The directors are satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

The members have not required the company to obtain an audit in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

The accounts have been prepared and delivered in accordance with the special provisions applicable to companies subject to the small companies regime. The profit and loss account has not been delivered to the Registrar of Companies.

Chris Pursey

Director

Approved by the board on 22 February 2022

PayItMonthly Limited
Notes to the Accounts
for the year ended 31 December 2021

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

Turnover

Turnover is principally credit charges made when loans receivable are granted (net of an allowance for impairment losses) which are spread on a prorata basis as the loans are repaid. Turnover includes revenue earned from the rendering of services which is measured at the fair value of the consideration received or receivable net of VAT. Turnover also includes receipts in respect of debt assigned to the company on a non recourse basis.

Tangible and intangible fixed assets

Purchases and expenditure on development projects do not have a material realisable value and are expensed as incurred.

Investments

Investments in subsidiaries, associates and joint ventures are measured at cost less any accumulated impairment losses. Changes in fair value are included in the profit and loss account.

Debtors

Loans receivable are included at the principal value less impairment losses for bad and doubtful debts. Impairment losses are estimated and provided for when the loan is set up with the adequacy of the estimate being reviewed at the year end. Trade debtors are valued at invoice value less impairment losses for bad and doubtful debts.

Creditors

Creditors are measured at transaction value. Deferred profits represents credit charges in respect of loans receivable which have not yet been included in turnover.

Taxation

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods net of R&D tax credits. A current tax asset is recognised in respect of R&D tax credits that are due to be received.

Pensions

Contributions to defined contribution plans are expensed in the period to which they relate.
