The financial statements have been prepared under the historical cost convention.

Turnover

Turnover is measured at the value of the consideration received or receivable, net of discounts and value added taxes, from the rendering of performing arts services. Turnover is recognised according to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the duration of the contract with the period in the year that the service was provided.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
