The financial statements have been prepared under the historical cost convention.

Debt instruments that constitute a financing transaction are initially measured at fair value of future payments and subsequently at amortised cost using the effective interest method. Debt instruments which are payable or receivable within one year such as trade debtors or trade creditors are measured, initially and subsequently at the undiscounted amount of the cash or other consideration expected to be paid or received.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the profit & loss account.
