Strategic Report **for the Year Ended 31 December 2022**

The director presents his strategic report for the year ended 31 December 2022.

14 Curzon Street 2 Limited's ("the Company") business activities together with the factors likely to affect its future development, performance and position are set out in the strategic report.

The director, in preparing this strategic report, has complied with s414C of the Companies Act 2006.

REVIEW OF BUSINESS

On 12 April 2023, Liberum Independent Medical Education Limited was sold to one of the directors of Liberum Independent Medical Education Limited for a consideration of \$287,500 (£150,000).

The director is not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

As shown on the Statement of Comprehensive Income on page 6, the Company's profit for the year before tax has increased from £8,217,007 to £13,882,747. This was due to an increase in the share of profits of Open Health Communications LLP. The retained earnings have increased from £19,228,573 to £30,244,217.

The Statement of Financial Position is shown on pages 7 and 8 of the Financial Statements.

**Strategic Report
for the Year Ended 31 December 2022**

PRINCIPAL RISKS AND UNCERTAINTIES

The director considers the principal risks and uncertainties facing the Company to be consistent with those reported within the consolidated Group financial statements of the parent undertaking, Engage PIKCo Limited. In addition to the general economic and competitive risks affecting the business, the director considers that the principal risks impacting the Company are credit risk and liquidity risk. The director does not consider interest rate risk to be a significant concern for the Company.

The policies for managing these risks are reviewed and agreed annually by Engage PIKCo Limited.

Credit risk

The Company's credit risk is primarily attributable to its trade debtors. The amounts presented in the Statement of Financial Position are net of allowances for doubtful debts. A provision for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows. The credit worthiness of customers is assessed and monitored on an on-going basis. If necessary, credit insurance or payments in advance are sought. Debtors are reviewed regularly as part of financial management reviews. Where deemed necessary, finance managers will review any proposal for further commitments to a client where payments are outstanding.

Liquidity risk

The Group operates under banking facilities whereby Engage PIKCo Limited and Engage DebtCo Limited, a wholly owned subsidiary of Engage PIKCo Limited, are UK borrowers. The Group benefits from revolver loan facilities of US\$32.0 million which is available until 13 July 2027 and committed facilities of £119.5 million and US\$131.6 million which mature in July 2029. Engage PIKCo Limited benefits from a PIK facility of £80.7 million. Engage DebtCo S.à.r.l., is a Luxembourg borrower and it benefits from committed facilities of US\$131.6 million until July 2029. All facilities are subject to banking covenants. The Groups parent company as well as other entities in the Group have given secured unlimited cross-guarantee in favour of its bankers. Cash flow movements are monitored to ensure that sufficient financial resources are available.

KEY PERFORMANCE INDICATORS

The Group manages its operations on a centralised basis. For this reason, the Company's director believes that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business.

Notes to the Financial Statements
for the Year Ended 31 December 2022

1. GOING CONCERN

The directors of Engage PIKCo Limited ("The Group"), of which the Company is a member, have prepared Group forecasts which indicate that the Company has adequate resources to continue in operational existence for the foreseeable future. In preparing these forecasts the directors have taken into account the following key factors:

- The rate of growth of the UK economy;
- The level of key client account activity and plans for the year;
- The level of committed and variable costs;
- New business targets compared to levels achieved in previous years; and
- Debt facilities available and required covenant compliance.

The Group has created detailed forecasts using an integrated income statement, balance sheet to produce a monthly cash flow, in order to understand the likely cash requirements of the business for the next 18 months. The directors of the Group have the ability to take mitigating actions if necessary, by potentially increasing the debt facility and/or reducing operating costs in line with any reductions to revenues experienced. After making enquiries, the directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

Preparation of consolidated financial statements

The financial statements contain information about 14 Curzon Street 2 Limited as an individual Company and do not contain consolidated financial information as the parent of a group. The Company is exempt under Section 400 of the Companies Act 2006 from the requirements to prepare consolidated financial statements as it and its subsidiary undertaking are included by full consolidation in the consolidated financial statements of its parent, Engage PIKCo Limited, c/o Corporation Service Company (UK) Limited, 5 Churchill Place, 10th Floor, London, E14 5HU, United Kingdom.

Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

Investments in subsidiaries

Investments in subsidiaries are accounted for at cost less, where appropriate, provisions for impairment.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Statement of Comprehensive Income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

**Notes to the Financial Statements - continued
for the Year Ended 31 December 2022**

3. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Impairment of tangible and intangible assets

At each balance sheet date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

An intangible asset with an indefinite useful life is tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Notes to the Financial Statements - continued
for the Year Ended 31 December 2022

3. ACCOUNTING POLICIES - continued

Financial instruments

Financial assets and financial liabilities are recognised on the Company's Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument.

Cash and cash equivalents

Cash comprises cash, overdrafts and cash held on short-term deposit (up to three months). The deposits guarantee the loan note creditors. Interest accruing on the deposits are payable to the holders of the loan notes less any costs arising.

Trade receivables

Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts.

Investments

Investments are recognised and derecognised on a trade date where a purchase or sale of an investment is under contract whose terms require the delivery of the investment within the timeframe established by the market concerned, and are initially measured at cost, including transaction costs.

Investments are classified either as available for sale, and are measured at subsequent reporting dates at fair value, or at amortised cost, where no fair value is readily determinable. Gains and losses on available for sale financial assets arising from changes in fair value are recognised directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognised in equity is included in the net profit or loss for the year.

Bank borrowings

Interest bearing bank loans and overdrafts are recorded at the fair value of proceeds received, net of direct issue costs.

Trade payables

Trade payables are not interest-bearing and are stated at their nominal value.
