# **ABOUT FRASERS GROUP**

Founded as a single store in 1982, Frasers Group plc (Frasers Group, the Group, the business or the Company) is today the UK's largest sporting goods retailer by revenue.

The Group operates a diversified partiolio of sports, fitness, premium lifestyle and luxury fascios in over 20 countries. We have more than 25,000 colleagues across five business segments: UK Sports Retail, Premium Lifastyle, European Retail, Rest of World Retail and Wholesale & Licensing.

Our purpose is to serve consumers with the world's best brands. This requires us to have the right product, in the right place, at the right time and at the right price. Our strategy is aligned to this purpose and is based on three interconnected focus pillars – the brands we sell, our digital offering and our physical stares. These are supported by a set of enablers, focused on our people, systems, automation and data.

# MISSION STATEMENT

# TO SERVE OUR CONSUMERS WITH THE WORLD'S BEST SPORTS, PREMIUM AND LUXURY BRANDS.

WE DO NOT RUN THE BUSINESS FOR THE SHORT-TERM BUT WORK TO ENSURE WE DELIVER SHAREHOLDER VALUE OVER THE MEDIUM TO LONG-TERM, WHILST ADOPTING ACCOUNTING PRINCIPLES THAT ARE CONSERVATIVE, CONSISTENT AND SIMPLE.

# Our impact since 2007

We became a listed public company in 2007 In the years since we floated, the Group has greatly contributed to the British economy. This includes

#### £250M

Approx, £250m paid in staff share bonuses

#### 25,000

Have a worktorce of approx. 25,000 people worldwide, approx. 19,000 of which are in the UK

#### E2,100M

Contributed approx £2,100m in VAT and Duty

#### £190M

Approx. £190m poid in sales commission to retail banuses

#### **E600M**

Contributed approx. £600m in UK Corporation Tax

#### £180M

Contributed approx. £180m in NI employer contributions

#### OUTLOOK

The Group is continuing to invest in its physical and digital elevation strategy and our omni-channel offeting is growing in strength. Our stores in the UK have reopened above expectations and our online channel continues to significantly outperform pre-Covid-19 periods. None the less, management remains of the view that there is a high risk of future Covid-19 pandemic restrictions, likely to be over this Winter and maybe beyond.

The board of Frasers Group has continued to consider the probable return of restrictions during FY22, including within its accounting judgements and estimates for FY21. As the effects of the Covid-19-pandemic continue to cause future uncertainty, including the Delta variant surge we are currently seeing, the board of Frasers Group considers it cannot currently confirm with enough material accuracy what the outcome for FY22 will look like.

estimates. by financial analysts or to inform the no obligation to correct estimates made We specifically note that we are under intend to treat, the financial projections by third parties such as research analysts a projection to the market for FY22 Based on this we will not be giving actual performance will differ from those market should we come to believe that our Group pic's future financial performance of the market expectations of Frasers produced by third parties as indicative treat, and Frasers Group plc does not other market participants should not As a result prospective investors and no responsibility for such projections. Group plc and Frasers Group plc takes are not produced on behalf of Frasers performance. Any projections produced

We will review the current situation with a thing from and depending on whether there is more certainty on further restrictions or not we may be able to give guidance at that point.

# **OUR RESPONSE TO COVID-19**

Throughout the Covid-19 pandemic, our highest priority has been to protect the health, safety and wellbeing of our colleagues. This reflects both our duty to keep our people safe and the business imperative: if we are not safe, we cannot trade.

Our response has been based on a number of key principles, in particular:

- following Government guidelines and exceeding them in certain aspects;
- completing thorough risk assessments and regularly updating them; and
- communicating effectively, so our people understand what we are doing and their part in keeping themselves and their colleagues safe.

The standards we have developed have been shared and followed across the Group, except where local legislation mandates a different approach.

The Group's senior management have been closely involved in our response, ensuring the safety of our people is put first and that sufficient resources and equipment are available. We have also been supported by an independent health and safety consultant, who is helping us to drive continuous improvement, including in relation to our response to Covid-19

# Our Initial Response To Covid-19

in last year's report, we detailed the steps we had taken acrass our warehouse, office and stores in the first few months of the Covid-19 pandemic. These steps are summarised below

Virtually of furloughed colleagues received 100% of pay during the first lockdown, in excess of the 80% guaranteed by the Government, and we sent home on full pay all colleagues over 60, as well as those categorised as vulnerable or at risk. Other measures we have introduced included random temperature checks for colleagues, strict protocols for self-isolation after contact with a positive case, encouraging regular testing and providing full

pay for people who test positive, while they are unable to work.

In summary, in the early stages of the Covid-19 pandemic we:

#### rehouse

- Invited the local environmental health officer and our independent consultant to review our controls and social distancing measures
- Reduced the amount of traffic in and out of the building and in key areas, for example by staggering start, finish and break times, a moving agency staff to four-day weeks and opening a new entrance to reduce traffic through reception
- introduced seven-day health and safety coverage, to support the warehouse teams
- Provided first aiders with advice and PPE (personal protective equipment), to protect them when first aid was needed
- Implemented hygiene stations and created a new role of "Social Distancing Marshal"
- Introduced 'no contact' security checks

#### Office

- Required colleagues to work at home wherever possible and where they needed to chief
- Communicated restart guidance through Slack (an internal messaging service available to all head office colleagues)
   Increased cleaning, provided hygiene stations throughout and limited capacity in
- Implemented protocols to ensure there was no mixing between warehouse and office staff in common areas such as canteens

key areas such as kitchens and lifts

- Allowed only authorised visitors and encouraged meetings through digita
- encouraged meetings through digital

#### Š

- Created a retail restart pack for stores reopening, including signage, PPE, increased cleaning schedules, lower store occupancy levels, one-way systems in-store and training documents for all new procedures
- Reduced traffic in and out of the building and in key areas by staggering start, finish and break times
- Revised delivery and processing procedures to maintain social distancing
- Added sanitisation stations throughout stores and encouraged calleagues and customers to use them
- Used unannounced visits by the Health & Safety team to ensure the retail restart pack had been correctly implemented

Our approach was well regarded by local authorities, with positive feedback following unannounced visits to our stores and warehouse.

# Adapting And Developing Our Procedures

acceptance.

Throughout this financial year we have built on our initial actions, as we have updated our risk assessments and adapted to changing guidance. This has enabled us to introduce new and stronger measures, in particular as the Covid-19 variant first identified in Kent began to spread. Examples of our key activities undertaken in the year are set out below.

- August 2020. We reviewed our warehouse risk assessment and shared it with the warehouse and agency teams. We started weekly anti-viral fagging of offices, sorters and other areas to supplement the regular cleaning schedule, enhanced workstation plexi-screens in the office to support social distancing and introduced maximum capacities for meeting rooms.
- September 2020. We reviewed our warehouse risk assessment and our first aid guidance and introduced a screening questionnaire for all visitors.
- **October 2020.** We introduced face shields on all sorting machines, as an additional layer of protection.

- Nevember 2020. We reviewed and updated our warehouse risk assessment and shored it with the teams. Face coverings became mondatory in the warehouse, and were encouraged in offices (except for medical) and operational exemptions), going beyond Government guidance. We issued guidance to all agencies and departments about reporting Covid-19 cases, including followup actions required.
- December 2020. We reviewed the head office risk assessment and shared it with all departments. To enhance social distancing, we closed 50% of shared work areas and the office workstations used by people who could not work from home, and further reduced meeting room capacities. We reviewed and communicated our contacts guidance and shielding requirements and made face coverings mandatory in head office. All head office colleagues received a Covid-19 controls review document, requiring an electronic signature of
- January 2021. We reviewed the warehouse risk assessment and issued a warehouse working refresh. We produced risk assessment's for security, transport and training and shared them with the relevant teams. Training started for all warehouse management and supervisors, with the "Covid Captain" role introduced to monitor work areas. We increased antiviral fogging in all areas, over and above the manufacturers' guidelines, and issued guidance on pre-shift cleaning.
- February 2021. We further enhanced the fogging procedures and produced a risk assessment for the Personalisation team.

We believe our efforts have been highly effective. For example, infection rates at our Shirebrook campus have been consistently below those in the local community. We will continue to adapt our approach as circumstances change.

Outside of the UK we have compiled with all local Covid-19 laws and guidance which, at a minimum, includes the same store and warehouse measures as implemented in the UK

# Multi-Channel Elevation Strategy

Our elevation strategy continues to work towards improving our offering to customers across all our channels, including marketing, social media, product, digital and in-store. This aims to enable the Company, along with our third-party brand partners, to connect with customers via a consistent voice across multiple platforms, including online, mobile, and on the high street. This strategy enables our stores and our online operations to complement each other:

The websites for each of our care fascias in tre UK, incheding SPORTSDIRECT.com, USC. co.uk, Flannels.com, Houseoffraser.co.uk and GAME.co.uk, have undergone significant enhancements to facilitate optimum appeal to consumers. Our product offering across these core fascias, both in-store and online, aims to create a compelling shopping experience in key categories that include, amongst others, football, women's, kids, running, cycling, lifestyle, fashion, luxury and gaming.

We offer product across a range of price points, including good, better and best. This enables us to offer more premium product, which is net-new to the business. This gives consumers a greater range of choices for those who wish to shap for premium products, whilst still retaining our original entry-level and continuity product offerings.

# Progression Of The Elevated Store Model

The elevation of the Group's stores continues to progress and evolve across hiscias and territories. As reported last year, for Sports Direct the enhanced concept introducing an area not just for USC, but also for Game with a Belong Gaming area and Evans Cycles was delivered at the new Portsmouth store. These combined elements develop the destination status of our stores catering to a wider customer base. The Group has also pushed boundaries with the opening of the game changing Sports Direct flagship store on London's Oxford Street shortly after financial year end. The store features world class design incorporating new activation spaces,

technology and features including a first in kind bra fitting studio.

Following the success of the Flannels regional concept, the Group has developed a new regional flagship concept. This concept encompasses a much larger footprint and incorporates new categories for the fascia including beauty and food & beverage. The first store to launch in this new concept is at Meadowhall Shopping Centre with further sites due to open in the coming financial year such as Fasse Park in Leicester and Liverpool city centre.

A significant milestone for the Group was delivering the new Frasers concept with the opening of Frasers Wolverhampton. The store extends to c.34,000 sqft housing beouty, fashion, lifestyle, kids, home and food & beverage. This new store is a live example of the Group's vision for the fascia focusing on experience, brands and service.

The Group is highly acquisitive across fascias for new stores and with co-operative landlords can offer a portfolio of new store deals providing a variety of retail offerings. The Group is prepared to sign long term leases for those landlords willing to co-invest in the elevated store concepts.

Investment in Freehold properties remains an option to assist the store elevation strategy as has been the case in previous financial years.

Further details of the property strategies and current property portfolio are included within the Chief Executive's Report and Business Review section of this annual report.

#### Our People

The Group's policy is to treat all our people with dignity and respect. Frasers Group colleagues work together across all areas of the business and we are proud that Frasers Group pic is one of the first public companies in the UK to make an elected Workers' Representative a Board member. We welcome all new colleagues into the Group following the acquisitions in the year and those who joined us through the Frasers Group Elevation Programme.

# Remuneration and Rewards

Our policy is to foster a reward-based culture that enables our colleagues to share in the success of the Group. It is Company policy to pay above the statutory National Minimum Wage, including rates that are above the statutory National Living Wage for those over 25 years of age in the UK. In addition to this, in current period the Group paid awards and incentives of approximately £7.0m, from which both permanent and casual colleagues benefited.

We are pleased that the Fearless 1000 share scheme is now up and running along with the Fearless Focus performance reviews. One thousand of our Fearless colleagues, who live and breathe our values, thinking without limits not hesitating and awning it, will be eligible to receive share bonuses ranging from £50k right up to £1m if the share price is at £10 at the vesting dates.

## Workers' Representative

The Frasers Group Workers' Representative is Cally Price, a Manager at our Cardiff Bay store. The Workers' Representative has a unique insight in to the Group and will speak on behalf of the Group's workforce at all scheduled meetings of the Soard in order to facilitate a healthy and constructive dialogue. Due to the success of the Worker's Representative Board role we have decided to extend the tenure of Cally Price for a further few years and thus she will be proposed for re-election at the

# Colleague Engagement

In addition to the Workers Representative, the Company also has an ongoing dialogue

with colleagues via an initiative called Your Wich colleagues or a on initiative called Your Company, Your Voice. This is a system whereby colleagues are able to raise any issues of their choosing via a number of different routes, both physical and digital. This feedback is passed to senior management and the Workers' Representative for review and appropriate action.

# **Our Global Third-Party Brand Partners**

We work with our leading third-party global brand partners and provide significant prominence for them with our customers across all our platforms.

Our third-party and Group brands are managed by central brand and marketing teams. This centralised structure significantly benefits the Group by enabling the individual brands to participate in Group buying and sourcing; aggregated supplier relationships and enhanced supply chain disciplines; Group inventory monitoring and replenishment; and more inspired and harmonious visual merchandising in-store.

#### Group revenue

The Board considers that this measurement is a key indicator of the Group's growth.

### Underlying EBITDA

Underlying EBITDA shows how well the Group is managing its trading and operational efficiency and therefore the overall trading performance of the Group.

### Group gross margin

The Board considers that this measurement is a key indicator of the Group's trading profitability

# Underlying basic earnings per share (EPS)

Underlying basic EPS is a measure of adjusted total shareholder return and ultimately an indicator to our shareholders of the success of our elevation strategy.

## Underlying free cash flow

Underlying free cash flow is considered an important indicator for the Business of the cash available for investment in the elevation strategy.

#### Net debt

Net debt is an indicator of both the Group's investment in the elevation strategy and its covenant headroom which is a key component of the Group's going concern considerations.

## Number of retail stores

The Board considers that this measure is an indicator of the Group's growth. The Group's elevation strategy is replacing older stores and often this can result in the closure of two or three stores to be replaced by one larger new generation store.

### Workforce turnover

The Board considers that this measure is a key indicator of the contentment of our people. For more details refer to the retention section of the "Our People" section of this report.

### Packaging recycling

The Board considers that this measurement is a key indicator of our impact and commitment to the best environmental practices. For more details refer to the environment section of this report.

# BUSINESS REVIEW Performance Overview

CHIEF EXECUTIVE'S REPORT AND

Group revenue decreased by 8.4% to £3,625.3m in the year. UK Sports Retail decreased by 10.7% to £1,968.5m, Premium Lifestyle revenue increased by 1.9% and European Retail decreased by 1.8% to £151.2m, Rest of World Retail revenue was £152.7m, down 12.3% and revenue in the Wholesale & Licensing division decreased by 4.3%.

UK wholesale. points to 44.0% (FY20: 40.9%), largely due to proportion of the segment in FY21. Wholesale & Licensing gross margin increased 310 basis in the US business which makes up a larger to 41.9%, largely due to the lower margin rate margin decreased 250 basis points from 44,4% improving product mix. Rest of World Retail 38.4% to 39.0% largely due to the continually gross margin increased 60 basis points from have a higher gross margin. European Retail Fraser as a percentage of total sales which reduction in concession sales within House of points from 48.3% to 44.9% Largely due to a Lifestyle's gross margin decreased by 340 basis continually improving product mix. Premium to 42.1% (FY20: 41.0%) largely due to the Sports Retail margin increased 110 basis points 20 basis points from 42.0% to 42.2%. UK with the prior year with a small increase of Group gross margin in the year was consistent

Group operating costs decreased by 15.7% to £1,140,0 m (FY20: £1,35.3 m), largely driven by savings in store costs during the lockdowns as a result of the Covid-19 pandemic, Government support schemes such as C.JRS (Coronavirus Job Retention Scheme) and business rates relief particularly in House of Fraser. The amount received by the Group in the period in regard to the C.JRS (or equivalent where received in non-UK territories) was approx. £80 m. The amount of business rates relief received by the Group in the period (or equivalent where received in non-UK territories) was approx. £97.5 m. See the Financial Review

for a reconciliation of Group operating costs to selling, distribution and administrative expenses.

As a result, Group underlying EBITDA for the year was up 29.4% to £390.8m (FY20: £302.1m). Excluding acquisitions and on a currency neutral basis, underlying EBITDA increased 16.9%. UK Sports Retail underlying EBITDA was £279.2m up from £227.4m in FY20, while Premium Lifestyle underlying EBITDA was £35.9m, up from £4.5m in FY20. European Retail underlying EBITDA was £3.5m, up from £4.5m in FY20. European Retail underlying EBITDA was £4.1m, down from £51.8m in FY20. Rets of World Retail underlying EBITDA was £25.6m, up from a loss of £6.8m in FY20 and Wholesole & Licensing underlying EBITDA was £25.6m, up from a loss of £3.0m for £25.2m.

## Wholesale & Licensing

The portfolio of Group brands includes a wide variety of world-farmous sport and lifestyle brands. The Group's Sports Retail division sells products under these brands in its stores, and the Wholesale & Licensing division sells the brands through its wholesale and licensing activities. The Wholesale & Licensing division continues to sponsor a variety of prestigious events and retains a variety of globally recognised celebrities and sporting professionals as brand ambassadors.

	52 weeks ended 25 April 2021	\$2 wasks ended 26 April 2020
	(F.3)	[E.3]
Wholesale	1315	1344

Total Wholesale & Licencing Revenue	153.3	160.3
Cost of Sales	(85.8)	(947)
Gross Proht	6/5	655
Gross Morgin %	441	409

Wholesale & Licensing total revenue decreased by 4.3% to £153.3m (FY20: £160.2m).

Wholesale revenues were down 2.2% to £131.5m (F120: £134.4m), due to reductions in UK wholesale activity offset by an increase in the US. Total gross margin increased by 320 basis points to 44.1% (F120: 40.9%). Wholesale gross margins increased 430 basis points to 33.6% (F120: 29.5%), largely due to UK wholesale.

Licensing revenues in the year were down 15.5% to £21,8m (FY20: £25.8m).

Operating costs decreased by 2.2% to £39.4m (FY20: £40.3m). As a result, underlying EBITDA increased by 11.1% to £28.0m (FY20: £25.2m).

# PROPERTY REVIEW

focus point for the Group across all fascios and The store elevation program remains a key territories. For Sports Direct, the new stores continue to push boundaries as demonstrated by the opening of the new Portsmouth Sports Direct store incorporating a USC. Evans and Same, as well as a Belong gaming arena. Further to this, shortly after financial year end the newly refurbished Landon, Oxford Street flagship opened featuring world class design and features including a first in kind bra fitting necorporating new activation spaces, technology studia. In Europe, the portfolio of six Toys R Us properties acquired during FY20 in Spain have now been developed launching as elevated Sports Direct stores in the same format as the

A significant milestone for the Group was delivering the new Frasers concept with the opening of Frasers Wolverhampton, another example of the continued store elevation programme. The opening of such stores demonstrates the Group's commitment to physical retail and ability to create genuine retail

destinations. Flannels, remains an important fascia for the Group. The key focus has been the development af the Regional Flagship concept introducing new categories for the tascia such as beauty, been agreed to launch this new concept at food & beverage and active. Terms have Nepadowhall Shopping Centre which is set to open in the coming financial year. Further sites for this concept are also due to open at Fosse

park in Leicester and Liverpool city centre Another notable event in FY21 was the ocquisition of 42 DW Stores. The acquisition enhanced the Group's gym and UK Sports Retail estate. A refurbishment and rebranding exercise commenced shortly after acquisition and will continue into the coming financial year. The primary objective for the estate continues to be the transition to turnover based rents. The Group is highly acquisitive across fascias and with co-operative landlards can offer a portfolio of new state deals providing a variety

# FINANCIAL REVIEW

The Financial Statements for the Group for the 52 weeks ended 25 April 2021 are presented in accordance with International Financial Reporting Standards (IFRS).

### Summary Of Results

	52 weeks ended 25 April 20 21	52 weeks ended 36 April 2020
	, {Em)	(£m)
Revanue	3,625 3	3,957.4
Reported EBITDA	2,36,5	551.0
Underlying EBITDA	8.096	3021
Reported profit before tax	8.5	1435
Underlying profit before trix	58	117.4
Earnings per share [EPS]	Peace per share	Pence per share
Reported basic EPS	[16.5]	18.5
Jinderlying basic EPS		16.2

EBITDA is earnings before investment income and investment costs, finance income and finance costs, tax, depreciation, amortisation and impoirment. It includes the Group's share of losses from associated undertakings and joint ventures. Underlying EBITDA is calculated as EBITDA before the effects of IFRS 16, realised foreign exchange gains / losses in selling and administration costs, profit / loss on disposal of subsidiaries, strategic investments and properties.

## **Group Operating Costs**

Group operating costs for the purposes of management reporting:

- Excludes depreciation, amortisation and impairments of property, plant and equipment intangible assets and realised FX gains and losses; and
- Includes other operating income

# Foreign Exchange And Treasury

The Group reports its results in GBP but trades internationally and is therefore exposed to currency fluctuations on currency cash flows in various ways. These include purchasing sales in currencies other than GBP and holding overseas assets in other currencies. The Board mitigate the cash flow risks associated with these fluctuations with the careful use of currency hedging using forward contracts and other derivative financial instruments.

The Group uses forward contracts that qualify for hedge accounting in two main ways – to hedge highly probable EUR sales income and

USD inventory purchases. This introduces a level of certainty into the Group's planning and forecasting process. Management has reviewed detailed forecasts and the growth assumptions within them and is satisfied that the forecasts meet the criteria as being highly probable forecast transactions.

As at 25 April 2021 and as detailed in note 29c the Group had the following forward contracts that qualified for hedge accounting under IFRS 9 Financial Instruments, meaning that fluctuations in the value of the contracts before maturity are recognised in the Hedging Reserve through Other Comprehensive Income. After maturity, the sales and purchases are then valued at the hedge rate.

Сипънсу	Hedging against	Currency value	Timing	Refes
USD / GBP	USD inventory purchases	USD 720m	EY22 - FY23	136 - 141
USD / EUR	USD inventory purchases	USD 120m	FY22, FY24	121 - 131
FUR/GBP	Euro sales	EUR 240m	FY73	099
USD/GBP USD/EUR FUR/GBP	USD inventory purchases USD inventory purchases Euro sales	USD 770m USD 170m EUR 240m	FY22 - FY23 FY22, FY24 FY23	136-14 121-13 09

The Group also uses currency options, swaps and spots for more flexibility against cash flows that are less than highly probable and therefore do not qualify for hedge accounting under IFRS9 Financial Instruments. The fair value movements before maturity are recognised in the Income Statement.

The Group has the following currency options and unhedged forwards

Expected use

Currency value

con / Gur	CON PROFIT	7123
The Group is proactive in managing its currency	Given the potential impact	tial impact
requirements. The Treasury team works closely	on raw material costs, the C	costs, the G
with senior management to understand the	certain input costs, including	ts, including
Commission and formation and discussional	and alasteining	

requirements. The Treasury team works closely with senior management to understand the Group's plans and forecasts, and discusses and understands appropriate financial products with various financial institutions, including those within the Group Revolving Credit Facility (RCF). This information is then used to implement suitable currency products to align with the Group's strategy.

Regular reviews of the hedging performance are performed by the Treasury team alongside senior management to ensure the continued appropriateness of the currency hedging in place, and where suitable, either implementing additional strategies and / or restructure existing approaches in conjunction with our financial institution partners.

Given the potential impact of commodity prices on raw material costs, the Group may hedge certain input costs, including cotton, crude oil and electricity.

#### axation

The effective tax rate on profit before tax in FY21 was 1017,6% (FY20: 29,6%). This reflects the impact of the increase in property impairments and disallowable depreciation.

Further debuils can be found in the Glessians.

The Board has decided not to pay a final dividend in relation to FY21 (FY20 Enil). The Board remains of the opinion that it is in the best interests of the Group and its shareholders to preserve financial flexibility and facilitate future investments and other growth opportunities. The payment of dividends remains under review.

### Capital Expenditure

During the period, gross capital expenditure (excluding IFRS 16) amounted to £219.4m (FY20: £323.5m), which included £84.3m on freehold properties (FY20: £177.2m) and £48.5m on warehouse automation (FY20: £31.1m).

he Group continues to hold various strategic westments as detailed in Note 20. In addition he Group also holds indirect strategic westments within contracts for difference and ptions.

The fair values of the contracts for difference and options are recognised in Derivative Financial Assets or Liabilities on the Group Balance Sheet, with the movement in fair value recorded in the Income Statement.

#### education

in an orderly transaction between market price that would be paid for the acquired assets relates to the management's assessment of the adjustment to property, plant and equipment and the assembled workforce. The fair value opportunities offered by economies of scale, gym and fitness club portfolio and is consistent acquisition complements the Group's existing be the fair value of the consideration. The leases advantageous site locations, potential growth represents the premium associated with with the Group's elevation strategy. Goodwill herefore no right-of-use asset or lease liability

During the year the Group acquired the entire share capital of Psyche Holdings Limited, the entire share capital of GRMNT Limited, and the trade and assets of 18 Montrose for consideration of £2.7m. These acquisitions will provide increased product offerings in

> the Premium Lifestyle division. The fair value adjustment to property, plant and equipment relates to the recognition of right-of-use assets and lease labilities.

#### Related Parties

MM Prop Consultancy Limited, a company owned and controlled by Michael Murray, who is a member of key management personnel as per IAS 24, continues to provide property consultancy services to the Group. MM Prop Consultancy Limited is primarily tasked with finding and negotiating the acquisition of new sites in the UK, Europe and Rest of the World for both our larger format stores and our combined retail and gym units. It also provides advice to the Company's in-house property team in relation to existing sites in the UK, Europe and Rest of the World.

in the year all properties are assessed. Those that are considered by the Group's independent Non-executive Directors to have completed development and be eligible for review at the year-end are assessed and if required valued by an independent valuer who confirms the value created by MM Prop Consultancy Limited. The Group's independent Non-executive Directors then review and agree the value created and have full discretion to approve a payment to MM Prop Consultancy Limited of up to 25% of the value created. There is a current pipeline of

e properties that may be eligible to be assessed nt both positively and negatively by the Graup's Non-executive Directors in future years.

In the current year £2.5m has been accrued based on 25% of the value created on two properties where the gain has crystallised through contract exchange or completion of sale (FY20 - £nil provided and £nil paid, MM Prop Consultancy Limited was last paid in relation to FY79). This is payable to MM Prop Consultancy Limited and agreed by the independent Non-Executive Directors.

During the period the Group entered into an agreement with M.P.M. Elevation Limited, a company owned and controlled by Michael Murray in relation to elevation strategy services M.P.M. Elevation Limited will be paid an annual fee of EO.Im in relation to the provision of the elevation strategy services.

Other related parties are disclosed in note 34

## Cash Flow And Net Debt

Net debt decreased by £117.1m from £36.0m at 26 April 2020 to £248.9m at 25 April 2021. Interest on bank laans and overdiafts decreased to £11.2m (FY20: £17.8m) largely due to reduced usage of the RCF in the period.

The analysis of net debt at 25 April 2021 and at 26 April 2020 was as follows:

[366.0]	NET 0287 [248.5]
190001	Borrowin's (705.9)
534 0	Cash and cash equivalents 4570
<u>(1)</u>	
26 April 2020	25 April 2021

The Group's Working Capital Facility is £913.5m (FY20: £913.5m). It is available until November 2021 and is not secured against any of the Group's assets. £847.5m of the facility is due to expire in November 2022.

The Group continues to operate well within its banking covenants and the Board remains comfortable with the Group's available headroom. Note: due to the timing of payroll and supplier payments, net debt at calendar period end 30 April 2021 was approximately £350 0m (F720: approximately £408.0m).

#### **CASH FLOW**

Total movement is as follows:

# **WORKERS' REPRESENTATIVE REPORT**

I have now been the Workers' Representative and Non-executive Director for over two years. The role has been challenging given the pressures of the Covid-19 pandemic. However, it is immensely rewarding and I remain proud to be representing my colleagues at Frasers Group.

With the continuous lockdowns and the uncertainty the Covid-19 pandemic has brought during the past year to the Group, protecting our colleague's wellbeing and mointaining consistent, transparent communication have been vital. I continue to have full control and ownership of a confidential whisteblowing hotline for retail colleagues, as well as the staff welfare portai, where every colleague has the exportunity to anonymously raise any concerns or queries that they may have I operate with complete transparency and any findings from these platforms are shared with the rest of Board.

As part of my role as the Workers
Representative, I have collaborated with our
Training team and the Retail Trust to safeguard
the wellbeing of our colleagues. Using the
most frequently asked questions from the
staff portal, the Retail Trust; psychologists
and counsellors have used their expertise to
answer our colleague queries. We have run
regular webinars and discussed financial
support, emotional support and coping
mechanisms for all Frasers colleagues during
the Covid-19 pandemic. Each webinar was
recorded and made available across all of our
communication platforms.

Furthermore, I am pleased to confirm that despite the evident challenges that the Covid-19 pandemic has brought, we are currently implementing pay reviews for our retail teams, demonstrating the value and faith we place in our people. In addition to this, we have launched our 'Fearless 1000' bonus when where some of our colleagues have the potential to be rewarded with life-changing bonuses. I am proud to represent my colleagues and a business that rewards its people so highly

and places its people at the forefront of any "

This year, despite the shift to working virtually, I remain fully involved in all Board and strategy meetings, giving fresh insights and perspectives on decision making, and my relationship with the other Board members has gone from strength to strength. I continue to be involved in all decisions and correspondence regarding safe systems of work to maintain good Covid-19 practices at our warehouse, offices and stores.

Whilst we navigate the year chead and the challenges it will undoubtedly bring, I hope I can continue to make a positive difference at Board level to ensure that our people continue to be at the heart of all business decisions, and to help drive our Elevation No Limits strategy forward.

# **ESG REPORT**

#### Our People

We employ more than 25,000 people across the Group. Despite the challenges raised by the Covid-19 pandemic, during FY21 we continued to enhance many aspects of how we manage our people, to ensure that those who work hard and want to be challenged can excel and quickly progress within Frasers Group.

### **Cuiture And Values**

Hoving the right culture is critical to sustainable business success. We want our colleagues to feel valued and engaged, and to have a culture that helps us to attract, retain and develop talent to create our future leaders.

This year, we worked with a specialist consultancy to develop an employer value proposition for the Group. As part of this we looked to understand how our people perceive our culture, including our unique strengths and where we can improve, Interviews with people at all levels of the business showed that we have a culture of acting fast and without hesitation, and where people rise to the challenge and are valued for their contribution. We see strength in difference, offer the potential to progress and develop strong loyalty among our people.

Areas tor improvement included the need for better communication, more focus on work-life balance and clear objectives. We have already begun to address these matters, including establishing an internal communications team. Our "Your Company, Your Voice partal also supports engagement and communication, allowing our people to raise questions and concerns with the Workers Representative, with the responses then published. Other intitatives this year include our new performance management process (see below) which includes objective setting. Following a return to the office under Covid-19 guidelines, we have also introduced 'Frasers Fridays', so head office colleagues can request to work from home on Fridays.

Drawing on our people's responses, we have defined the core values that underpin how we work. These are:

- Own it and back yourself
- Don't hesitate and act with purpose
- Think without limits and take the team with you

We have communicated these values across the Group and use them in our recruitment, performance management and reward schemes (see below). We will continue to embed them going forwards.

The project also enabled us to define our employer value proposition. For our existing talent, this is about being trusted to perform. For future talent, Frasers Group is 'for the fearless'.

#### Retention

We aim to hire the most talented and capable individuals across our sector, and to retain their valuable knowledge and experience within the Group. During FY21, 29% of our UK salaried colleagues left the Group which is consistent with FY20.

Store Manager stability within Sports Direct is currently sitting at 84%, this is a decrease of 1% compared to FY20. Assistant Manager stability currently sits at 87%, an increase of 2% compared to FY20. Footwear Manager stability currently sits at 94%, an increase of 6% compared to FY20.

A significant proportion of our people have been furloughed at various times in FY21, in particular when store closures have been mandated. Use of the furlough scheme has enabled us to retain people within the business, while accessing Government support when our stores have not been able to trade.

## Diversity And Inclusion

We believe diversity plays an important role in a successful business. We strive to ensure that our people reflect the diverse cultures and

values of our customer base. We endeavour to provide equal opportunities, recruit those with the best skills and capabilities for the role and to ensure that training, career development and promotion opportunities are available to all. We will not tolerate discrimination on grounds of gender identity, sexual orientation, race, nationality, religion, age, disability or any other grounds.

We endeavour to meet our responsibilities to train and employ disabled people. Applications

to employment by people with any disability are given full and fair consideration for all vacancies and are assessed in accordance with their skills and abilities. People who have a first language other than English are important to our business. We provide free English language lessons, to help them participate and be successful in our workplace and more broadly as atitizens. Since their introduction in January 2017, 248 colleagues have attended these classes.

The table below shows the gender diversity of our workforce at the year end. Approximately 53% of our workforce is female, including 35% of our senior management (FY20: 32% UK workforce). We aim to ensure that both male and female candidates are provided with equal opportunities to apply for and work in all positions across the Group.

		¥
Directors	25% 75%	75%
Other senior montigers	35%	65%
	53%,	47%

#### Gender Pay Gap

Our gender pay gap report for 2020 was published in August 2021. We are pleased to report that we have maintained a 0% average gender pay gap across the Group over the past three years compared to 6.3% in 2017. We ottribute this change to a continued focus on reviewing and applying our pay structures consistently across the business. We recognise there is a difference in total earnings between female and male colleagues. We are therefore continuing to explore and implement methods that will establish enhanced processes and training tools for our employees and engaged workers to achieve maximum earning potential through our various banus and commission ochemes.

# Talent And Capability Development

We invest without limit in people who show the potential to be future managers and leaders, and who can drive the elevation strategy. Home-grown talent is key to us and many of our management and senior positions are filled through internal promotions.

To inspire our home-grown talent, we offer existing colleagues the chance to take apprenticeships, including obtaining relevant

external qualifications. Over 100 colleagues have started apprenticeships since May 2020, learning about topics such as customer service, HR, finance, IT, warehouse management and various levels of retail management. We have also recruited new people into apprentice positions within IT and are looking at extending this to other areas of the business.

prosecutions and no work related fatalities or environmental enforcement actions or During FY21 there were no fire, local authority

#### Yellbeing

Colleague wellbeing is always a focus for us and has become even more important during the Covid-19 pandemic. We continue to partner with Retail Trust, which provides all Frasers Group colleagues with access to free and confidential wellbeing support. Retail Trust offers advice, financial assistance, face-to-face and telephone counselling, cognitive behavioural therapy, non-repayable grants, career development support, legal guidance and on-site critical incident support. The helpline is available 24 hours a day, seven days a week.

to ensure our people know what support is available through Retail Trust, we have elevated our communications during the Covid-19 pandemic. This has included webinars and education sessions for managers, so they are aware of what is available, as well as social media messaging and other communications for colleagues. This has resulted in a noticeable uplift in use of the Retail Trust service.

# Human Rights And Modern Slavery

We are committed to respect and equal treatment for all people.

We recognise that modern slavery is an ongoing challenge for organisations, especially those dealing in consumer goods, and we remain committed to addressing this risk. Ultimately, we strive to ensure that no slavery or human trafficking takes place within our business or supply chain. We have policies in place aimed at proactively identifying and mitigating these risks. These policies aim to send a clear message that we do not tolerate these practices.

We have a range of tools in place including videos and literature to educate colleagues about their rights and a number of communication channels, including an internal telephone hotline and comments boxes on site, for reporting any feedback or concerns. Anyone making a report can remain anonymous if they choose. We also continue to review and develop our colleague training, monitoring processes and evaluation of outcomes, and work with our employment agencies and other relevant

bodies, including the Gangmasters and Labour Abuse Authority and the police, to support our training and knowledge.

if we find, or suspect, that any organisations or individuals are participating in modern slovery we will take immediate action. Accordingly, we have a policy of reporting any suspicious activity to the police, which has historically assisted in successful convictions. Our \$54 Modern Slovery Act statement can be found on our website www.frasers.group.

# Developing Our HR Function And People Policies

We are investing in the structure and capability of our HR function, to enable it to effectively support the Group as it continues to grow. As part of this, we are reviewing our people policies and the way that they govern our people's behaviours, as well as the appropriate mechanisms we need to have in place to ensure compliance. This will allow us to take a more preventative approach to instances of non-compliance.

Our main focus for policies under review includes attendance management, maternity/paternity/parental leave, performance capability and redundancy. A significant and positive change will be the maternity policy for our casual workers where they will remain engaged with us throughout their maternity leave period.

## **Community And Charity**

We are committed to engaging with the local and wider communities around our stores and our offices in London and Shirebrook, and we aim to minimise any detrimental impact on them.

Our Sports Directory subsidiary has been a specialist supplier of sports equipment to the education sector for over 25 years, and part of the Frasers Group since 2016. Sports Directory plays a key role in giving back to schools in the UK and helping to keep our young people fit and healthy, often giving children their first experience of team sports. Through its 'My School' scheme, schools purchase sports equipment from the business and Sports

Directory gives them the opportunity to claim a voucher worth 25% of every purchase. To date, Sports Directory has issued over 42,000 vouchers to UK schools, which equates to more than £3.2 million worth of free sports equipment. Sports Directory has also, via the Professional Footballer's Association, donated free equipment to 72 football league clubs.

In addition to Sports Directory, we support the development of grass roots talent in tennis via Slazenger. We have donated over £350,000 of tennis equipment to schools and tennis clubs via the Slazenger Academy. The Academy is supported by Tim Henman, as well as the All England Tennis Club.

Closer to the Shirebrook campus, we donated winter clothing to Nottinghanshire YMCA, which was distributed to homeless people in the local community. Store managers also contribute to their local communities. An example of this is in Aberdeen, where the store has in previous years worked alongside a local hospital to donate presents to the staff. Due to the Covid-19 pandemic, this was not possible this year, so instead the store donated to a local food bank.

Frasers has also worked on a number of initiatives to empower women in sport. The highlights of this include working with Women in Sport to supply kit for their "Daughters and Dads" programme, which encourages girls to picy more sport. The Group also sponsored the "Driving Force" series on Sky Sports that highlights the challenges faced by elite sportswomen.

As discussed in the Chair's statement, on 15 June 2020, in England, we offered a 50% discount to all NHS staff in our Sports Direct stores as a gesture of goodwill to these fantastic individuals as our stores re-opened; it was an overwhelming success with gross sales of approximately £50m before discount and approximately £55m after discount.

# Anti-Bribery And Corruption

The Group has an Anti-Bribery and Corruption Policy in place, which was originally created following the introduction of the UK Bribery Act. As a result of the Act, all policies and procedures were reviewed to ensure compliance measures were put in place to mitigate staff being offered and / or accepting bribes. We have a zero-tolerance approach to bribery and corruption at Frasers Group, and we encourage our people to speak-up if they have concerns that bribery or fraud is taking place. No instances of bribery, corruption or fraud have been reported during FY21.

Due to the number of acquisitions into the Group since 2018, the Group is reviewing policy to ensure that the policy remains effective. The revised policy will be subject to Audit Committee oversight.

#### Whistleblowing

The Group has an approved whistleblowing policy and a number of processes operate which support our policy including Your Company Your Voice, our Retail Support Unit Asset Protection hotline as well as a dedicated whistleblowing e-mail address.

A policy review and revision process is ongoing The updated whistleblowing policy and related processes will be subject to Audit Committee reporting, approval and oversight on an ongoing basis.

# PRINCIPAL RISKS AND UNCERTAINTIES

# Our Risk Management Framework

The Board has overall responsibility for the effectiveness of the Group's systems of risk management and internal control. These systems are intended to manage, rather than eliminate, the risk of failing to achieve business objectives, and they provide reasonable but not absolute assurance against the risk of material misstatement or financial loss.

The Audit Committee supports the Board with discharging its responsibilities, under a delegated authority. The Chief Executive Officer has overall accountability for managing risks in the business, and his direct reports are accountable to him for effectively managing those risks within their remits

Board. The Board and/or its sub-committees discuss each principal risk at least annually and receive presentations and detailed risk reporting from risk owners on a cyclical basis. Risk owners re-evaluate principal risks in advance of each Compliance & Risk Group discussion. Any changes are reported to the Audit Committee, as part of our Group Risks Profile reporting. management through the Compliance & Risk Group and by the Audit Committee on behalf of the identification, evaluation and mitigation. Principal risks are discussed and agreed by executive The Group's risk management framework comprises a top-down and bottom-up approach to risk

discussions, challenges the appropriateness of internal controls and progresses their effectiveness. The Compliance & Risk Group's activities are reported formally to the Audit Committee. Our Steering Groups will also report formally to the Compliance & Risk Group, completing our governance risk areas and matters of internal control. It also facilitates horizon scanning and emerging risk Committee and the Board. It facilitates cross-functional discussion and collaboration across principal responsibilities for risk management and internal controls and the oversight roles of the Audit The Compliance & Risk Group provides connectivity between executive management's

36

Viability has been assessed by performing sensitivity analysis and stress testing of the Group's FY22 budget and forecast for the viability period prepared by management. This comprised a recent review by the Board of a number of scenarios in which the Group's income statement, balance sheet and cash flow forecasts were stress tested to determine how much the Group's trade would need to be affected in order to breach the Group's covenants (being interest cover and net debt to EBITDA ratios). These scenarios included:

- a further decrease in sales of 10%, margin remaining consistent with original budget and direct costs falling in line with sales;
- a further decrease in sales and margin of 10%, with no change in direct overheads;
- maximum breakpoint, being breach of covenants per the Group's RCF (Sales would need to reduce by a further 20% than forecast, with no change in direct overheads)

The Group's working copital facility is at £913.5m (FY20: £913.5m) available until November 2021 and is not secured against any of the Group's assets. The Group enacted an extension option for a further year to November 2022 for £847.5m.

The Group has consistently created a strong free cash flow from underlying trading and has an appropriate hedging strategy to meet currency risks. There have been no post balance sheet changes to liquidity.

The impact on the projected cash flow as a result of the conservative model has been reviewed, if required management have a number of mitigating actions which could be taken such as putting on hold discretionary spend, liquidating certain assets on the balance sheet, reduction in labour and marketing costs.

Based on its assessment, the Board has a reasonable expectation that the Group will be able to continue operating and be able to meet its liabilities as they fall due for a period of approximately three and a half years, to the end of the expected minimum maturity of new Group finance arrangements and facilities (the period of the assessment).

The Viability Statement was approved by the Board on 5 August 2021, and signed on its behalf by:

Chris Wootton

### NICOLA FRAMPTON

Independent Non-executive Director

Appointed: 1 October 2018

Committees: Audit and Remuneration Committees

#### Previous roles:

Prior to joining Domino's Pizza Group, Nicola was at William Hill from April 2010. She was Managing Director of its UK Retail division, working closely with the Board, Exco and operational management. During her time at William Hill, Nicola led a number of successful major innovation and transformation projects. Before switching to an executive management career, Nicola spent the previous ten years working in the professional services industry, most recently as a Director at Deloitte.

#### Tesent rotes

Nicola has spent most of her recent career in senior executive management roles and has recently been appointed to a new position with Domino's Pizza Group, where she is Chief Operations Officer.

# Key skills, experience and contribution:

Nicola has extensive experience in risk management, assurance and corporate governance across a wide range of industries, having specialised in these areas of corporate activity at both William Hill and prior to that whilst at Deloitte. The Board benefits from Nicola's current retail experience as the serving Managing Director of a large non-competing retail business. Nicola serves as a Trustee Board member on a number of charities and brings an informed perspective on corporate responsibility to the Board.

# CORPORATE GOVERNANCE REPORT

### Chair's Introduction

As Choir, I am responsible for leading the Board to make decisions that will benefit the Group and ultimately its stakeholders. My role is to ensure that we adhere to high standards of corporate governance and allow the Group to thrive during these particularly chollenging times. From the downturn of the high street to the current Covid-19 pandemic, we have remained resilient and robust in our approach to corporate governance.

Our Non-executive Directors have a great depth of experience, remain independent throughout all discussions and are rigorous in challenging the Executives in the best interests of the Group. Our Executive Directors understand the Group's values and behaviours. They work tirelessly to retain and grow shareholder value, engage our workforce and promote the Group's strategy.

The Board and the Audit Committee held more meetings than usual during the year, to ensure that matters arising from the Covid-19 pandemic were dealt with effectively and promptly. I would like to thank Board members for their additional time and commitment throughout this period.

With increasing stakeholder focus and incoming regulation, we have increased our work on improving our environmental impact and sustainability. During the year, the Sustainability Steering Group was formed under the CFO's leadership. Further details are included in our ESG report.

Further information regarding our compliance with the Code can be found in our Corporate Governance Statement.

During the period, the Chair the views of the Executive Directors. The performance of the Chair, taking into account

An external review by Belinda Hudson Limited was also carried out during the year and this is discussed within the Board Review report.

A number of informal meetings also took slace throughout the year between various Non-executive Directors and the Chair without the Executive Directors present.

### Director Commitment

Prior to accepting Board positions, prospective Directors are informed that following induction, they are required to dedicate between 15 and 20 days per annum to fulfil the role of a Non-executive Director. Non-executive Directors are aware that scheduled and unscheduled meetings may take place, as well as other events including site visits, shareholder meetings and strategy meetings. The time commitment specified in Non-executive Directors' letters of appointment is regularly reviewed by the Nomination Committee and was recently deemed to be appropriate. Regular training is offered to all Directors and this is further considered during Director

The Directors are expected to attend all scheduled Board meetings and are asked to use best endeavours to attend unscheduled meetings. To assist with managing their

commitments, the Non-executive Directors are given prospective annual Board calendars early in the second half of the preceding year. During the year, there were five scheduled and seven unscheduled Board meetings.

### **Appointment Documentation**

Details of Executive Directors' service contracts, and of the Chair's and the Non-executive Directors' appointment letters, are contained within the Directors' Remuneration Report.

Copies of service contracts and appointment letters are available for inspection at the Company's registered office during normal business hours and at the Annual General Meeting. Neither of the Executive Directors hold a directorship of another FTSE 350 company.

### Meeting Documentation

A detailed agenda is established for each scheduled meeting and appropriate documentation is provided to Directors in advance. Regular Board meeting agenda items include reports from the Chief Financial Officer, reports on the performance of the business and current trading, and specific proposals where the Board's approval is sought. The Board menitors and questions performance and reviews anticipated results. The Board also receives reports from the Non-executive Workforce Director and Workers' Representative, who attends all Board meetings.

During Board meetings, presentations are made on business or strategic issues where appropriate, and the Board considers the Group's strategy at least annually, Minutes of Committee meetings are circulated to all Board members for agreement. Copies of analysts' reports and brokers' notes are also provided to Directors. Guest attendees are invited to present at Board meetings.

### Board Meeting Attendance

The Board has a formal schedule of regular meetings, where it approves major decisions and uses its expertise to advise and influence the business. The Board will meet on other occasions as and when required.

The Directors' attendance at Board and Committee meetings during the year, and the total number of meetings that they could have attended, are set out in the table below. Attendance was high for all Directors, who attended all meetings unless prevented from doing so by a prior commitment. There was a high number of unscheduled meetings during the year, to discuss the Group's response to the Covid-19 pandemic and its impact on our colleagues and stores. A number of additional Audit Committee meetings also took place. A strategy day was held in October.

Cally Pric

Note A number of Audit Committee, Remuneration Committee and Normantion Committee meetings were cliented by Board members who were not members of the Committee Chars. Board members called committee Chars, Board members attended these meetings at the evidence of the Committee Chars, Board members attended that meetings for information rather than influence, and may not have attended for the full dividtion of its meetings.

### Company Secretorial Support

All Directors have access to the advice and services of the Company Secretory, and may take independent professional advice at the Company's expense, subject to prior notification to the other Nan-executive Directors and the Company Secretory. The company Secretorial tearn has been strengthened during the year, to support the Group's expansion and ensure compliance with increased regulation.

The Company Secretary ensures that the Company maintains appropriate insurance cover in respect of its Directors and Officers. He also advises the Board on corporate governance matters, During FY21, external training was provided to the Board on the Market Abuse Regulation.

## The Group's Position And Prospects

The Board toke responsibility for the preparation of the Annual Report and Accounts for FY21, and is in agreement that taken as a whole, they are fair, balanced and understandable. We are confident that the Annual Report and Accounts provide sufficient detail and that our shareholders have been provided with the necessory information on the Group's position, performance, business model and strategy, further details of which can be found in the Strategic Report Detailed information on the Group's financial position and performance can also be located in the Group Financial Statements.

The Covid-19 pandemic and the resulting closure of non-essential retail stores for much of the year, has had significant impact on high-street retailers, including the Group. During this period the Board has met an a number of occasions to discuss the impact of the Covid-19 pandemic on trading and the Group's long-term future. The Covid-19 pandemic is deemed to be a highly significant issue for the Group. The Board is confident that the Group has adequate resource to remain in operational existence for the foreseeable future and has continued to adopt the going concern basis of accounting in preparing the financial statements. As a result of Its findings, the Board has adopted a going

concern statement for FY21, and full details of this can be found in the *Directors Report. The Directors* have also assessed the prospects of the Group over 3.5 years, the Viability Statement can be found at pages 36 to 37.

#### en managame

The Board's responsibilities and procedures for marloging risk and the supporting systems of internal control are set out in the Principal Risks and Uncertainties section of the Strategic Report and further information is included in the Audit Committee Report.

Controls in respect of financial reporting and the production of the consolidated financial statements are well established. Group accounting policies are consistently applied and review and reconciliation controls operate effectively. Standard reporting packages are used by all Group entities to ensure consistent and standard information is available for the production of the consolidated financial statements. The Group Accounting Manual is under a cycle of ongoing review and forms part of our internal controls continuous improvement activity during FY22.

The Board has carried out a robust assessment of the Groups' emerging and principal risks in the period and further detail can be found in the Strategic Report as noted above.

# AUDIT COMMITTEE REPORT

Jean Sharehord

I am pleased to present the report of the Audit Committee (the Committee) for the 52-week period ended 25 April 2021. The report sets out the Committee's work and areas of focus during this unprecedented year, which has seen the global spread of Cowid-19 and Government-mandated lockdowns impacting all geographies across our Group. The Committee has therefore focused on and discussed the Group's performance, and the impacts of, and response to these external factors.

We monitored the Group's ongoing viability and going concern positions, incorporating the impacts of the pandemic and including the review of key accounting judgements and estimates. We have kept the Group risk profile and emerging risks under continued review and had clear oversight of the octivities of the executive Compliance & Risk Group. We have also monitored the Group's response to opportunities and acquisitions, to ensure we come through the period stronger and on track to meet our strategic targets on the return to broader economic recovery.

On behalf of the Board, the Committee monitors the Group's financial reporting processes and the integrity of its financial statements and ensures high standards of quality and effectiveness in the external audit process. The Committee also reviews and monitors the effectiveness of the Group's systems of risk management and internal control governance and compliance.

We have built a strong and productive working relationship with RSM since their appointment in 2019 as our External Auditor and we value the integrity, strength and depth of their audit and approach

Ine Committee has supported management with the Group's RCF renewal with potential new and existing lenders and is comfortable with the strength of engagement and financial support for the business and its strategic intent

We have mode strong progress against our continuous improvement assurance agenda across governance, risk and control and this was noted in the Group's external Board evaluation which is discussed in more detail within the External Board Review report We also continue to strengthen relationships with our Big 4 and Top 10 co-source partners. We have closely monitored the Government's audit and governance reform agenda and considered our approach to readiness as part of our FY21 and FY22 agendas.

The Committee values the ongoing work of the Group's Retail Support Unit and Digital Risk teams and continues to seek assurance that their work remains a strength in our Group. Our performance as a business has remained strong in these extremely challenging circumstances. It has been impressive to see the continued strength and depth of experience across all our business teams and their ability to withstand and manage the significant risks that materialised.

Taking its responsibilities as a whole, the Committee is satisfied that the going concern basis of accounting is appropriate (see further detail at page 64) and that the Group is viable over its assessment period (see page 36).

 I would like to take the opportunity to thank all our colleagues for their valuable commitment, contributions and support towards our Group performance.

### **Key Objectives For FY22**

The Committee's key objectives for FY22 are:

- Continue to monitor the impacts of the pandemic on our business, its performance, its response and its financial position;
- Oversee the development of plans in response to the Government's reform proposals: restoring
- trust in audit and corporate governance;
- Monitor continuous improvement of the Group's systems of risk management and internal control; Maintain a strong relationship with our External Auditor and engagement on the delivery of a robust, efficient and effective external audit; and
- Strengthen assurance activity across the Group based on the three lines model, (accountability, actions, assurance).

gender diversity table of page 23, and a varied representation of ages in middle and senior management. When reviewing candidates who may become potential Board members, the Committee has regard to factors including professional experience, skills, education, gender, ethnicity and background to ensure a variety of perspectives are represented at Board level. As discussed above, we have been working with a recruitment agent specialising in diverse candidates. The Board is conscious that to successfully deliver the strategic goals of the business our people, including the Board of Directors must reflect the diverse cultures and values of our customer base.

The Committee recognises the advantages of having a diverse team and has therefore reviewed the composition of the senior management team, including their direct reports. A number of senior management roles were held by women at period end, including the Head of Internal Audit and Risk Management and UK Financial Controller. Our senior leadership team is 27% female, whilst the overall UK workforce is approximately 52% female.

We were pleased that our most recent Gender Pay Gap Report showed a reduction in the median gender pay gap within our largest relevant subsidiary (SPORTSDIRECT.com Retail Limited) to 0%. However, we will continue to explore ways to address other gender pay gap differences within our business.

Further details on diversity and inclusion are set cut in the Our People Report.

# Frasers Group Elevation Programme

Euring FY21, we worked with We are Wiser to launch the Group's new Elevation Programme. This has resulted in the recruitment of a diverse mix of talent, with the potential to become the future leaders of the Group.

David Daly

# Chair of the Nomination Committee

# **EXTERNAL BOARD REVIEW**

We recognise that some of the main driving forces behind the success of Frasers Group are our Board, Committees and management teams. To ensure we are getting the best from our Board, we undertook an independent review of our Board and Committee effectiveness. We hoped that this review would provide insight and clarity into how our leadership team is performing, especially when benchmarked against other listed companies, as well as highlight areas of improvement that would add value to the Group and ensure we become market leaders in governance and best practice.

In January 2020, the Board agreed to engage Belinda Hudson Limited to undertake a review of our Board and Committee effectiveness. Belinda is a recognised expert in enhancing board effectiveness and has over 15 years' experience working with Boards, Committees and directors of FTSE 350 componies. Belinda Hudson Limited has no other connection with the Group or any of its Directors.

The Board review was originally due to be completed prior to the April 2020 financial year end. However, it was deferred when the first lockdown was initiated as there was a strong preference for conducting face to face interviews, As it became clear that face to face meetings would not be an option for some time, it was decided to proceed with remote meetings early in 2021 to ensure that evaluation of the Board's performance could be conducted by the end of the April 2021 financial year.

#### Methodology

Belinda undertook confidential one-to-one discussions with members of the Board and a selection of senior management who have regular interaction with and support the Board and Committees. She attended the February 2021 Board meeting for observational purposes. Belinda was given unfettered access to the previous 12 months' Board and Committee papers and minutes and governance documents to inform her review.

She compiled a comprehensive report which covered all aspects of board and committee performance. It was broken down into the following categories:

- Board composition and dynamics
- The Board's role
- The Board at work
- Committees

The report was presented to and discussed with the Board at the April 2021 Board meeting.

#### Carcomes

The report highlighted the many strengths of the Board and Committees and contained several recommendations for further development. The Board accepts the recommendations and where necessary, is taking steps to implement them.

Belinda's findings in each section were as follows:

# **Board Composition and Dynamics**

The report found that "the Board at Frasers Group has enjoyed a good period of stability since the CFO was appointed in September 2019. The Board has strengthened and is becoming increasingly effective under the leadership of the current Chair with strong support from the Senior Independent Director and others.

The Board composition benefits significantly from the inclusion of a full-time employee as the Non-executive Workforce Director and Workers' Representative. It provides the Board with "full transparency and visibility on the perspective of the workforce without any filters" and very strong insights into workforce engagement.

Despite some previous investor opposition to the Chair, the review presented a positive view of the Chair. He brings many relevant and useful strengths and is growing into the role well. Board members and Senior Management

# **DIRECTORS' REMUNERATION REPORT**

Dear Shareholder,

As the Chair of the Remuneration Committee (the "Committee") I am pleased to present our Directors' Remuneration Report for the year ended 25 April 2021. This report is split into three parts: this Annual Statement, the Policy Report and the Annual Report on Remuneration.

# Actions Taken In FY21 And Impacts On Pay

A key context for decisions taken by the Committee in 2020 was the impact of Covid-19 on our business. Following the onset of the Covid-19 pandemic in late Q1 2020, the Committee supported the actions taken by our Board in relation to pay and wider colleague welfare. These actions were considered appropriate to align to the experience and perspective of our shareholders and other stakeholders, including our colleagues.

The actions taken included the following:

- from May 2020 due to the impact of the Covid-19 pandemic, our CFO, together with the Chief Commercial Officer and the Non-executive Directors agreed, in order to assist the Company, to make the personal sacrifice of reducing their solary, or respective fees, to £40,000 per annum. This treatment applied until October 2020, at which time withheld amounts were paid;
- colleague welfare was prioritised:
- from March 2020, we sent home all colleagues over the age of 60 or those with underlying health issues which was over and above Government guidance whilst continuing to pay them in full;
- in the UK we paid virtually all of our contracted colleagues (including "casual workers") in full during March, April, May and June 2020 even though our stores were closed for the vast majority of that time; and

- although the business has accessed Government business -support initiatitives, including furlough and business rates relief, we used these programmes in the way in which we understood these to be applied, and the consequence has been that there have been a major redundancy rounds within our business despite extended lockdown periods.
- the wider societal contribution of the business was supported:
- we offered our fleet of vehicles to the NHS for transporting vital equipment to where it was most needed; and
- we also offered NHS staff discounts on bikes and sporting goods equipment in our Evans and Sports Direct stores. On 15 June 2020, in England, we offered o 50% discount to all NHS staff in our Sports Direct stores as a gesture of goodwill to these fantastic individuals as our stores re-opened. It was an overwhelming success with gross sales of approximately £50m before discount and approximately £55m after discount.

and breathe our values, thinking without limits vesting dates. up to £1m if the share price is at £10 at the receive share banuses ranging from £50k right not hesitating and owning it, will be eligible to thousand of our Fearless colleagues, who live share price is at £10 at the vesting dates. One 10 colleagues receiving shares worth £1m if the the end of the vesting period which could see trading days to trigger the vesting of shares at price must stay above £10 for 30 consecutive time during the performance period. The share in shares if our share price reaches £10 at any AGM. The Fearless 1000 could pay out £100m 99.9% of our shareholders voting at the 2020 Feorless\_1000 and which was approved by over for our colleagues which we are calling the to be able to launch the new incentive plan Against this background, we were very pleased

lockdown in December 2020 and a significant port initiatives, portion of our stores were temporarily closed. This has the potential to limit our ability to usiness rates plan. We have therefore decided to extend ood these to plan. We have therefore decided to extend the performance period for the Feurless 1000 equence has (being a total performance period of five years), no our business As a result of this change, the performance period for the Feurless 1000 and the proposed checutive Shore Scheme (explained further below) will be aligned.

In terms of senior executive remuneration in FY21:

- Mike Ashley has not received any remuneration from the Company since before the Public Offering in 2007 and continues to decline any remuneration in his role of Chief Executive;
- as noted above, our CFO's salary was reduced to the equivalent of £40,000 p.a. from May 2020 until October 2020; and
- no LTIP award operated for senior executives in FY21, and the CFO and other selected senior executives were specifically excluded from participation in the Fearless 1,000 plan.

Against the background of our overall modest positioning on executive pay and considering the CFO's exceptional efforts in leading the company through a period of unprecedented challenge to produce the resilient performance that is detailed elsewhere in this report, the Committee has decided that it is appropriate to award our CFO a bonus of £100,000 for FY 2020/2021 (67% of base salary). In awarding this bonus, the Committee considered a range of performance factors, including Group financial performance, progress on strategic initiatives and personal performance. This award was paid as a cash sum.

The Committee exercised what it regards as normal commercial judgement in respect of Directors' remuneration throughout the year (and in all cases in line with the Company's Director's remuneration policy).

discretion by the Committee save as detailed in this report.

Revised Remuneration Policy And Operation Of

There were no other exercises of judgement or

Following the successful launch of the Fearless 1000 plan in October 2020, the UK entered into

### Sevised Remuneration Policy And Operation C Pay In FY21

At the 2021 Annual General Meeting (AGM) ware asking shareholders to renew our 3-year Director's remuneration policy ("policy") which was last approved at our AGM in 2018 (98.8% approval).

Where any changes have been made to the 2018 policy, these are highlighted in the policy report section. In particular, we are making three changes in the operation of Executive Director pay.

#### CFO's Salary

- Chris Wootton's salary has been increased to £250,000 p.a. from 1st May 2021 (FY21: £150,000 p.a.).
- Chris joined the Board of Directors in September 2019, with this being his first main Board CFO role at a listed PLC. Since that time Chris has grown and developed in the role of CFO and his strong performance, leadership and contribution to developing the strategic direction of the business is considered to merit an appropriate review of his salary level at this time, now that he has been in post for approximately 18 months.
- As a Committee we are content that even with this increase the salary level for our CFO remains amongst the lowest in the FTGF 250

#### Board Succession

operate, we already know some of the detail around how we want pay arrangements for our new senior executive team to be aligned to, and support, the growth and elevation strategy which our Board succession changes will seek to accelerate and deliver. changes will not become effective until later in the three-year period in which our new policy will As a Remuneration Committee we fully support the prospective changes within our Board and senior team more fully described in the announcement dated 5th August 2021. # **Chris Wootton, Chief Financial Officer**

For the purposes of the chart, the following assumptions have been made

SCENARIO	FIXED PAY	BONUS	LTI
Minimum remuneration		No bonus earned	No vesting of share awards
Performance in line with expectations	Base solary of £250,000.  An employer pension contribution of 3% of solary, capped of first £50,000 of solary.	No bonus earned because in the opinion of the Committee, the performance metric will be set such that any bonus earned would require the archievement of stretch performance	No vesting of share awards herause in the opinion of the Committee, the share awards will only vest as a result of stretch performance.
Maximum remuneration	No benefits (as no benefits are currently proposed to be provided to the Executive Directors in FV2 other than the collecgue discount, which, in the opinion of the Committee, control be reflected in these charts as its value discrets upon the writer.	A banus of 200% of salary is earned	Criticulated based on the value of 600,000 shares (maximum potential vesting for an award to the CFO under the new Executive Share Scheme) at the end of FY21 (Jaing a 3 month average)
Mcximum remuneration with 50% strare price increase	of the Executive Director's purchase!	A bonus of 200% of salary is earned	Calculated based on the value of 600,000 shares at the end of FY21 lusing a 3 month average  plus 50% share price increase

# **Approach To Recruitment Remuneration**

When agreeing a remuneration package for the appointment of a new Executive Director, the Committee will apply the following principles:

- the package will be sufficient to attract the calibre of Director required to deliver the Company's strategy;
- the Committee will seek to ensure that no more is paid than is necessary; and

¥

The Committee will ordinarily seek to implement the remuneration package in accordance with the elements referred to in the policy table on pages 53 to 54. Consistent with the DRR Regulations, the Committee retains discretion to make appropriate remuneration decisions outside that policy to meet the individual circumstances of the recruitment, subject to the limits and parameters of this recruitment remuneration section of the Directors' Remuneration Policy.

Base salary and benefits	Typically aligned with the policy set out in the policy table on page 53 In line with the DRR Regulations, there is no formal cap on salaries in relation to a resnutment
Retirement benefits	Aligned with the policy set out in the policy table on praje \$3, presson benefits may be provided at trass digned to employee levels, although the Committee array provide for such amounts to be pard to or person arrangement or pard as a supplement to pass solary in New 0.7 persons arrangement.
Variable remuseration	Any variable reinuneration granted to a newly appointed Executive Director would be subject to the same maximum levels that generally apply under the Directors' fearmineration Palicy.
	The value of any buy-out carangements (described helow) does not count towards those maximum lawsh. The Committee may vary the explication of deterral to any annual bonus apportunity to reflect the circumstances of the recruments.
Cumpensation for forfeited arrangements	The Committee may make awards on humy an external condition to buy out the remuneration arrangements briefed on bearing a previous employed in dening as the Committee will bear espaced to environmental briefed on bearing any performance conditions a table and to each immediate party performance conditions as table and to each immediate entry for the arrangement for the which as twich conditions were or were taken to be obtained, the form of those an imageneries (e.g. cash or these for the briefedors of such for termingstreams).
	While such awards are excluded from the maximum level of variable reministration referred to above, the Committee intention is that the value awarded would be no higher than the expected value of higher than the expected value.
	Buy out awards will be subject to forfetiour or clawbock on early departure, with 100% being subject to forfetiour or clawbock on early departure, with 100% being subject to forfetive the Executive Overallor deports within 72 months of joinings and a stiding scale down to 50% Alber departure occurs within 12 and Almorthis of Joinings at the Committee's discretion.
Relocation costs	If necessary, the Company will pay appropriate relocation coats in the year of apparatment and for a further two financial years, as it considers appropriate. The Committee will seek to ensure that no more is paid than in enestably.

Any share awards referred to in this section will be granted as far as possible under the Company's existing share schemes. If necessary and subject, where relevant, to the limits referred to above, awards may be granted outside existing share plans as permitted under the Listing Rules, which allow for the grant of awards to facilitate, in unusual circumstances, the recruitment of an Executive Director.

Where a position is filled internally, any on-going remuneration obligations or outstanding variable pay elements shall be allowed to continue according to their subsisting terms or be adjusted to reflect the new appointment as appropriate.

The remuneration package for a newly appointed Non-executive Director would normally be in line with the policy set out in the future policy table above for Non-executive Directors.

# Service Cantracts And Policy On Payments For Loss Of Office

The Company's policy is for Executive Directors to be employed on the terms of service contracts which may be terminated by either the Company or the Executive Director on the giving of not more than 12 months' notice. All Directors are subject to annual re-election.

#### Executive Directors

Details of each current service contract are set out below:

	CONTRACT DATE	_	GOVERNING LAW
Mike Ashley 17/02/2007 12 months' England & Wales	11/02/2007	U months' England & Wale	England & Wales

Other payments

### Non-Executive Directors

The Non-executive Directors enter into an agreement with the Group for a period of three years, other than the Chair whose agreement continues until terminated in accordance with its terms. The approximents of the Non-executive Directors may be terminated by either party on one month's written notice and in accordance with the Articles of Association of the Company. Termination would be immediate in certain circumstances (including the bankruptcy of the Non-executive Director).

Non-executive Directors (other than the Non-executive Workforce Director) do not and are not entitled to participate in any bonus or share scheme. The Non-executive Workforce Director is entitled to participate in employee bonus and share schemes for employees, including all-employee schemes.

The approach to determining Non-executive Directors pay is to benchmark ourselves against other companies/retabless within the FTSE 250. Each year the remuneration of all Directors is put for shoreholder approval at the AGM. Last year, 99.81% of shareholders voked in favour of the remuneration report.

Non-executive Directors are subject to confidentiality undertakings without limitation in time. Non-executive Directors are not entitled to receive any compensation on the termination of their appointment.

Details of the Non-executive Directors' letters of appointment are set out below:

	Position	Date of letter of appointment	APPOINTMENT (subject to annual re-election at the AGM)
Bavid Daly	Non-executive Chair	t6 July 2020	1st October 2023
David Brayshaw	Non-executive Director	23 April 2020	Ah December 2022
Nicola Frompton	Non-executive Director	1 October 2018	30th September 2021
Richard Batternley	Non-executive Oriector	1 October 2018	30th September 2021
Cally Price	Non-executive Director	6 October 2020	5th October 2022

Copies of the service contracts of Executive Directors and of the appointment letters of the Chair and Non-Executive Directors are available for inspection at the Company's registered office during narmal business hours and at the AGM.

# Payments Outside The Policy In This Report

The Committee retains discretion to make any remuneration payment or payment for loss of office outside the policy in this report:

- where the terms of the payment were agreed before the policy come into effect;
- where the terms of the payment were agreed at a time when the relevant individual was not a Director of the Company and, in the opinion of the Committee, the payment was not in consideration of the individual becoming a Director of the Company; or
- to satisfy contractual commitments made under legacy remuneration arrangements.

For these purposes, "payments" includes the satisfaction of awards of variable remuneration and, in relation to an award over shares, the terms of the payment are "agreed" at the time the award is granted.

## **Engagement With Shareholders**

- Jon Kempster's remuneration for FY20 as set out in the above rable is his remuneration for the period from 29 April 2019 until 12 September 2019 when he caused to be an Executive Director No payment was made to Jan following his resignation.
- Further details of the bonus autturn for Chris Waatton for FY71 can be found on page 55
- Pensions are provided yig a defined contribution to the Company stakeholder pension scheme (see page \$7)

# Further Information On The FY21 Annual Bonus

Chris Wootton received a bonus of £100,000 in respect of FY21.

In awarding this bonus, the Committee considered Chris' strong leadership of the Group through a very challenging period. While no formal criteria were set at the beginning of the year due to the uncertainties of the Covid-19 pandemic, the Committee considered the impact of Chris' contribution to the financial results detailed in the Financial Review and his personal leadership of the Group's response to the Covid-19 pandemic.

# Payments For Loss Of Office And Payments To Former Directors (Audited)

No payments for loss of office or payments to former Directors were made in FY21

# Statement Of Directors' Shareholding And Share Interests (Audited)

The beneficial interests of the Directors who served during the year and of their connected persons in both cases at the beginning of the financial year, or at the date of appointment if later, and at the end of the financial year, or at the date of resignation if earlier, in the share capital of the Company are shown below:

	Ordinary Shares held at 25 April 2021 of it earfier the date of resignation	Ordinary Shares hold at 25 April 2020 of if earlier the date of resignation
DIRECTORS AS AT 25 APRIL 2021		
Mike Ashley	330,000,000	330,000,000
Chris Waotten		
Ormed Day	24,205	21,007
Niçola Frampton	5,732	
David Brayshaw	31,611	31611
Richard Betternley	10,000	10,000
Cally Price		

There has been no change to the interests reported above between 25 April 2021 and 5 August 2021 Other than noted on page 62 the Company did not receive any notifications under DTR 5 between 25 April 2021 and 5 August 2021.

As at 5 August 2021, neither Chris Wootton nor Mike Ashley participate in any Company share scheme arrangement. Therefore, there are no outstanding share scheme interests held by any Director of the Company.

### Performance Graph And Table

The following graph shows the Company's pe formance measured by the Total Shareholder Return compared with the performance of the FTSE '00 and FTSE 250 Index (excluding investment trusts).

The Committee considered these as appropriate indices against which to compare the Company's performance. They are widely accepted as national measures and include the companies that investors are likely to consider alternative investments.

# Total Ceo Remuneration And Performance-Related Pay

The table below shows details of the total remuneration and performance-related pay for the Company's Chief Executive over the last ten financial years.

	Total reguneration	Executive Share Scheme or a % of maximum opportunity
FY21 - Mike Ashley	N.	A/N
FY20 - Mike Ashley	Ž.	N/A
FY19 - Mike Ashley	Z.	N/A

### Annual General Meeting

Further details on the date, time and format of proceedings will follow shortly after the finalisation of these Annual Report and Accounts, taking into account Government guidance surrounding the Covid-19 pandemic.

#### Going Concern

operational existence for the at least 12 months

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Chief Executive's Report and Business Review.

The financial position of the Group, its cash flows, liquidity position and borrowing facilities are described in the Financial Réview. In addition, the financial statements include the Group's objectives, policies and processes for managing its capital, its financial risk management objectives, details of its financial instruments and hedging activities, and its exposures to credit risk and liquidity risk.

The Group still trades profitably, is highly cash generative and has considerable financial resources. The Group is able to operate within its banking facilities and covenants, which runs until November 2022, and is well placed to take advantage of strategic opportunities as they arise. As a consequence, the Directors believe that the Group is able to manage its business risks successfully despite the continued uncertain economic outlook.

putting on hold discretionary spend, liquidating certain assets on the balance sheet and paying actions which could be taken if required such as Management also has a number of mitigating interest cover and net debt to EBITDA ratios). to operate within the level of the current support, foreign exchange exposure and cost saving initiatives. ### Key audit matter description

Balance Sheet records inventory of £1,096.6m (2020: £1,198.3m). This amount is net of an At 25 April 2021, the Group Consolidated inventory provision of E219.8m (2020: E223m).

points during the period and the resultant ability to sell through seasonal inventory may reduction in the level of demand and a reduced increase the risk of inventory obsolescence. stores being temporarily closed at various The Covid-19 pandemic resulted in physical

strategies and management's assessment of a provision by category of inventory based on As described in note 2 to the financial historical experience, pricing and discounting inventory provisioning model which calculates statements, management use a forward looking

the additional costs to sell which need to be including assessing the likely impacts of the of expected future losses on sale of inventory calculation of inventory provisions to ensure that inventory is held at the lower of cost and Covid 19 pandemic, inventory obsolescence and net realisable value. This involves consideration here is significant estimation involved in the

Due to the factors explained above, we have dentified the valuation of inventory as a key audit matter.

### How the matter was addressed in the audit In respect of inventory valuation we:

# Assessed the appropriateness of management's inventory provision calculations, including testing the accuracy and completeness of the data used and the mathematical accuracy of the provisioning model

- Critically challenged the assumptions mode in the inventory provision model in respect of the expected level of discounting and the expected costs of sale, including:
- The basis on which expected discounts were calculated and whether calculated discounts were realistic based on historical experience and the current trading environment
- The assumptions regarding the expected volume and allocated costs of redistributing (tunnelling) and repricing product

  Whether different assumptions and

estimates should be applied for different

fascias given the differentiated product

Considered management's strategic options for addressing demand in the uncertain retail economic environment present as a result of the Covid 19 pandemic, including discounting levels and further development of on-line retail channels.

As a result of our findings from challenging management's model, we independently developed an alternative model that applied historic inventory loss experience to calculate a provision against current out of season and clearance inventory and inventory that would be expected to remain unsold and fall into those categories in future periods. In addition, we recalculated the expected future tunnelling

and repricing costs to take account of our assessment of the likely future costs of these activities in relation to products that would have a net realisable value which was below

We then formed an assessment, based on discussions with management and available market data, to reflect the impact of the Covid-19 pandemic. This included consideration of forecast future sales performance, expected margin decline, the increased risk of inventory becoming out of season and adjustments considered relevant for specific fascias, where the risk of inventory obselesence was considered to be higher. Our alternative model allowed us to develop an estimate of the level of provision we considered appropriate and supportable against which we were able to assess management's estimates.

#### Key observations

Our audit work on inventory valuation, and in particular the development of our own alternative provision model, did not identify any material misstatement in the inventory provisions.

### Impairment of property related assets Key audit matter description

As a result of the Covid 19 pandemic and changing patterns of retail consumer behaviour, particularly in relation to physical stores, the Group identified that there were indications of impairment in relation to freehold property interests, right of use assets and related PPE ("property related assets"). As required by IAS 36 (Impairment of Assets) the Group has performed an impairment review of all such assets.

As a result of this review, impairments in relation to freehold and long leasehold property (£88.4m), right of use assets (£168.2m) and related PPE (£63.8m) have been made in these financial statements.

As described in note 2 to the financial statements, the impairment review involves management judgements and estimates in relation to the value in use of the property related assets (being the net present value of the forecast related cashflows) and, in the case of freehold property, comparison of calculated value in use to internal and external property valuations. The values derived are then compared to the book value of the related assets to determine whether impairment is required. In making this assessment management determined each property or store to be a cash generating unit (CGU).

assessment of the propensity for customers assumptions regarding future cashflows, the the sensitivity analysis set out in note 2. estimation uncertainty and this is illustrated by of property related assets had a high degree of Accordingly we determined that the valuation tree periods and future rentals achievable. relet property, the length of void and rent on assumptions regarding the ability to freehold property, valuations are dependent possibility of future lockdowns. In the case of discount rate as well as considering the margins and determination of an appropriate to switch to online purchases, pressure on long term growth rate in like for like sales, an The value in use calculations involve significant

Due to the factors explained above, we have

identified completeness, valuation, presentation and disclosure of property related assets as a key audit matter.

# How the matter was addressed in the audit

We obtained an understanding of how management performed their impairment testing of property related assets and their approach to valuation.

We critically assessed the methodology applied by management with reference to the requirements of IAS 36 and tested the integrity of the value in use calculations and the calculated impairments by CGU.

In the case of freehold property, in addition to assessing the value in use calculations, we evaluated the approach to the valuation of freehold interests with input from an independent external retail property valuation expert and critically challenged the underlying assumptions.

In particular we challenged the significant assumptions within management's models through:-

- Evaluating management's assumptions through consideration of historical and current trading performance and external data points
- Sensitised the assumptions in management's impairment models and reviewed the financial statement disclosures documenting assumptions and the impacts of applied sensitivities
- Tested the reconciliation between the coshflows used in the value in use calculations with those used to assess going concern and viability to ensure they were consistent
- Critically challenging whether it was appropriate to exclude properties from the impairment model and assessing whether the reasons for exclusion were supportable for example where specific properties were under redevelopment
- Comparing the discount rate used with that independently calculated by our internal valuation expert

financial statements are consistent with IAS 36 We assessed whether the disclosures within the

Our work in respect of CJRS claims did not identify any material misstatement

### Our application of materiality

When establishing our overall audit strategy, we set certain thresholds which help us to determine the nature, timing and extent of our audit procedures. When evaluating whether the effects of the nature, the procedure is the most of the decision of the users we take into account the qualitative nature and the size of the misstatements. Bassed on our professional judgement, we determined materiality for the financial statements as follows:

OVERALL MATERIAL TY	t 111 million (2020 f 11 9 million)	F110milion (7020 F119milion)
BASIS FOR DETERMINING GVERALL MATERIALITY	26% of Underlying EBITDA	1% of total assets (capped at overall Group materiality)
RATIONALE FOR BENCHMARK APPLIED	In determining overall materiality we guve consideration to underlying EBITDA, revenue and the overage result before tax for the previous three years	The Parent Company does not traite and therefore total assets is considered to be the most appropriate benchmark
	Since the Group uses underlying EBITDA in it's communications with slutishinders we have determined this to be the most appropriate materiality benchmark.	
	We opplied a lower level of materiality to the audit of components and, in accordance with ISA 320, in elation to certain classes of transections, account balances and disclosures.	
	Underlying EBITDA is defined at note 4 and in the glassary to the financial statements	
PERFORMANCE MATERIALITY	£72milian	£71milion
	We set performance indevolity of clevel lower than overall modernaty for the hospital subtements on whole to reduce to an appropriately low level the probability from, an aggregate, uncorrected and undetected historians	We set performence inderoully at a level lower than cowall instancially for the finance of statements on a whole to reduce to an appropriately low level the probability rited, in aggregate, automatical and underected missingement exceeds overally materially.
	The factors we considered in recoility determining performance and renality included, our knowledge of the group, the pressures within the recoil sector and the level of insistatements in pinol periods.	
Basis for determining performance materiality	65% of overall materiality {2020, 75% of overall materiality}	65% of overall materiality (2020-75% of overall materiality)
REPORTING OF MISSTATEMENTS TO THE AUDIT COMMITTEE	Misstatements in excess of EO fimilion and misstatements below that theishold that, in our well, warranited reporting on qualitative grounds	Misstatements in excess of ED Smilton and misstatements below that theistold that, in our view, warranted reporting on qualitative grounds

# An overview of the scope of our audit

Our audit approach was based on a thorough understanding of the Group's business and is risk based, and in particular included:

- Evaluation of identified components to assess the significance of each component and to determine the planned audit response based an a measure of materiality. This included significance as a percentage of the Group's revenue, total assets and result before tax:
- For those components that were evaluated as significant, or likely to include significant risks, either a full-scope or targeted approach was taken based on their relative materiality to the Group, and our assessment of the audit risk. For significant components requiring a full-scope approach, we evaluated controls over the financial reporting systems identified as part of our risk assessment and oddressed critical accounting matters. Substantive testing was performed on significant classes of transactions and balances, and other material balances, determined during the Group scoping exercise:
- Full scope audit procedures have been performed on the financial statements of Frasers Group plc, and on the financial information of the main trading companies within the UK Retail component.

  Sportsdirect.com Retail Limited, Wareshop 2 Limited, Sports Direct International Holdings Limited, House of Fraser Limited, The Flannels Group Limited, Jack Wills Retail Limited, Evans Cycles Limited and GAME Retail Limited;
- In relation to overseas components we engaged RSM member firms in Austria, Ireland and Span, to perform full scope component audits and RSM in the United States and Belgium to perform targeted audit procedures. Additionally, RSM member firms attended inventory counts in a number of locations:

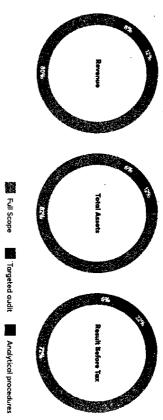

- The group engagement team reviewed the work performed by the component auditors. We determined the level of involvement we needed to have in their audit work at those reporting units to be able to conclude whether sufficient, appropriate audit evidence had been obtained as a basis for our opinion and the Group financial statements as a whole.
- Further specific audit procedures over the Group consolidation and areas of significant judgement including impairment of property related assets, leases, toxation and treasury were performed by the group engagement team.
   The operations that were subject to full-scape audit procedures made up 80%, of consolidated revenues, 82% of total assets and 72% of

revenues, 82% of total assets and 72% of absolute profit before tax.

The operations that were subject to targeted audit procedures, including specific significant judgement areas noted above, made up 6% of

consolidated revenues, 6% of total assets and 6% of profit before tax; and 17 he remaining aperations of the Group were subject to analytical procedures over the balance sheet and income statements of the relevant entities with a focus on applicable risks identified above. This made up 12% of consolidated revenues, 12% of net assets and 22% of profit before tax.

The coverage achieved by our audit procedures was:

Full scope audits were performed for 5 components (some of which included a number of legal entities which were combined for group reporting purposes), targeted audit procedures for 4 components and analytical procedures at group level for the remaining components.

The Group team had planned to visit component locations in Austria, Spain and the USA. However, these visits were prevented by travel restrictions imposed as a result of the Covid-19 pandemic and instead the group team held video conference calls and performed remote file reviews to assess the audit risk and the work planned and performed in response.

The parent company was subject to a full scope audit for the purposes of the Group and Parent Company financial statements.

#### THE INCOMMODE

The directors are responsible for the other information. The other information comprises the information included in the annual report on pages 1 to 65 other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in daing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, the part of the directors' remuneration report to be audited has been properly prepared in accordance with the Companies Act 2006.

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements and those reports have been prepared in accordance with applicable legal requirements;
- the information about internal control and risk management systems in relation to financial reporting processes and about share capital structures, given in compliance with rules 7.2.5 and 7.2.6 in the Disclosure Rules and Transparency Rules sourcebook made by the Financial Conduct Authority (the FCA Rules), is consistent with the financial statements and has been prepared in accordance with applicable legal requirements; and
- information about the company's corporate governance code and practices and about its administrative, management and supervisory bodies and their committees complies with rules 7.2.2, 7.2.3 and 7.2.7 of the FCA Rules

### **exception** In the light of the knowledge and

Matters on which we are required to report by

In the light of the knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in:

- the Strategic Report or the Directors' Report
- the information about internal control and risk management systems in relation to financial reporting processes and about share capital structures, given in compliance with rules 7.2.5 and 7.2.6 of the FCA Rules

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements and the part of the directors' remuneration report to be audited are not in agreement with the accounting records and returns; or
- made; or we have not received all the information

certain disclosures of directors'

remuneration specified by law are not

we have not received all the information and explanations we require for our audit.

## Corporate governance statement

The Listing Rules require us to review the directors' statement in relation to going concern, longer-term viability and that part of the Corporate Governance Statement relating to the parent company's compliance with the provisions of the UK Corporate Governance Statement specified for our review.

our audit, we have concluded that each of Based on the work undertaken as part of Governance Statement is materially consistent obtained during the audit: the following elements of the Carparate with the financial statements or our knowledge

- Directors' statement with regards the concern basis of accounting and any material uncertainties identified (set out on appropriateness of adopting the going page 64);
- assessment covers and why this period is Directors' explanation as to its assessment appropriate (set out on page 36); of the group's prospects, the period this

ncreases.

(including goodwill) is tested for impairment

and the retained interest is a financial asset ceases to be an associate. When the Group method from the date when the investment at fair value at that date and the fair retains an interest in the former associate The Group discontinues the use of the equity value is regarded as its fair value on initial the Group measures the retained interest disposal of the associate. In addition, the Group in the determination of the gain or loss on a part interest in the associate is included interest and any proceeds from disposing of discontinued, and the fair value of any retained associate at the date the equity method was difference between the carrying amount of the recognition in accordance with IFRS 9. The in other comprehensive income in relation to accounts for all amounts previously recognised a gain or loss previously recognised in other of the related assets or liabilities. Therefore, if that associate on the same basis as would be or loss (as a reclassification adjustment) when reclassifies the gain or loss from equity to profi of the related assets or liabilities, the Group be reclassified to profit or loss on the disposal comprehensive income by that associate would required if that associate had directly disposed

in profit or loss in the period in which the investment is acquired. any impairment loss with respect to the Group's determine whether it is necessary to recognise The requirements of IAS 36 are applied to

78

When the Group reduces its ownership interesin an associate but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain ar loss that had previously been recognised in other comprehensive income relating to gain or loss would be reclassified to profit that reduction in ownership interest if that or liabilities. When a group entity transacts or loss on the disposal of the related assets with an associate of the Group, profits and Group's consolidated financial statements only associate or joint venture are recognised in the losses resulting from the transactions with the to the extent of interests in the associate that are not related to the Group.

#### Revenue Recognition

Revenue with customers is measured based on the five-step model under JFRS 15: 'Revenue from Contracts with Customers':

identify the contract with the customer: identify the performance obligations in the

allocate the transaction price to separate performance obligations in the contract, determine the transaction price;

Revenue is measured at the fair value of the supplied, stated net of discounts, returns and represents amounts receivable for goods consideration received, or receivable, and value added taxes. Customers have a right of return within a specified period and this gives rise to variable consideration under IFRS 15. customers on return of their goods recognised inventory, with the refund liability due to The right of return asset is recognised within recognise revenues when (or as) each performance abligation is satisfied. within trade and other payables.

In the case of goods sold through retail stores, goods to the customer at the point of sale, less the performance obligation of transferring the revenue is recognised when we have satisfied provision for returns. Accumulated experience is the time of the sale. Retail sales are usually in used to estimate and provide for such returns at

cash, by debit card or by credit card. In the case of goods sold on the internet

revenue is recognised when we have satisfied where the customer has opted for delivery. the goods to the customer, which is the point of delivery to the customer. Transactions the performance obligation of transferring are settled by credit cord or payment card provisions are made for internet credit notes expected value method, which in turn is based based on the expected level of returns using the of internet click and collect orders which are upon the historical rate of returns. In the case collected in store, the performance obligation is deemed to have been satisfied when the goods are dispatched from the warehouse.

In the case of goods sold to other businesses via wholesale channels, revenue is recognised obligation of transferring the goods to the when we have satisfied the performance generally 30-60 days with no right of return. customer upon delivery. Payment terms are

trademarks and licences, revenue is recognised In the case of income generated from based either on a fixed fee basis or based an sales with specified minimum guarantee amounts in accordance with the relevant agreements. If the sales-based royalty is not guarantee threshold, revenue is recognised over expected to clearly exceed the minimum the rights period measured on the basis of the fixed guaranteed consideration. Revenue above the minimum guarantee threshold is recognised as earned based on the contractual rayalty rate

applied to the sales recognised on the accruals basis over the Revenue from Gym membership fees is related membership period.

In the case of revenue from third party commission on concession sales within the is recognised when goods are sold to the House of Fraser department stores this customer. As we act as the agent this is the Group receives on the transaction rather stated at the value of the commission that than the gross revenue from the sale of the concessionaires' goods.

which allow members to accumulate points an purchases and receive exclusive afters and a separate identifiable comparient of a sales to customers is determined relative to the benefits. The fair value of the points awarded The Group operates loyalty programmes total transaction price and accounted for as Deferred revenue is adjusted for the value of the estimate value of earned layolty points transaction. Revenue is deferred to match by customers based on historical redemption points that are not expected to be redeemed programmes, the revenue that was deferred is Group fulfils its obligations pursuant to the rates. When the points are redeemed and the recognised. In the UK points awarded expire in Spain they are valid until the end of the following a period of 12 months of inactivity, following calendar year.

recognised when the cards or vouchers are Revenue from gift cards and vouchers is recognised when the likelihood of the card redeemed by the customer, breakage is or voucher being redeemed is remote or has expired. For gift cards monies received represent deferred revenue prior to the

#### Government Grants

there is reasonable assurance that the Group Government grants are not recognised until will comply with the conditions attaching to Grants that are receivable as compensation for them and that the grants will be received. expenses ar lasses already incurred or for the purpose of giving immediate financial support recognised in the Income Statement in the to the Group with no future related costs are period in which they become receivable.

in the period relating to business rates relief and the Caranavirus Job Retention Scheme The Group has received Government support (CJRS) as a result of the Cavid-19 pandemic. the UK) in the period in regard to the CJRS (or equivalent where received in non-UK territories) The amount received by the Group lincheding (or equivalent where received in non-UK rates relief received by the Group in the period was approx. £80m. The amount of business

grants that compensate the Group for expenses territories) was approx. £97.5m. Government incurred are recognised in profit or loss as a the periods necessary to match them with deduction against the related expense over the related costs. The amounts quoted have been recognised in Selling, distribution and administrative expenses in the period.

#### Exceptional (terns

significant items of income and expense which the face of the Income Statement. These are The Group presents exceptional items on because of their size, nature and infrequency of the events giving rise to them, merit to better understand the elements of financial separate presentation to allow shareholders performance in the year, so as to facilitate comparison with prior periods and assess trends in financial performance more readily.

#### Interest income

Interest income is reported on an accruals basis using the effective interest method.

tax. Tax is recognised in the Income Statement, Tax expense comprises of current and deferred recognised in other comprehensive income or except to the extent it relates to items directly in equity. The income tax expense or credit for the period is the tax payable on the applicable income tax rate for each jurisdiction, current periods taxable income, based on the adjusted by changes in deferred tax assets and liabilities attributable to temporary differences

and to unused losses. arising between the tax bases of assets and Deferred taxation is calculated using the liability method, on temporary differences consolidated Financial Statements. However, liabilities and their carrying amounts in the if the deferred tax arises from the initial of an asset or liability in a transaction other than a business combination that at the time recognition of goodwill or initial recognition of the transaction affects neither accounting for. Deferred tox on temporary differences nor taxable profit or loss, it is not accounted

If only such indication is current condition is estimated in order to its current condition is estimated in order to its current condition is estimated in order to determine the extent of the impointment of the determine the extent of the impointment of the impoint exists the recoverable amount of the asset in any Where the asset does not generate cash CRASERS GROUP the CCI) to which the asset belongs. With flows that are independent from other assets. respect to property, plant and equipment, each store is considered to be a tight and teniewed for importment whereby changes in chenustances indicate that the recoverable amount is lower than the carring volue The recoverable amount is the higher of fair assessing the value in use, the estimated future value less casts to sell and value in use. In cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assat for not been odjusted. which the estimates at lucuse cash flows have If the recoverable amount of an asset (or amount, the corrying amount of the asset omount, the corrying amount of the amount. An amount, the corrying amount of the amount. CGU) is estimated to be less than its carrying

impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a re-valued amount, in which case the impairment loss is treated as a revaluation decrease to the original historic cost and then as an expense.

Impoirment losses recognised for CGU's to which goodwill has been allocated are credited initially to the carrying annount of goodwill. Any remaining impairment loss is charged pro rata to the other assets in the CGU.

Where an impairment loss subsequently Where an impairment loss subsequently reverses, the corrying amount of the asset (CGU) excluding goodwill, is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (CGU) in prior periods A reversal of an impairment loss is recognised in the Income Statement immediately.

#### Assets Held For Sale

Non-current assets classified as held for sale are presented separately and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. Once classified as held for sale, the assets are not subject to depreciation or amortisation.

#### Ventories

Inventories are valued at the lower of cost and net realisable value. Cost includes the purchase price of the manufactured products, materials, direct labour and transport costs. Cost is calculated using the weighted average cost method. Net realisable value is based on the estimated selling price less all estimated selling costs.

The Group receives trade discounts and rebates from suppliers based upon the volume of orders placed in a given time window. Typical discounts and rebates received by the Group include early settlement discounts, volume rebates on inventory purchases, supplier rebates based on faulty goods, and marketing support. Where there is sufficient certainty

that a discount or rebate will be received in the future that relates to historic purchases this is reflected in the cost of inventories. Where the receipt of rebottes is uncertain, the cost of inventories is held at full cost price until the rebate is received. Recognised rebates are released to the Income Statement to the extent that the stock has been sold.

### Cash And Cash Equivalents

Cash and cash equivalents include cash in hand and deposits held on call, together with other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### Financial Instruments

Financial assets and financial liabilities are recognised in the Group's Balonce Sheet when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

#### Financial Assets

Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component

and are measured at the transaction price in accordance with IFRS 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

Financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

requirements apply (see below).

instruments, for which the hedge accounting

- amortised cost
- fair value through profit or loss (FVTPL)
- fair value through other comprehensive income (FVOCI)

All income and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs or finance income, except for impairment of trade receivables and amounts due from related parties which are presented within selling distribution and administrative expenses.

## Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial

in assets whose contractual cash flows are not solely payments of principal and interest are lor accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at fair value through other comprehensive income (FVOCI)

On initial application of IFRS 9 the Group made the irrevocable election to account for long term financial assets at fair value through other comprehensive income (FPVCI) given these are not held for trading purposes. The election has been made on an instrument-by-instrument basis, only qualifying dividend income is recognised in profit and loss, changes in fair value are recognised within OCI and never reclassified to profit and loss, even if the asset is impaired, sold or otherwise derecognised.

Impairment of financial assets

IFRS 9s impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit losses (ECL) model'. Instruments within the scope of the requirements include loans and other debt-type financial assets measured at amortised cost and FVOC), trade receivables, other receivables, amounts due from related parties, contract assets recognised and measured under IFRS 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

Other receivables and amounts due from related parties

Recognition of credit losses is no longer dependent on the Group first identifying a credit loss event. Instead the Group considers a broader range of information when assessing credit risk and measuring expected credit

affect the expected collectability of the future reasonable and supportable forecasts that losses, including past events, current conditions

In applying this forward-looking approach, a

Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments such as revenue linked property leases are expensed in the period to which they relate.

On initial recognition, the carrying value of the lease liability also includes:

amounts expected to be payable under any residual value guarantee; the exercise price of any purchase option

granted in favour of the Group if it is

reasonably certain that the option will be exercised:
any penalties payable for terminating the lease, if the term of the lease has been estimated on the basis of the termination and the believe that the basis of the termination.

option being exercised.

The lease liability is presented as a separate I ne in the consolidated Balance Sheet.

Subsequent to initial measurement lease liabilities increase as a result of interest charged ct the effective rate on the balance outstanding and are reduced for lease payments made.

Right of use assets are initially measured at the amount of the lease liability, reduced for any lease incentives (payments made by a lessor to a lessee associated with a lease, or the relimbursement or assumption by a lessor of costs of a lessee) received or impairment, and ircreased for:

- lease payments made at or before commencement of the lease;
- initial direct costs incurred; and
- the amount of any provision recognised where the Group is contractually required to dismantle, remove or restore the leased asset, providing it meets the Groups property, plant and equipment capitalisation policy.

When an indication of impairment is identified, right of use assets are tested for impairment in accordance with IAS 36 by comparing the recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. The right of use assets are presented within property, plant and equipment in the consolidated Balance Sheet.

Subsequent to initial measurement, right-of-use assets are amortised on a straight-line basis over the remaining term of the lease or over the remaining economic life of the asset if this is judged to be shorter than the lease term.

is made to the carrying value of the right-of-use term, amortised over the remaining (revised) lease asset, with the revised carrying amount being revised. In both cases an equivalent adjustment discount rate. The carrying value of lease term, which are discounted at a revised the carrying amount of the lease liability to or termination option being exercised), it adjusts re-assesses the probability of a lessee extension term of any lease (because, for example, it When the Group revises its estimate of the payments dependent on a rate or index is rate when the variable element of future lease liabilities is revised using the original discount reflect the payments to make over the revised

When the Group renegotiates the contractual terms of a lease with the lessor, the accounting depends on the nature of the modification:

- if the renegotiation results in one or more additional assets being leased for an amount commensurate with the standalone price for the additional rights-of-use obtained, the modification is accounted for as a separate lease in accordance with the above policy
- in all other cases where the renegotiation increases the scope of the lease (whether that is an extension to the lease term, or one or more additional assets being leased), the lease liability is remeasured using the discount rate applicable on the modification date, with the right-of use asset being adjusted by the same amount
- if the renegotiation results in a decrease in the scope of the lease, both the carrying

lease or over the
asset is adjusted by the same amount.

#### Sale and leaseback

On entering into a sale and leaseback transaction the Group determines whether the transfer of the assets qualifies as a sale (satisfying a performance obligation in IFRS 15 'Revenue from Contracts with Customers'). Where the transfer is a sale and providing the transaction is on market terms then the previous carrying amount of the underlying asset is split between.

- a right-of-use asset arising from the leaseback (being the proportion of the previous carrying amount of the asset that relates to the rights retained), and
- the rights in the underlying asset retained by the buyer-lessor at the end of the leaseback.

The Group recognises a portion of the total gain or loss on the sale. The amount recognised is calculated by splitting the total gain or loss into:

- an unrecognised amount relating to the rights retained by the seller-lessee, and
- a recognised amount relating to the buyerlessor's rights in the underlying asset at the end of the leaseback.

The leaseback itself is then accounted for under FRS 16.

Rental income from operating leases where the Group acts as a lessor is recognised on a straight-line basis over the term of the relevant lease.

#### Treasury Shares

The purchase price of the Group's own shares that, it acquires is recognised as Treasury shares' within equity. When shares are transferred out of treasury the difference between the market value and the average purchase price of shares sold out of treasury is transferred to retained earnings.

#### Employee Benefit Trust

An Employee Benefit Trust has been established for the purposes of satisfying certain share-based awards. The Group has 'de-facto' control over the special purpose entity.

This Trust is fully consolidated within the accounts. The cost of shares acquired by the Sports Direct Employee Benefit Trust is recognised within 'Own Share reserve' in equity.

#### Share-Based Payments

The Group issues equity-settled share-based payments to certain Directors and employees. These are measured at fair value at the date of grant, which is expensed to the consolidated Income Statement on a straight-line basis over the vesting period, with the corresponding credit going to equity.

Non-market vesting conditions are not taken into account in determining grant date fair value. Instead, they are taken into account by adjusting the number of equity instruments to vest. At the end of each reporting period the Group revises its estimates of the number of options that are expected to vest based on the non market vesting and service conditions. Any revisions, if any, are recognised in profit and loss with an adjustment to equity.

Fair value is calculated using an adjusted form of the Black-Scholes model which includes a Monte Carlo simulation model that takes into account the exercise piace, the term of the option, the impact of dilution (where material), the share price at grant date and the expected price valatility of the underlying share, the expected dividend yield, and the risk-free interest rate for the term of the scheme. The expected staff numbers used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

For cash-settled share-based payment transactions, the Group measures the services received and the liability hoursed at the fair value of the liability. Until the liability is settled, the Group remeasures the fair value of the liability at the end of each reporting period and at the date of settlement, with any changes in fair value recognised in the Income Statement for the period.

The credit for the shore based payment charge does not equal the charge per the income Statement as it excludes amounts recognised in the Balance Sheet in relation to the expected national insurance contributions for the shares.

#### Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deeducting all of its liabilities. Equity instruments issued by the Group are recorded at the proceeds received, net of any direct issue costs.

#### Foreign Currencies

The presentational currency of the Group is sterling. The functional currency of the Company is also sterling. Foreign currency transactions are translated into sterling using the exchange rates prevailing on the dates of the transactions. Exchange differences of the Company arising on the settlement of monetary items, and on the retranslation of monetary items, are included in the Income Statement for the period.

arising on the retranslation of non-monetary at fair value are included in the income Exchange differences arising on the recognised directly in other comprehensive income. Monetary assets and liabilities Statement for the period except for differences retranslation of non-monetary items carried component of that gain or loss is also For such non-monetary items, any exchange recognised in other comprehensive income. items in respect of which gains and losses are are translated at the foreign exchange rate at the balance sheet date. Non-monetary items translated at the rate of exchange ruling at denominated in foreign currencies are the date of the valuation. Non-monetary items that are held at valuation in a foreign currency are not retranslated. that are measured in terms of historical cost

On consolidation, the assets and liabilities of foreign operations which have a functional currency other than sterling are translated into sterling at foreign exchange rates ruling at the balance sheet date. The revenues and expenses of these subsidiary undertakings are translated at overage rates applicable in the period. All resulting exchange differences are recognised in other comprehensive income and documented in a separate component of equity.

When a foreign operation is sold, the cumulative exchange differences that have been recognised as a separate component of equity are reclassified from equity to the Income Statement when the disposal is recognised.

in order to mitigate its exposure to certain foreign exchange risks, the Group enters into forward contracts (see Chief Executive's Report and Business Review and the cash flow hedging accounting policy).

#### Dividends

Dividends are recognised as a liability in the Group's Financial Statements and as a deduction from equity in the period in which the dividends are declared. Where such dividends are proposed subject to the approval of shareholders, the dividends are regarded as declared once shareholder approval has been obtained and they are no longer at the discretion of the Company.

#### Materiality

In preparing the Financial Statements, the Board considers both quantitative and qualitative factors in forming its judgements, and related disclosures, and are mindful of the need to best serve the interests of its stakeholders and to avoid unnecessary clutter borne of the disclosure of immaterial items.

in making this assessment the Board considers the nature of each item, as well as its size, in assessing whether any disclosure omissions or misstatements could influence the decisions of users of the Financial Statements.

#### New Accounting Standards, Interpretations And Amendments Adopted By The Group

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not effective. The Group applies for the first time the following new standards:

- Definition of Material Amendments to IAS 1 and IAS 8
- Definition of a Business Amendments to IFRS 3
- Interest Rate Benchmark Reform Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16
- Covid-19 Related Rent Concessions Amendments to IFRS 16
- Amendments to References to the Conceptual Framework in IFRS Standards

By adopting the above, there has been no material impact on the Financial Statements

#### International Financial Reporting Standards {"Standards") In Issue But Not Yet Effective

At the date of authorisation of these consolidated Financial Statements, there are no standards in issue from the International Accounting Standards Board (\*IASB\*) or International Financial Reporting Interpretations Committee (\*IFRIC\*) which are effective for annual accounting periods beginning on or after 26 April 2021 that will have a significant impact on these Financial Statements.

## CRITICAL ACCOUNTING JUDGEMENTS AND ESTIMATES

The critical accounting estimates and judgements made by the Group regarding the future or other key sources of estimation, uncertainty and judgement that may have a significant risk of giving rise to a material adjustment to the carrying values of assets and liabilities within the next financial period are:

#### Key Judgements

## **Determining Related Party Relationships**

Management determines whether a related party relationship exists by assessing the nature of the relationship by reference to the requirements of IAS 24, Related Party Disclosures. This is in order to determine whether significant influence exists as a result of control, shared directors or parent companies, or close family relationships. The level at which one party may be expected to influence the other is also considered for transactions involving close family relationships

## Cantrol And Significant Influence Over Certain Entities

Under IAS.28 Investments in Associates and Joint Ventures if an entity holds 20% or more of the voting power of the investee, it is presumed that the entity has significant influence, unless it can clearly demonstrate that this is not the case. During the period the Group has held greater than 20% of the voting rights of Studio Retail Group PIc, French Connection Group PIc (sold during the period) and Mulberry Group PIc, whereby management consider that the Group does not have significant influence over these entities for combinations of the following reasons:

The Group does not have any representation on the board of directors of the investee other than a Frasers Group representative having an observer role on the board of Studio Retail Group Plc. Management have reviewed the terms of the observer arrangement and have concluded that this does not give them the right to participate in or influence the

financial or operating decisions of Studio Retail Group Plc. Studio Retail Group Plc can terminate this arrangement at any time, and can determine which parts of the Board meetings the representative can be present at and what information they are given access to. It should be noted the Frasers Group representative did not attend any board meetings in full or part during the reporting period;

- There is no participation in decision making and strategic processes, including participation in decisions about dividends or other distributions;
- There have been no material transactions between the entity and these investee companies;
- There has been no interchange of managerial personnel;
- No non-public essential technical management information is provided to the investee:

in the period (as disclosed in note 34) would be and the percentage shareholding (disclosed in recognised in profit or loss. note 20) multiplied by the results of the investee equity method of accounting would be used significant influence over these entities then the were to consider that the Group does have exercise of such influence. If management decisions and effect its returns through the Group to influence operational and strategic investment and funding and the ability of the ownership, board membership, the level of making. This includes the level of share that allow management to influence decision management will consider the various aspects management have over certain entities, In assessing the level of control that

orwards is permitted.

The Group holds 49% of the share capital of Four (Holdings) Limited which is accounted for using the equity method. The Group does not have any representation on the board of directors and no participation in decision about relevant activities such as establishing operating and capital decisions, including budgets, appointing or remunerating key management personnel or service providers

sions of Studio

and terminating their services or employment.

tail Group Plc

However, in prior periods the Group has

provided Four (Holdings) Limited with a

significant loan. At the reporting date, the

amount owed by Four (Holdings) Limited for this

ormation they

loan totalled £60.0m (£21.6m net of amounts

recognised in respect of loss allowance). The

ye did not attend

transactions provides evidence that the entity

has significant influence over the investee but in

the absence of any other rights, in isolation it is

insufficient to meet the control criteria of iFRS

10, as the Group does not have power over Four

(Holdings) Limited and therefore Four (Holdings)

Limited is not equity accounted.

#### Cash Flow Hedging

also have been accomplished in a single the transactions separately that could not whether there is an economic need or A judgement is made in determining another and have the same counterparty contracts that are entered into at the same nstrument and hedge accounting for the contracts are therefore not viewed as one forward contracts. The forward and options managing the options independently of the for entering into the options and a strategy for there is a substantive distinct business purpose transaction. Management are of the view that substantive business purpose for structuring time, they are in contemplation with one The Group uses a range of forward and option

accounting has been based meet the criteria assumptions within them, and are satisfied affect profit or loss. Management have that forecasts in which the cash flow hedge reviewed the detailed forecasts and growth variations in cash flows that could ultimately probable and must present an exposure to that is the subject of the hedge must be highly to the hedged`risk. The forecast transaction offsetting changes in cash flows attributable expected to be highly effective in achieving to be highly probable. The hedge must be denominated purchases) must be considered primarily Euro denominated sales and USD hedge accounting, forecast transactions Under IFRS 9 in order to achieve cash flow

per IFRS 9 as being highly probable forecast transactions. Should the forecast levels not pass the highly probable test, any cumulative fair value gains and losses in relation to either the entire or the ineffective portion of the hedged instrument would be taken to the Income Statement.

Management considers various factors when determining whether a forecast transaction is highly probable. These factors include detailed sales forecasts by channel, geographical area and seasonality, conditions in target markets and the impact of expansion in new areas. Management also consider any change in alternative customer sales channels that could impact on the hedged transaction.

If the forecast transactions were determined to be not highly probable and all hedge accounting was discontinued, the Hedging reserve of £11.5m would be shown in Finance Income.

#### Key Estimates

#### Provision For Obsolete, Slow Moving Or Defective Inventories

The Directors have applied their knowledge and experience of the retail industry in determining the level and rates of provisioning required in calculating the appropriate inventory carrying values. Specific estimates and judgements applied in relation to assessing the level of inventory provisions required are considered in relation to the following areas:

- Continuity inventory
- Seasonal inventory lines specifically seasons that have now finished
- c. Third party versus own brand inventory
- d. Ageing of inventory
- Sports Retail or Premium Lifestyle
- Local economic conditions
- Divisional specific factors
- Increased cost of inventory and lower margins with the devaluation of the Pound
- Over-stock and out of season inventory as a result of Covid-19

and the provision is set within this range. that the assumptions applied remain valid, assessment involves significant estimation at the appropriate percentage provision. The and accuracy of the inventory provision. The monitor and continually re-assess the adequacy risks in relation to inventory. Management use a number of internally generated reports to assessment made by management of the management produces a range of outcomes uncertainty, therefore in order to check inventory (tunnelling) are considered in arriving handling charges in relation to relocating additional cost of repricing inventory and sales pricing protocols and the overall knowledge of the industry, group discounting, are formed using a combination of factors including historical experience, management's Provision estimates are forward looking and

Key assumptions used to create the estimates

## Freehold Land and Buildings and Long-term leasehold

Freehold land and buildings and long-term leasehold assets are assessed at each reporting period for whether there is any indication of impairment in line with IAS 36 impairment.

An asset is impaired when the carrying amount exceeds its recoverable amount. IAS 36 defines recoverable amount as the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use, the Group has determined that each store is a separate CGU. Impairments in the period have been recognised in the amount of £117.9m (FYG). Fall) due to the angoing impact of Covid-19 and the challenges in the retail sector on the forecast cash flows of the CGU. This is split £84.4m against freehold land and buildings {£68.7m UK Sports Retail segment and £1.7m European Retail segment), £3.9m against long-term leasehold {£2.9m UK Sports Retail segment and £1.0m European Retail segment), £79.0m plant & equipment {£15.1m UK Sports Retail segment, £8.8m Premium Ufestyle segment, £5.1m European Retail segment), and £0.6m investment property (all UK Sports Retail segment).

Value In Use (VIU)

The value in use is calculated based on five year cash flow projections. These are formulated by using the Group's forecast cash flows of each individual CGU excluding any Covid-19 impact, taking into account historic performance of the CGU, and then adjusting for the Group's current views on future profitability of each CGU as a result of Covid-19 and knowledge of the current market. The key assumptions in the calculations are the sales growth rates, gross margin rates, changes in the operating cost base and the pre-tax discount rate derived from the Group's weighted average cost of capital using the capital asset pricing model, the inputs of which include a risk-free rate, equity risk premium and a risk adjustment (Beta). Given the number of assumptions used the assessment involves significant estimation uncertainty.

The key assumptions, which are equally applicable to each CGU, in the cash flow projections used to support the carrying amount of the freehold land and buildings were as follows:

Rey assumptions	Year 1	Year 2	Year 1	Year 4	Year 5
Sales decline	-15%	59%	id.	-3%	-2%
Existing gross margin > 40%	-100bps	-175bps	-150bps	125hps	-100bps
Operating costs increase per annum	3%	3%	3%	3%	3%
Discount rate	6%	6%	6%	6%	6%
Terminal growth rate of 2%					

A sensitivity analysis has been performed in respect of sales and margin as these are considered to be the most sensitive of the key assumptions. With regard to the sales assumption below we have performed a sensitivity for both no lockdown in year 1 and a lockdown which lasts four months compared to two months:

Formeatt	Impact of:	(decrease) (m
Safes year 1 - No lockdown	15% - Improvement	(53.3)
Sales year 1 - 4 months lockdown	15% - reduction	576
Existing Gross Margin year 1 > 40%	100bps - improvement	[74]
Existing Grass Margin year 1 > 40%	100bps - reduction	9.3

### Fair value less costs of disposal

For those CGUs where the value in use is less than the carrying value of the asset, the fair value less costs of disposal has been determined using both external and internal market valuations. This fair value is deemed to fall in to Level 3 of the fair value hierarchy as per IFRS 13. The property partfolio consists of vacant, Fasers Group occupied and third party tenanted units, one property can include all three types. The following valuation methodology has been adopted for each:

Scaparie	Valuation methodology	Key assumptions
Vacant units	Estimated Rental Value (ERV) and suitable reversionary yield applied to reflect the market to generate a net capital value. A	Void period and rent free band ~ two bands applied depending on circumstances
	deduction to the capital value generated is then made based	<ul> <li>1 year void, 2 years rent free, or</li> </ul>
	and rent tree incentive	<ul> <li>2 years word, 3 years rent free</li> </ul>
		Yield bands - ranging from 7% • 15%
Frasers Group occupied	Will be assumed the unit is various given there is no legally building linter-company agreement in place. Therefore a vaid	Vaid period and rent free band in two hands applied depending on occumstances
	and rent from incentive period assumed, the cost amount then déducted from the capital value generated by the ERV and	<ul> <li>1 year void, 2 years rent free, or</li> </ul>
	reversionary yield. Although we consider the commercial reality	<ul> <li>2 years void, 3 years rent free</li> </ul>
	Is that he wise less crusts to sell will be leginer than vacon't possession this very conservative assumption is in line with both technical accounting rules and that allow manugement experts.	Yield bands - ranging from 7% - 15%
Third party tenanted	An ERV is applied using a percentage band on the passing tent. An appropriate reversionary yield is applied reflecting the risk of tenant and renewal to generate a capital value. This will also provide a risk initial yield based off the current postena rent.	FRV bands applied to passing rent - ranging from 0% to -50%. Yield bands - ranging from 65% - 15%.

A 10% increase in the market valuation amounts used in the impairment calculations would result in a decrease in impairment of £7.5m.

The total recoverable amount of the assets that were impaired at the period end was £170.0m, with £87.0m of this being based on their fair value less costs of disposal and £83.0m being based on their value in use.

## Key Estimates In Relation To Alternative Performance Measures

The Directors believe that underlying EBITDA, underlying profit before tax and underlying basic EPS provide further useful information for shareholders on the underlying performance of the Business in addition to the reported numbers and are consistent with how business performance is measured internally. They are not recognised profit measures under JFRS and may not be directly comparable with "odjusted" profit measures used by other companies.

EBITDA is earnings before investment income, finance income and finance costs, tax, depreciation, amontisation and impairment. It includes the Group's share of losses from associated undertakings and joint ventures. Underlying EBITDA excludes the impact of IFRS 16, foreign exchange gains/losses in selling and administration costs, exceptional costs, and the profit / loss an disposal of subsidiaries, strategic investments and properties. Underlying EBITDA also excludes fair value adjustments on step acquisitions.

Management will from FY22 charge our main reporting KPI from Underlying EBITDA to Adjusted PBI Thus from FY22 the Group will no longer report Underlying EBITDA. Adjusted PBI is Reported Profit Before Tax less the effects of unhedged FX, exceptional items, and gains and losses on strategic investments. Management have taken this decision for the following reasons:

- With the continued significant investment in and roll out of our elevation strategy on both the physical and digital fronts, the importance of depreciation and amortisation to both the Board and our stakeholders in terms of assessing performance has grown.
- Our understanding from a number of financial sectors including the banking sector is that IFRS16 is becoming an increasingly important consideration, including an covenants in many new financing arrangements.
- With this new measure being introduced we are trying to align with the Financial Reporting Council's thematic standpoint with regard to 'alternative performance measures' as far as possible whilst retaining a degree of interpretation given factors outside of our control, such as FX and strategic investments movements which are exceptionally difficult to forecast, particularly months in advance. The following are further key estimates used with regards to the alternative performance measures used by the group.

#### Onerous lease provision

Provisions for onerous lease contracts are recognised when the unavoidable costs of meeting lease obligations exceed the economic benefits expected to be received over the term of the lease. Where an onerous lease has been identified, the property, plant and equipment associated to that store are also reviewed for impairment.

Management use store EBTDA in order to determine whether an onerous lease exists. Specific assumptions, which involve the use of estimates and involve significant estimation uncertainty, that are used to determine the appropriate level of provision are consistent with the cashflow projections for the Freehold and and Buildings assessment except for the following:

- Discount rate 2% (FY20: 2%) across the Group
- Operating costs increase 3% (FY20: 3%) across the Group
- Store profitability includes 100% contribution towards central overheads
- Assumed get out cap of 10 years (FY20: 10 years), being the maximum period for total unavoidable costs
- Planned store closures, relocations and rebrandings

A sensitivity analysis has been performed in respect of sales and margin as these are considered to be the most sensitive of the key assumptions. With regard to the sales assumption below we have performed a sensitivity for both no lockdown in year 1 and a lockdown which lasts four months compared to two months:

Forecast:	Impact of:	My (Section Without )
Sales yeur 1 - No lockdown	15% - improvement	(1044)
Sales year 1 - 4 months lockdown	15% - reduction	15(0
Existing Gross Margin year 1 > 40 %	100bps - improvement	[12.6]
Existing Gross Maryin year 1 > 40%.	100bps - restaction	ນຮ

Further information on the basis of the estimation of provisioning for dilapidations and onerous lease contracts is detailed in the provisions accounting policy and note 28.

Impairments of plant and equipment and short-term leasehold improvements of £24.2m have also been recognised as a result of identified onerous lease contracts (£6.4m UK Sports Retail segment, £2.7m Premium Lifestyle segment, £15.1m European Retail segment).

## SERVICES PROVIDED BY THE GROUP'S AUDITOR

The remuneration of the auditors, RSM UK Audit LLP, and associated firms, was as detailed below:

	52 weeks ended 35 April 2021	52 wasks syded 26 April 2020
	(E3)	PL3)
AUDIT SERVICES		
Audit of the Group and company - recurring	15	16
Audit of the Group and company - non-recurring	01	0.4
Audit of subsidiary companies	0.8	0.8
Audit related assurance services		1.0
	1.6	2

There were no non-audit services provided in either the current or prior period.

### 9. PAYROLL COSTS

The average monthly number of employees, including Executive Directors, employed by the Group during the period was:

30,179	26,496
4,674	Distribution, administration and other 4,374
25,505	
26 April 2020	53 weeks ended 25 April 2021

The decrease in employees is mainly due to natural attrition, including in part, the integration of new acquisitions.

The aggregate payroll costs of the employees, including Executive Directors, net of amounts received from Government grants, were as follows:

492.8	177.1
59	Pension costs 56
30.5	Social security costs 29 3
456 4	Wages and salaries 3422
52 weeks ended 26 April 2010	52 weeks ended 25 April 2021

Aggregate emoluments of the Directors of the Company are summarised below

0 4	0.5
(F.1)	(E.3)
32 weeks ended 36 April 2020	52 weeks ended 25 April 2021

Further details of Directors' remuneration are given in the Directors' Remuneration Report. Details of key management remuneration are given in note 34.

## 10. INVESTMENT INCOME

15.2	7.104	
05	05	Dividend income
7.3	55 2	Fair value gain on equity derivative financial instruments
	20.6	Premium received on derivative financial instruments
7.6	27.4	Profit on disposal of imancial assets and equity derivative financial instruments
(Em)	(Em) .	
26 April 3020	25 April 2021	

The profit on disposal of financial assets mainly relates to Hugo Boss contracts for difference. The fair value gain on equity derivative financial instruments mainly relates to Hugo Boss options and contracts for difference. The premium received on derivative financial instruments mainly relates to Hugo Boss options.

## 11. INVESTMENT COSTS

19.1	
35 B	Fair value loss on equity derivative financial instruments
140	Loss on disposal of financial assets and equity derivative financial instruments
(fm)	(Em)
36 April 2020	24 Webst effect 28 April 2021

The fair value loss on equity derivatives in the current period mainly relates to movements in contracts for difference.

The loss on disposal recognised in the prior period mainly relates to the sale of equity derivatives. The fair value loss on equity derivatives in the prior period mainly relates to Hugo Boss options and commodities.

### 12. FINANCE INCOME

52 weeks ended 26 April 2030	52 weeks ended 35 April 2021

The fair value adjustment to derivative financial instruments relates to differences between the fair value of forward foreign currency contracts and written options that were not designated for hedge accounting from one period end to the next.

#### 14. TAXATION

	52 weeks ended 25 April 2021	52 weeks anded 26 April 2020
	(m)	(d.7)
Current lax	83 2	572
Adjustment in respect to prior periods	136	39
TOTAL CURRENT TAX	96.0	119
Deferred tox	non.	135.81
Adjustment in respect of prior periods	[6.0]	} }
TOTAL DEPERAED TAX (SEE NOTE 27)	(c.o/)	(3.6)
	863	2.0
Profit before taxokon	85	149.5
Taxation at the standard rate of tax in the UK of 19% (2020-19%)	7.6	223
Non-taxable Income	(99)	[22 d)
Expenses not deductible for tax purposes	770	190
Other tax adjustments	61	9.6
Adjustments in respect of prior periods - current tax	13.5	9 E
Adjustments in respect of prior periods - deterred tax	1021	
Changes in deferred tax rate		12 1
	16.5	42.5

Non-taxable income largely relates to profits on property disposal due to differences between capital allowances and depreciation. Expenses not deductible for tax purposes relate to non-qualifying depreciation, impairments, and fair valuation of investments.

# EARNINGS PER SHARE FROM TOTAL AND CONTINUING OPERATIONS ATTRIBUTABLE TO THE EQUITY SHAREHOLDERS

ij

Basic earnings per share is calculated by dividing the earnings attributable to ordinary shareholders of the parent by the weighted average number of ordinary shares outstanding during the year.

For diluted earnings per share, the weighted average number of shares, 501,955,281 (FY20: 505,826,890), is adjusted to assume conversion of all dilutive potential ordinary shares under the Group's share schemes, being 88,605 (FY20: 1,239,075), to give the diluted weighted average number of shares of 502,043,886 (FY20: 507,065,965). However, as there is a loss for the period ended 25 April 2021, the effect of potentially dilutive ordinary shares is anti-dilutive, and therefore the weighted average number of shares for the Diluted EPS calculation has been kept the same as for the Basic EPS calculation for the current period.

### Underlying Earnings Per Share

The underlying earnings per share reflects the underlying performance of the business compared with the prior period and is calculated by dividing underlying earnings by the weighted average number of shares for the period. Underlying earnings is used by management as a measure of profitability within the Group. Underlying earnings is defined as (loss)/profit for the period attributable to equity holders of the parent for each financial period but excluding the post-tax effect of certain non-trading items. Tax has been calculated with reference to the effective rate of tax for the Group.

The Directors believe that the underlying earnings before exceptional items and underlying earnings per share measures provide additional useful information for share-holders on the underlying performance of the business and are consistent with how business performance is measured internally. Underlying earnings is not a recognised profit measure under IFRS and may not be directly comparable with "adjusted" profit measures used by other companies.

 The £3.30m was reclassified due to Shirebrook warehouse plant and equipment not forming prot of the final sale and lesseback completed during the prior year.

2) in the prior period there is no separate disclosure of imporment from depreciation in respect of the property, plant and equipment. Total imporment in EY20 was 1020 from or which 1978 in related to the Right-of-use assets.

(3) In the current period a number of properties were identified that were previously classified within Freehold Land and Buildings but management believe it to be more appropriate to classify within Long-term Leasehold. These have therefore been adjusted in the period as reclassifications.

Note 2 provides further detail on the property related impairments (relating to ROU assets, freehold land and buildings and onerous lease provisions).

#### ecises

The Group adopted IFRS 16 on 29 April 2019. The Group only has property leases within the scope of IFRS 16, including retail stares, offices and warehouses. Leases are largely for a period between 1 – 15 years typically with break clauses. It is management's intention to continue to enter into turnover linked leases in the future.

The Group presents right-of-use assets that do not meet the definition of investment property in property, plant and equipment, the same line item as it presents underlying assets of the same nature that it owns. The carrying amount and movements in the period can be seen in the table above.

Lease liabilities are presented separately within the Consolidated Balance Sheet. The maturity analysis of lease liabilities is show in note 29e, Interest expense on the lease liability is presented as a component of finance costs as per note 13. Cash payments for the principal portion and the interest portion of the lease liability are presented in the Consolidated Cash Flow Statement with further details given in note 26.

The Group is party to a number of leases that are classed as short term leases and with variable lease payments. These are typically property leases on turnover based rents. Note 8 discloses variable lease payments and short term and low value lease expenses incurred in the period. Cash flows in the period relating to variable lease payments, short term lease payments, and leases for low value easests were approx. £24m [FY20] approx. £72m], it is expected that future cash flows will not be materially different to the FY20 cash flows. Leases to which the Group is committed but have not yet commenced at period end are not considered to be material.

The fair values of the Group's investment properties as at 25 April 2021 were estimated as being materially in line with carrying values. The valuations were calculated by the Group's internal property team who are appropriately qualified chartered surveyors and follow the applicable valuation methodology of the Royal Institute of Chartered Surveyors. Note 2 provides further detail on the property related impairments.

Amortisation is charged to selling, distribution and administrative expenses in the consolidated Income Statement.

The majority of the net book value of intangible assets relates to the £86,5m purchase of Everlast in 2007.

The carrying value of goodwill and brands that are considered to hove an indefinite life are allocated to the Group's operating segments before aggregation. With the exception of Everlast, none of the individual cash-generating units (CGUs) are considered material to goodwill or indefinite life intangibles. The carrying value of goodwill and brands allocated to the Group's CGUs (as aggregated except in the case of Everlast) is shown below:

		25 April 2021	24	26 April 2020
	Goodwill	Brunda	Goodwill	Brunds
	(fen.)	(Am)	(Em)	(MAZ)
European Retail			36	
Wholesale & Licensing (excl. Evertast)	14.3		14.3	
Evadast	32 4	698	362	84.4
	46.7	97.0	¥.	E
			-	•

The Group tests the carrying amount of goodwill and assets with an indefinite life annually for impairment or more frequently if there are indications that their carrying value might be impaired. The carrying amounts of other intangible assets are reviewed for impairment if there is an indication of impairment.

to Everlast. Due to the angoing impact of assets was £262.3m of which £136.8m related all CGUs in relation to the above intangible in note 4. The total recoverable amount of each CGU to which the intangible assets are carrying amounts to the value in use derived aid not support the full value of the asset. ciscounted present value of future cash flows impaired to £nil with an impairment charge of formulating operating segments as reported from discounted cash flow projections for Impairment is calculated by comparing the £3.1m (FY20: £nil) being recognised where the Covid-19, the European Retail goodwill was together into similar classes for the purpose of iascia or brand and these have been grouped allocated. A CGU is deemed to be an individual

Value in use calculations are based on five-year management forecasts with a terminal growth rate applied thereafter, representing management's estimate of the long-term growth rate of the sector served by the CGUs.

Total impairments of £9,1m (FYZO: £19.0m) have been recognised in relation to goodwill on loss making companies and are individually immaterial to each CGU that has been written down. These impairments include the

European Retail goodwill and the goodwill from acquisitions in the period.

The Everlast brand is amortised over a 15 year period within the selling, distribution and administrative expenses category within the income statement. The amount charged to the income statement in the period is £5.5m (FY20: £6.0m), the future amortisation charge is expected to be approximately £6.0m per annum for the remaining 13 year amortisation period (FY20: 14 year).

The key assumptions, which are equally applicable to each CGU, in the cash flow projections used to support the carrying amount of goodwill were as follows:

As at 25 April 2021	European Retail	Wholesale & Licensing (excl. Everlost)	Everbas
Terminal sales growth	20%	2.0%	20%
5 year forecast growth <sup>1</sup>	(%E €)	(5.3%)	116%

3

The same pre-tax discount rate is used in European Retail and Wholesale & Licensing (excl. Everlast) as these CGU's are considered to have similar risk profiles. A specific discount rate is used for Everlast as this business operates in a different market and has different characteristics.

The key assumptions are based on market data and management's historical experience and future plans for each CGU.

#### sensitivity Analysis

A reasonably possible change in any key assumption would not cause the carrying value of the Everlast or Wholesale & Licensing (excluding Everlast) CGU to exceed its recoverable amount, the table below shows the amount of headroom and the revised assumption required in order to eliminate the headroom in full.

The European Retail goodwill has been impaired in the period as a result of the ongoing impact of Covid-19.

	Wholesole & Licensing (excl. Everlast)	Everlast

The permanent contribution to capital relates to a cash payment of £50,000 to the Company on 8 February 2007 under a deed of capital contribution.

The capital redemption reserve arose on the redemption of the Company's redeemable preference shares of 10p each at par on 2 March 2007.

The reverse acquisition reserve exists as a result of the adoption of the principles of reverse acquisition accounting in accounting for the Group restructuring which occurred on 2 March 2007 between the Company and Sports World International Limited, Brands Holdings Limited, International Brand Management Limited and CDS Holdings SA with Sports World International Limited as the acquirer.

The hedging reserve represents the cumulative amount of gains and losses on hedging instruments deemed effective in cash flow hedges. The cumulative deferred gain or loss on the hedging instrument is recognised in the income statement only when the hedged transaction impacts the income statement.

### Other Balance Sheet Reserves

26 April 2020	25 April 2021	

The tax rates used to measure the deferred tax assets and liabilities was 19%, on the basis that this was the tax rate that was substantively enacted at the balance sheet date.

Deferred tax assets are recognised to the extent that realisation of the related tax benefit is probable on the basis of the Group's current expectations of future taxable profits. The Group has approx. £134m of taxable losses not recognised as a deferred tax asset (approx. £25m deferred tax asset).

Included within other temporary differences is a deferred tax asset in relation to the Share Scheme and a deferred tax liability recognised on other intangible assets upon acquisition.

The deferred tax effects of the acquisitions made in the year were considered and it was determined that there was no material impact on the Group, or the fair value of net assets acquired.

Arnos Arnos

Legal and regulatory provisions relate to management's best estimate of the potential impact of claims including legal, commercial, regulatory and ongoing non-UK tax enquiries. The timing of the outcome of non-UK tax inquiries and legal claims made against the Group is dependent on factors outside the Group's control and therefore the timing of settlement is uncertain. After taking appropriate legal advice, the outcomes of these claims are not expected to give rise to material loss in excess of the amounts provided.

A reimbursement asset of £118.3m (FY20: £118.3m) has been recognised separately within debtors relating to angoing non-UK tax enquiries.

Included within property related provisions are provisions for dilapidations in respect of the Group's retail stores and warehouses. Further details of managements estimates are included in note 2.

Other provisions relate to provisions for restructuring and employment (non-retirement related).

During the period, onerous lease provisions (pre-IFRS 16) were recognised due to an ongoing management review of the Group's store profile and strategy including current and anticipated freehold acquisitions, resulting in overall increased provisions of £71.9m (FY20: £26.9m), with reference to the Group's alternative performance measures. See Glossary for more details.

## Financial Assets And Liabilities Sensitivities By Currency

rate to those if exchange rates moved as illustrated. The income statement figures include the profit effect of any relevant derivatives which are not in a designated cash flow hedge. The impact on US Illustrates the hypothetical sensitivity of the Group's reported profit and equity to a 5% increase and decrease in the US Dollar / Stefling and Euro / Stefling exchange rates at the year-end date, assuming all other variables remain unchanged. The figures have been calculated by comparing the fair values of outstanding foreign currency contracts, assets and liabilities at the current exchange Dollar and Euro related hedging instruments is included in equity. The Group's principal foreign currency exposures are to US Dollars and Euros. The table below

The analysis has been prepared using the following assumptions:

- Existing assets and liabilities are held as at the period end;
- No additional hedge contracts are taken out.

						YTINITISMES	7	
			•		USD	•	EUR	*
	Other	150	E S	1	5%	ş	4	*2*
#Y21:								
Trade and Other Receivables	3701	252	398	435.1	(r.1)	5	(2.0)	2.0
Cash and cash equivalents	3534	494	542	457.0	2.5	25	(2.3)	1.7
Irade and Other Payables	(489.0)	[24.5)	106.61	(620.5)	1.1	[1.2]	53	(£.2)
FY20:								
Trade and Other Receivables	2577	266	412	125.5	(r.r)	'n	(2.0)	1.1
Cash and cash equivalents	4613	17.5	55.2	0,145	(0.4)	9.9	(2.4)	2.9
Trade and Other Payables	[451 6]	[25.9]	(1072)	(\$14.7)	12	(L	2	2

There is no difference between fair value and carrying value of the above financial instruments FY20: Enil).

#### Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- **Level 1:** quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly; and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Contracts for difference are classified as Level 2 as the fair value is calculated using quoted prices for listed shares and commodities at contract inception and the period end.

Foreign forward purchase and sales contracts and options are classified as Level 2, the Group enters into these derivative financial ir struments with various counterparties, principally financial institutions with investment grade credit ratings. Foreign exchange forward contracts and options are valued using valuation techniques, which employ the use of market observable inputs. The most frequently applied valuation techniques include forward pricing and swap models using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and

forward rates, and yield curves of the respective currencies.

Long-term financial assets such as equity instruments are classified as Level 1 as the fair value is calculated using quoted prices.

The fair value of equity derivative agreements are included within the derivative financial assets balance of £20.1m and derivative financial liabilities balance of £1.7m. The derivative financial assets and derivative financial assets and derivative financial liabilities as at 25 April 2021 relate to strategic investments held of between 0.04% and 8.41% of investee share capital.

Sold options are classified as Level 2 as the fair value is calculated using other techniques, where inputs are observable.

Trade receivables / payables, amounts owed from related parties, other receivables / from selated parties, other receivables, current / payables, cash and cash equivalents, current / non-current borrowings, and lease liabilities are held at amortised cost.

The maximum exposure to credit risk as at 25 April 2021 is the carrying value of each closs of asset in the Balance Sheet, except for amounts owed from related parties which is the gross carrying amount of £65.2m.

## Derivatives: Foreign Currency Forward Contracts

#### HEDGINO

is permitted. or loss is recognised immediately in the income contracts are therefore not viewed as one contract and hedge accounting for the forwards there is a substantive distinct business purpose accounted for as such and accordingly any gain do not qualify for hedge accounting they are by using forward fixed rate currency purchase forward contracts. The forward and options managing the options independently of the for entering into the options and a strategy for statement. Management are of the view that including both forwards and written options, for trading purposes, however it derivatives, hold or issue derivative financial instruments currency cash flows. The Group does not contracts, taking into account any foreign associated with foreign currency spot rates policy is to reduce substantially the risk Dollar and online sales in Euros. The Group's made in foreign currencies, principally the US exchange fluctuations relates to purchases The most significant exposure to foreign

Hedge effectiveness is determined at inception of the hedge relationship and at every reporting period end through the assessment of the hedged items and hedging instrument to determine whether there is still an economic relationship between the two.

The critical terms of the foreign currency forwards entered into exactly match the terms of the hedged item. As such the economic relationship and hedge effectiveness are based on the qualitative factors and the use of a hypothetical derivative where appropriate. Hedge ineffectiveness may arise where the critical terms of the forecast transaction no longer meet those of the hedging instrument, for example if there was a change in the timing of the forecast sales transactions from what was initially estimated or if the volume of currency in the hedged item was below expectations leading to over-hedging. Differences can arise when the initial value on the Hedging instrument is not zero.

The hedged items and the hedging instrument are denominated in the same currency and as a result the hedging ratio is always one to one.

All derivative financial instruments used for hedge accounting are recognised initially at fair value and reported subsequently at fair value in the statement of financial position. To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognised in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognised immediately in profit or loss.

At the time the hedged item offects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income. If a forecast transaction is no longer expected to occur, any related gain or loss recognised in other comprehensive income is transferred immediately to profit or loss. If the hedging relationship ceases to meet the effectiveness conditions then hedge accounting is discontinued and the related gain or loss is held in the equity reserve until the forecast transaction occurs.

The fair value of hedged contracts as at 25 April 2021 was:

April 2021	26 April 2020
(E.S.)	(E
24	
23	171
307	415
15.4	\$1.6

Hedging Reserve	Defensed Tex:	Total Medge movement	USD/EUR Totof Hedge	AUD/GBP	EUR/GRP	USD/G#P	

(ji) The sterling principal amounts of unhedged forward contracts and written currency option contracts and contracted rates were as follows:

	25 April 2021	26 April 2020
	(m3)	(cm)
US Dollar purchases	40.3	
Contracted rules USD / EUR	130	
Eurosales	(3838)	(630:0)
Contracted rates FUR / GBP	940	099 - 109
Euro purchases		172.0
Contracted rates EUR / GBP		116

The loss on fair value of the written options and swaps of E4.6m has been included within finance income (FY20: gain E21.3m).

At 25 April 2021, Enil of unhedged purchase contracts had a maturity at inception of greater than 12 months (FY20: Enil purchase contracts) and E335.4m of unhedged sales had a maturity at inception of greater than 12 months (FY20: E240.0m of sales contracts).

These contracts form part of the Treasury management activities, which incorporates the risk management strategy for areas that are not reliable enough in timing and amount to quality for hedge accounting. This includes acquisitions, disposals of overseas subsidiaries, related working capital requirements, dividends and loan repayments from overseas subsidiaries and purchase and sale of overseas property. Written options carry additional risk as the exercise of the option lies with the purchaser. The options involve the Group receiving a premium on inception in exchange for accepting that risk and the outcome is that the bank may require the Group to sell Euros. However, the Group is satisfied that the use of options as a Treasury management tool is appropriate.

In FY21 there are nil short term swaps at period end. FY20 value excludes short term swaps of USD/GBP of USD 190.0m and EUR/GBP of EUR 75.0 and EUR/USD of EUR 80.0m which were required for cash management purposes only.

#### Sensitivity Analysis

The Group's principal foreign currency exposures are to US Dollars and Euros. The table below illustrates the hypothetical sensitivity of the Group's reported profit and equity to a 10% increase and decrease in the US Dollar / Sterling and Euro / Sterling exchange rates at the year-end date, assuming all other variables remain unchanged. The figures have been calculated by comparing the fair values of outstanding foreign currency contracts at the current exchange rate to those if exchange rates moved as illustrated. The income statement figures include the profit effect of any relevant derivatives which are not in a designated cash flow hedge. The impact on US Dollar and Euro related hedging instruments is included in equity.

Positive figures represent an increase in profit or equity:

	Income	Membana statement	Manha	7
	25 April 2021	26 April 2020	25 April 3021	26 April 2020
	(Lm)	E)	Ē	ŝ
Sterling strengthens by 10%				
US Dollar •	81	14.6	(17-4)	13.4
Euro	234	151	109	371
Sterling weakens by 10%				
US Dollar	(9.9)	[34 0)	21.3	116.4)
Euro	[908]	(13 4)	(13.4)	[45.4]

## Interest Rate Sensitivity Analysis

The following table illustrates the sensitivity of the Group's reported profit and equity to a 0.5% increase or decrease in interest rates, assuming all other variables were unchanged.

The analysis has been prepared using the following assumptions:

- For floating rate assets and liabilities, the arrount of asset or liability outstanding at the balance sheet date is assumed to have been outstanding for the whole year.
- Fixed rate financial instruments that are carr ed at amortised cost are not subject to interest rate risk for the purpose of this analysis.

Positive figures represent an increase in profit or equity:

	income Statemen	tutement.	lquit)	7
	25 April 2021	36 April 2020	25 April 2021	26 April 2030
	1	(E.m.)	ICM)	IEM)
Interest rate increase of 0.5%	(0 0)	(4 1)	(3 0)	(41)
Interest rate decrease of 0.5%	3.0	4.1	3.0	41

## Long-term investments Sensitivity Analysis

The following table illustrates the sensitivity of price risk in relation to long term investments held by the Group:

Share price decrease of 10% [25.8]
Share price increase of 10%.
[£m]
25 April 2021 Equity

Key management personnel are considered to be the directors and members of management who play a key part in the long term strategy and aperations of the Group.

MM Prop Consultancy Limited, a company owned and controlled by Michael Murray, who is a member of key management personnel as per IAS 24, continues to provide property consultancy services to the Group. MM Prop Consultancy Limited is primarily tasked with finding and negotiating the acquisition of new sites in the UK, Europe and Rest of the World for both our larger format stores and our combined retail and gym units but it also provides advice to the Company's in-house property team in relation to existing sites in the UK, Europe and Rest of the World.

In the year all properties are assessed and those that are considered by the Group's independent non-executive directors to have completed development and be eligible for required valued by an independent valuer who confirms the value created by MM Prop Consultancy Limited. The Group's independent value that non-executive directors then review and agree the value created and have full discretion to approve a payment to MM Prop Consultancy Limited of up to 25% of the value created. There is a current alpeline of properties that may be eligible to be assessed both positively and negatively by the Group's Non-executive directors in further sears.

In the current year £2.5m has been accrued based on 18% of the value created on two properties where the gain has crystallised through contract exchange or completion of sale (FY20 - £nil provided and £nil poid, MM Prop Consultancy Limited was last paid in relation to FY19). This is poyable to MM Prop Consultancy Limited and agreed by the independent Non-Executive Directors.

During the period the Group entered into an agreement with M.P.M Elevation Limited, a company owned and controlled by Michael Murray in relation to elevation strategy services. M.P.M Elevation Limited will be paid an annual fee of £0.1m in election to the provision of the elevation strategy services (FY20: £nil).

귱

# 35. ULTIMATE CONTROLLING PARTY

The Group is controlled by Mike Ashley through his 100% shareholding in Mash Beta Limited and Mash Holdings Limited, which own 303,507,460 (58,44% of the issued ordinary share capital of the Company) and 26,492,540 (5,10% of the issued ordinary share capital of the Company, ordinary shares respectively at the period end. MASH Holdings Limited is the smallest and largest company to consolidate these accounts. MASH Holdings Limited is registered in England and Wales and a copy of their financial statements can be obtained from Companies House, Crown Way, Cardiff, CF14 3UZ.

# 6. POST BALANCE SHEET EVENTS

On 4 May 2021 the Group commenced a share buyback programme with the aggregate purchase price of all shares acquired under the programme to be no greater than £60m and the maximum number of shares to be purchased of 10m ordinary shares with a nominal value of 10p each. The purpose of the programme was to reduce the share capital of the Company. 3,895,835 ordinary shares of 10p each for consideration of £22,459,985 were acquired through this programme.

On 21 June 2021 the Group commenced an irrevocable non-discretionary share buyback programme to purchase the Group's shares during the closed period which commenced 21 June 2021 and ends on the day of reporting full year FY21 results. The aggregate purchase price of all shares acquired under the programme were no greater than £60m and the maximum number of shares to be purchased were 10m ordinary shares with a nominal value of 10p each. The purpose of the programme was to reduce the share capital of the Company, in tota to date 2,024,127 ordinary shares of 10p each for consideration of £11,937,385 have been acquired through this programme.

The Board is now in discussions with regards to transitioning the CEO rale from Mike Ashley to Michael Murray over the course of FY22. It is currently proposed that Michael Murray will assume the role of CEO on 1 May 2022. A reward and remuneration package is now under consideration on the assumption Michael Murray will assume the CEO role. Any reward and remuneration package will be subject to any requisite shareholder approval.

The Group's elevation strategy is transforming the business and receiving positive feedback from consumers and our brand partners, especially on projects such as the new Oxford Street Sports Direct which opened in June 2021.

The Board consider it appropriate that Michael leads us forward on this increasingly successful elevation journey.

Should Michael Murray assume the CEO role, Mike Ashley would step down from the CEO role at the same time but would remain on the Board as an executive director.

Tetal	Profit & Loss Account	Share based payment	Own share reserve	Capital redemption receive	copital re	Treatury share reserve	Share premium account	Called up share capital	

The share premium account is used to record the excess proceeds over nominal value on the issue of shares. The permanent contribution to capital relates to a cash payment of £50,000 to the Company on 8 February 2007 under a deed of capital contribution. The capital redemption reserve arose on the redemption of the Company's redeemable preference shares of 10p each at par on 2 March 2007. The own shares and treasury reserves represent the cost of shares in Frasers Group plc purchased in the market and held by Frasers Group plc Employee Benefit Trust to satisfy options under the Group's Share Scheme. For further information see note 25 in the Group Notes to the financial statements.

# NOTES TO THE COMPANY FINANCIAL STATEMENTS

For the 52 weeks ended 25 April 2021

### Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company, with the exception of those accounted for via merger relief available under Section 612 of the Companies Act 2006, are recorded at the proceeds received, net of any direct issue costs.

### Income From Group Undertakings

Income from Group undertakings is recognised when qualifying consideration is received from the Group undertaking.

### Related Party Transactions

The Company has taken advantage of the exemption contained in FRS 102 and has therefore not disclosed transactions or balances with wholly-owned subsidiaries which form part of the Group. See note 34 of the Group Financial Statements for further details of related party transactions.

### Share-Based Payments

The Company issues from time to time equity-settled share-based payments to certain Directors and employees of the Company and its subsidiaries. These are measured at fair value at the date of grant, which is expensed to profit and loss on a straight-line basis over the vesting period, with the corresponding credit going to equity.

Non-market vesting conditions are not taken into account in determining grant date fair value. Instead, they are taken into account by adjusting the number of equity instruments to vest. At the end of each reporting period the Company revises its estimates of the number of opt ons that are expected to vest based on the non market vesting and service conditions. Any revisions, if any, are recognised in profit and loss with an adjustment to equity.

Fair value is calculated using an adjusted form of the Black-Scholes model which includes a Monte Carlo simulation model that takes into account the exercise price, the term of the option, the impact of dilution (where material), the share

price at grant date and the expected price volatility of the underlying share, the expected dividend yield, and the risk-free interest rate for the term of the scheme. The expected staff numbers used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations.

For cash-settled share-based payment transactions, the Company measures the services transactions, the Company measures the fair received and the liability incurred at the fair value of the liability. Until the liability is settled, the Company remeasures the fair value of the liability at the end of each reporting period and lat the date of settlement, with any changes in fair value recognised in the Income Statement for the period.

The credit for the share based payment charge does not equal the charge per the profit and lass as it excludes amounts recognised in the balance sheet in relation to the expected national insurance contributions for the shares.

# **Critical Accounting Estimates And Judgements**

In the application of the Company's accounting polities, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods.

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are outlined below.

### Control and Significant Influence Over Certain Entities

The Company holds greater than 20% of the voting rights of Studio Retail Group pic and Mulberry Group plc. The Company exercises the same judgements as per Note 2 of the Group financial statements on assessing whether it has control and significant influence over associates and joint ventures.

### Impairment of Investments

At each period end management assess the future performance of entities with which the Company holds an investment in to ascertain the future economic value of its investments. Judgement is involved in the assessment of future performance and this involves an element of estimation uncertainty. As at the period end the directors have reviewed the carrying value of its investments and has made impairments as disclosed in Note 2 of the Company financial statements.

CALLED UP AND FULLY PAID		
640,602,369 (FY20, 640,602,369) ardinary share of 10p each	641	641
SHARE CAPITAL	64.3	£.3

The company holds 121,260,175 ordinary shares in treasury as at the period end date (FY20: 121,260,175).

# . POST BALANCE SHEET EVENTS

On 4 May 2021 the Group commenced a share burback programme with the aggregate purchase price of all shares acquired under the programme to be no greater than £60m and the maximum number of shares to be purchased of 10m ordinary shares with a nominal value of 10p each. The purposes of the programme was to reduce the share capital of the Company, 3,855,835 ordinary shares of 10p each for consideration of £72,429,985 were acquired through this programme.

On 21 June 2021 the Group commenced an irrevocable non-discretionary share buyback programme to purchase the Group's shares during the closed period which commenced 21 June 2021 and ends on the day of reporting full year FY21 results. The aggregate purchase price of all shares acquired under the programme were no greater than £60m and the maximum number of shares to be purchased were 10m ordinary shares with a nominal value of 10p each. The purpose of the programme was to reduce the share capital of the Company. In total to date 2,024,127 ordinary shares of 10p each for consideration of £11,937,385 have been acquired through this programme.

The Board is now in discussions with regards to transitioning the CEO role from Mike Ashley to Michael Murray over the course of FY22. It is currently proposed that Michael Murray will assume the role of CEO on 1 May 2022. A reward and remuneration package is now under consideration on the assumption Michael Murray will assume the CEO role. Any reward and remuneration package will be subject to any requisite shareholder approval.

The Group's elevation strategy is transforming the business and receiving positive feedback from consumers and our brand partners, especially on projects such as the new Oxford Street Sparts Direct which opened in June 2021

The Board consider it appropriate that Michael leads us forward on this increasingly successful elevation journey.

Should Michael Murray assume the CEO role, Mike Ashley would step down from the CEO role at the same time but would remain on the Board as an executive director.

### PAYROLL COSTS

Frosers Group pic has no direct employees, the Directors are remunerated through Sportsdirect. com Retail Limited. Details of the Directors' remuneration can be found in the Directors' Remuneration Report.

### 10. RELATED PARTY TRANSACTIONS

Related party transactions with the Company are disclosed within note 34 in the Group Financial Statements.
