**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Turnover**

Turnover represents amounts billed and billable in respect of consultancy services provided and electricity generated during the period, excluding value added tax.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 0.5% on cost
Computer equipment	- 33% on cost

Tangible fixed assets are stated at cost less accumulated depreciation. Cost includes costs directly attributable to making the asset capable of operating as intended.

**Current tax**

Current tax represents the amount expected to be paid or recovered in respect of taxable profits during the period and is calculated using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Work to be billed**

Services provided during the financial period, which at the balance sheet date have not been billed have been recognised in turnover. Fees recognised in this manner are based on an assessment of the fair value of the services provided at the balance sheet date as a proportion of the total value of the engagement.

**Financial instruments**

Basic financial instruments are recognised at amortised cost.
