREPARATION**

These financial statements have been prepared in accordance with International Financial Reporting Standards and IFRIC interpretations and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention.

CASH AND CASH EQUIVALENTS

Cash represents cash in hand and deposits held on demand with financial institutions. Cash equivalents are short-term, highly-liquid investments with original maturities of three months or less (as at their date of acquisition). Cash equivalents are readily convertible to known amounts of cash and subject to an insignificant risk of change in that cash value.

In the presentation of the Statement of Cash Flows, cash and cash equivalents also include bank overdrafts. Any such overdrafts are shown within borrowings under 'current liabilities' on the Statement of Financial Position.

PROPERTY, PLANT AND EQUIPMENT

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

INVENTORIES

Work in progress is valued at the lower of cost and net realisable value.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

TAXATION

Current taxes are based on the results shown in the financial statements and are calculated according to local tax rules, using tax rates enacted or substantially enacted by the statement of financial position date.

LEASES

Leases are recognised as finance leases. The lease liability is initially recognised at the present value of the lease payments which have not yet been made and subsequently measured under the amortised cost method. The initial cost of the right-of-use asset comprises the amount of the initial measurement of the lease liability, lease payments made prior to the lease commencement date, initial direct costs and the estimated costs of removing or dismantling the underlying asset per the conditions of the contract.

Where ownership of the right-of-use asset transfers to the lessee at the end of the lease term, the right-of-use asset is depreciated over the asset's remaining useful life. If ownership of the right-of-use asset does not transfer to the lessee at the end of the lease term, depreciation is charged over the shorter of the useful life of the right-of-use asset and the lease term.

EMPLOYEE BENEFIT COSTS

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the income statement in the period to which they relate.
