#### 2. ACCOUNTING POLICIES

#### Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

#### Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Revenue in respect of counselling services is recognised when the company obtains the right to consideration. Services not billed at the balance sheet date are included in Debtors as Accrued Income.

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.

Improvements to property - 20% on reducing balance
Fixtures and fittings - 25% on reducing balance
Computer equipment - 25% on reducing balance

#### Financial instruments

Financial assets - trade and other debtors are basic financial instruments and debt instruments measured at fair value through the Income Statement and are measured subsequently at amortised cost. Prepayments are not financial instruments.

Cash comprises cash at bank, in hand and short term deposits with an original maturity date of three months or less. Cash at bank is measured at face value.

Financial liabilities - trade creditors and other creditors are measured initially at fair value through the Income Statement and are measured subsequently at amortised cost.

#### Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
