In preparing these financial statements, the directors are required to:

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2019**

**1. General information**

Discover Newmarket Community Interest Company is a private company limited by guarantee, incorporated in England and Wales, United Kingdom. The address of the registered office is Westfield House The Links, Cambridge Road, Newmarket, CB8 0TG.

The principal activity of the company is to carry on activities which benefit the community and in particular (without limitation) to the Horseracing industry and local businesses within the town of Newmarket and the surrounding areas.

**2. Accounting policies**

**2.1 Basis of preparation of financial statements**

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

**2.2 Going concern**

The company is dependant on the continued financial support of its stakeholders which is expected to continue for the foreseeable future. On this basis, the directors consider it appropriate to prepare the financial statements on a going concern basis.

Since the beginning of 2020 Covid-19 (the Coronavirus) has spread rapidly around the world with increasingly drastic effects on society and the economy. At the time of writing the full consequences are impossible to foresee, while the general effects on the economy and society are negative. The company has taken steps to mitigate the impact of Covid-19 on the business.

The directors have considered the effects of the pandemic and whether any adjustments are required to the reported amounts in the financial statements. Although there is a high level of uncertainty about how long the Coronavirus restrictions will last, the directors consider that the resources available to the company will be sufficient for it to be able to continue as a going concern.

Accordingly the financial statements have been prepared on a going concern basis and do not include any adjustments that would result if the company was not able to continue as a going concern.

**FOR THE YEAR ENDED 31 DECEMBER 2019**

**2. Accounting policies (continued)**

**2.3 Turnover**

Turnover comprises amounts recognised by the company in respect of local tours, stakeholder subscriptions together with amounts invoiced during the period for website advertising.

Where subscriptions and other income have been invoiced for a period beyond the accounting date, the income relating to the period after the year end is treated as deferred income and carried forward to the next accounting period.

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the Company and the turnover can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before turnover is recognised:

**Rendering of services**

Turnover from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the Company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

**2.4 Tangible fixed assets**

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Computer equipment	- over 3 or 4 years
--------------------	---------------------

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

**2. Accounting policies (continued)**

**2.5 Debtors**

Short term debtors are measured at transaction price, less any impairment.

**2.6 Cash and cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

**2.7 Financial instruments**

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of Income and Retained Earnings.

**2.8 Creditors**

Short term creditors are measured at the transaction price.

**2.9 Finance costs**

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

**3. Employees**

The average monthly number of employees, including directors, during the year was 19 (2018 - 19).
