Notes to the Financial Statements
for the Year Ended 31 March 2020

1. **STATUTORY INFORMATION**

Thamesair Consultancy Ltd is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. **STATEMENT OF COMPLIANCE**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

3. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

The financial statements are presented in sterling (£) which is also the functional currency for the company.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Rendering of services

Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs. Turnover is only recognised to the extent of recoverable expenses when the outcome of a contract cannot be estimated reliably.

Taxation

Current tax is recognised for the amount of income tax payable in respect of the taxable profit for the current or past reporting periods using tax rates that have been enacted or substantively enacted by the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against future taxable profits or against the reversal of deferred tax liabilities.

Deferred tax is calculated using tax rates that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Trade and other receivables

Trade and other receivables are measured at transaction price less any impairment unless the arrangement constitutes a financing transaction in which case the transaction is measured at the present value of the future receipts discounted at the prevailing market rate of interest. Loans are initially measured at fair value and are subsequently measured at amortised cost using the effective interest method less any impairment.

Trade and other payables

Trade and other payables are measured at their transaction price unless the arrangement constitutes a financing transaction in which case the transaction is measured at present value of future payments discounted at prevailing market rate of interest. Other financial liabilities are initially measured at fair value net of their transaction costs. They are subsequently measured at amortised cost using the effective interest method.

4. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 2 (2019 - 1).
