1. Progress of the Administration

FRP

Work undertaken during the period

I attach at **Appendix C** a schedule of work undertaken during the period together with a summary of work still to be completed.

I can confirm that no work has been subcontracted to third parties.

Attached at **Appendix E** is a receipts and payments account detailing both transactions for the period of this report and also cumulatively since my appointment as Administrator.

Payments made from the estate are fair and reasonable and proportionate to the insolvency appointment and are directly attributable to this insolvency.

No payments have been made to associates of the Administrators without the prior approval of creditors as required by SIP9.

Investigations

Part of my duties include carrying out proportionate investigations into what assets the Company has, including any potential claims against directors or other parties, and what recoveries could be made. I have reviewed the Company's books and records and accounting information, requested further information from the directors, and invited creditors to provide information on any concerns they have regarding the way in which the Company's business has been conducted.

Further details of the conduct of my investigations are set out in the schedule of work attached. I can confirm that no further investigations or actions were required.

Extension to the initial period of appointment

The Administration was extended by 12 months to 02 January 2022 by secured and preferential creditors. The Administration was extended by 12 months by order of the court to 02 January 2023. This was done to allow finalisation of book debt collections and to allow for the consideration of unsecured claims received from various creditors, prior to steps being taken to declare dividends to appropriate classes of creditor.

Anticipated exit strategy

It is anticipated that the exit route from Administration will be by dissolution. This assumes that the distribution to unsecured creditors will only be by virtue of the Prescribed Part of Net Property (further details of which are at Section 2 of this report).

2. Estimated Outcome for the creditors

FRP

The estimated outcome for creditors was set out in the Administrators proposals.

Outcome for the secured creditors

Fixed Charge

It is anticipated that the secured creditor, CNG, will not receive a distribution under its fixed charge as no fixed charge assets have been realised.

Floating Charge

The secured creditor, CNG, has received a distribution under its floating charge of £1.36m. No further distributions are anticipated.

Outcome for the preferential creditors

The Administrators believe there will be limited preferential claims from the Company's pension provider and employees. These claims are awaited. The anticipated preferential creditors totalling circa £2k are expected to receive a dividend of 100p in the £.

Outcome for the unsecured creditors

The Administrators believe that there will not be a distribution to the unsecured creditors, other than by virtue of the prescribed part.

Prescribed Part

Details of how the prescribed part is calculated were circulated to creditors in the Joint Administrators' Proposals issued to creditors on 27 February 2020. Our current estimate of the values of Net Property and the Prescribed Part are respectively £1,711k and £345k.

3. Administrators’ remuneration, disbursements, expenses and pre-appointment costs

Administrators’ remuneration

The Administrators’ remuneration was approved by the relevant creditors, which in this matter are the secured creditor and the preferential creditors, on 1 November 2021 on a time cost basis subject to a limit of £362,540 plus VAT and disbursements.

A breakdown of our time costs incurred during the period of this report and to date is attached at **Appendix D**. The remuneration anticipated to be recovered by the Administrators based on time costs, has exceeded the sum provided in the fees estimate circulated to creditors with the proposals.

The Administrators are unable to draw fees based on time costs exceeding the total amount set out in the fees estimate without further approval of the secured and preferential creditors. Approval will be sought under separate cover if required.

Administrators’ disbursements

The Administrators’ disbursements are a recharge of actual costs incurred by the Administrators on behalf of the Company. Mileage payments made for expenses relating to the use of private vehicles for business travel, which is directly attributable to the insolvency estate, are paid by FRP at the HMRC approved mileage rate prevailing at the time the mileage was incurred. Details of disbursements incurred during the period of this report are set out in **Appendix D**.

Administrators’ expenses

An estimate of the Administrators’ expenses was set out in the Administrators’ proposals. I attach at **Appendix F** a statement of expenses that have been incurred during the period covered by this report. It is currently expected that the expenses incurred or anticipated to be incurred are not likely to exceed the details previously provided

When instructing third parties to provide specialist advice and services, or having the specialist services provided by the firm, the Joint Administrator is obligated to ensure that such advice or work is warranted and that the advice or work contracted reflects the best value and service for the work being undertaken. This is reviewed by the Joint Administrator periodically throughout the duration of the assignment. The specialists chosen may regularly be used by the Joint Administrator and usually have knowledge specific to the insolvency industry and, where relevant, to matters specific to this insolvency appointment.

A schedule of work

FRP

Breeze Energy Supply Limited Breeze Energy (IN ADMINISTRATION)**Schedule of Work**

The table below sets out a detailed summary of the work undertaken by the office holder(s) during the reporting period together with an outline of work still to complete. Where work undertaken results in the realisation of funds (from the sale of assets; recoveries from successful actions taken against third parties), there may be a financial benefit to creditors should there be sufficient funds available to make a distribution to one or more class of creditor. In this case work undertaken will include the scrutiny and agreement of creditor claims.

A proportion of the work undertaken by an Insolvency Practitioner is required by statute, including ensuring the appointment is valid, notifications of the appointment to third parties, regular reporting on the progress, notifying statutory bodies where required in relation to the conduct of the directors, complying with relevant legislation and regulatory matters. This may not have a direct financial benefit to creditors but is substantially there to protect creditors and other stakeholders and ensuring they are kept informed of developments.

These views and the related claims are being considered by the Administrators, and time has been spent during the period reviewing the claims and related legislation. An application for directions in relation to these matters is being brought by insolvency practitioners managing the estates of other former domestic energy suppliers. It is expected that the judgement application will be heard in October and will provide a precedent for how to treat such claims. The Administrators intend to await the outcome of this application as they believe it will have a material impact on funds available to unsecured creditors.
