**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022**

1. STATUTORY INFORMATION

ADL Derby Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

Going concern and COVID-19

The financial statements have been prepared on the going concern basis which the directors consider to be appropriate for the following reasons.

The company meets its day to day working capital requirements from cash resources and intercompany balance with the parent company. Therefore the going concern assessment of the company is dependent on that of the group as a whole. The directors have performed a going concern assessment for a period of 12 months from the date of approval of these financial statements which indicate that, taking into account of reasonably possible downsides, the company will have sufficient funds through funding from its parent, ADL Plc. The parent has indicated its intention to continue to make available such funds as are needed by the company at the balance sheet date for 12 months from the date of approval of these financial statements. As with any company placing reliance on other group companies for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

The directors have separately considered the uncertainty as to the future impact of COVID-19 on the ongoing concern assessment. To date the impact on the occupancy rates have remained stable, however the directors cannot predict the longer term impact of the crises. The directors do not consider there to be a material uncertainty arising from the specific downside scenario impact of the crises on the company's occupancy levels and cashflows.

Based on these indications the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Critical accounting judgements and key sources of estimation uncertainty

In the application of the company's accounting policies the directors are required to make judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key sources of estimation uncertainty that the directors have assessed as being applicable to the company and that the most significant effect on the amounts recognised in the financial statements. It is deemed that there are no critical accounting judgements.

Valuation of freehold property

The valuation method of freehold property is considered most likely to have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. In order to provide an up-to-date accurate valuation an external valuer is contracted to value the property; the latest valuation was undertaken 29 September 2022. In future periods, the directors will continue to review the carrying value of the property to ensure it remains in line with its fair value.

2. ACCOUNTING POLICIES - continued

Turnover

Turnover represents fee income receivable from care services provided. Turnover is recognised in the year in which the company obtains the right to consideration as the services provided under contracts have been delivered and is recorded at the value of the consideration due. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors.

Turnover wholly arises within the United Kingdom.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Freehold property	- 2% on cost
Improvements to property	- 10% on cost
Fixtures and fittings	- 25% on cost

Freehold land is considered to have an infinite life and is not depreciated.

The assets' residual values and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period. The effect of any change is accounted for prospectively.

Tangible assets (not including freehold property) are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use.

Freehold property is originally stated at deemed cost held at valuation at the date of transition to FRS 102. Freehold property is subsequently held at their latest revaluation amount less any accumulated depreciation and accumulated impairment losses. Revaluation gains and losses are taken to a revaluation reserve within equity and reported as other comprehensive income. Revaluation loss is taken to the revaluation reserve to the extent that there is a surplus on the revaluation reserve. Any excess of the loss over the surplus is taken to the profit and loss account. Revaluations shall be made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Impairment of fixed assets

At each reporting date fixed assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared with its carrying amount. If estimated recoverable amount is lower, the carrying amount is reduced to its estimated recoverable amount, and an impairment loss is recognised immediately in profit or loss.

If an impairment loss subsequently reverses, the carry amount of the asset is increased to the revised estimate of its recoverable amount, but not in excess of the amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Basic financial instruments

The company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other accounts receivable and payable.

a) Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

b) Creditors

Short term trade creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

Cash at bank and in hand

Cash and cash equivalents comprise cash balances and call deposits and petty cash.

FOR THE YEAR ENDED 31 MARCH 2022

2. ACCOUNTING POLICIES - continued**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Pension costs

As of 1 April 2013 it became a statutory requirement to enrol all eligible staff into a workplace pension scheme. Employees are enrolled in the NEST Pension Scheme, an independently administered scheme, and is a defined contribution pension scheme. The employee can choose to "opt out" of the scheme after they have been auto-enrolled, this opt out lasts for three years, after which time the company will be required to re-enrol the employee. The company is required to make employer contributions of the employee's qualifying salary to the NEST Pension Scheme. The pension costs represents contributions payable under the scheme and the company has no liability under the scheme other than for the payment of those contributions.

Contributions outstanding at the balance sheet date amounted to £1,140 (2021 - £1,134).
