**2. ACCOUNTING POLICIES**

**Financial instruments**

2. **ACCOUNTING POLICIES - continued**

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

**Going concern**

The Covid-19 pandemic is an unprecedented situation and while the reduction in activity associated with Covid-19 could be sharp and large, it is likely to rebound when the UK economy settles down to working in these new times. In the intervening period, while activity is disrupted, substantial government and central bank measures have been put in place in the UK to support businesses and households. The measures, which have been evolving rapidly and could evolve further, are expected to remain in place throughout the period of disruption.

In light of the above, the director considers the Covid-19 pandemic has affected her business, but not to the extent that it will cause the business to cease trading, as such the director considers it appropriate to prepare the accounts on a going concern basis.
