ASHLAND GLOBAL SERVICES LTD Notes to the Abridged Financial Statements For the year ended 30 September 2017

Statutory Information

ASHLAND GLOBAL SERVICES LTD is a private limited company, limited by shares, domiciled in England and Wales, registration number 09799898.

The presentation currency is £ sterling.

1. Accounting Policies

Basis of accounting

The financial statements are prepared under the historical cost convention and in accordance with the FRS 102 Financial Reporting Standard for Smaller Entities (effective January 2016).

Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of Value Added Tax and trade discounts.

Tangible fixed assets

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:

Land and Buildings 10 Straight Line

Computer Equipment 20 Straight Line

Fixtures and Fittings 10 Straight Line

Plant and Machinery 20 Straight Line

Investment properties

Investment properties are included in the balance sheet at their open market value at the balance sheet date. The resulting aggregate surplus or deficit is transferred to a revaluation reserve. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

Assets on finance lease and hire purchase

Assets held under finance lease or hire purchase contracts i.e. those contracts where substantially all the risks and rewards of ownership have passed to the company, are included in the appropriate category of tangible fixed assets and depreciated over the shorter of the lease term and their estimated expected useful lives.

Future obligations under such contracts are included in creditors net of the finance charge allocated to future periods.

Fixed asset investments

Fixed asset investments are stated at cost less provision for any permanent diminution in value.
