### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2019

### 1. STATUTORY INFORMATION

SomaLogic Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

### 2. ACCOUNTING POLICIES

### Basis of preparing the financial statements

These financial statements have been prepared in accordance with "The Financial Reporting Standards applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime.

The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below.

The directors have considered the impact and risk on the company of COVID-19 and the company's prospects, recognising the high degree of uncertainty. The directors have concluded that with the right management actions the company is a going concern for at least least 12 months following the signature of the financial statements. Accordingly the directors have prepared the financial statements on this basis

#### Turnover

The turnover shown in the profit and loss account represent amounts receivable from the parent undertaking during the year, for the provision of sales and marketing support functions. Turnover in respect of services provided to the parent undertaking is calculated as attributable cost plus 4% in accordance with a transfer pricing agreement between SomaLogic UK Limited and the parent undertaking.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Improvements to property - Over the length of the lease

Laboratory equipment - 20% Straight Line Computer equipment - 33.33% Straight Line

### **Equity instruments**

Equity instruments issued by the company are recorded at the fair value of the proceeds received net of direct issue costs. Dividend's payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

### Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

## NOTES TO THE FINANCIAL STATEMENTS - continued FOR THE YEAR ENDED 31 DECEMBER 2019

### 2. ACCOUNTING POLICIES - continued

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

### Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

### Leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

### Share-based payments

Share based payments are disclosed within the capital contribution reserve. Where share options are awarded to employees, the fair value of the options at the date of grant is charged to the statement of comprehensive income over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each statement of financial position date so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to the statement of comprehensive income over the remaining vesting period.

## Financial assets

The Company has elected to apply the provision of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Basic financial assets, which include trade and other receivables and cash and bank balances are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method, unless the arrangement constitutes a financial transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

### Financial liabilities

Basic financial liabilities which include trade and other payables, are initially measured at transaction price and subsequently measured at amortised cost, unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

### 3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 6 (2018 - 5).
