The directors are satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

The members have not required the company to obtain an audit in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

The accounts have been prepared and delivered in accordance with the special provisions applicable to companies subject to the small companies regime. The profit and loss account has not been delivered to the Registrar of Companies.

Shaun Hoffman  
Director

**If You Believe Ltd**  
**Notes to the Accounts**  
**for the period from 7 June 2016 to 30 June 2017**

**1 Accounting policies**

**Turnover**

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

**Intangible fixed assets**

Intangible fixed assets are measured at cost less accumulative amortisation and any accumulative impairment losses.

**Debtors**

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

**Creditors**

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

**Taxation**

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods. A current tax asset is recognised in respect of a tax loss that can be carried back to recover tax paid in a previous period. Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.

<b>2 Intangible fixed assets</b>	<b>£</b>
Goodwill:	
<b>Cost</b>	
Additions	15,000

At 30 June 2017	15,000
<b>Amortisation</b>	
At 30 June 2017	-
<b>Net book value</b>	
At 30 June 2017	15,000

Goodwill is being written off in equal annual instalments over its estimated economic life of 5 years.

<b>3 Creditors: amounts falling due within one year</b>	<b>2017</b>
	<b>£</b>
Trade creditors	(8,330)
Other taxes and social security costs	42,265
Other creditors	2,143
	<u>36,078</u>

<b>4 Creditors: amounts falling due after one year</b>	<b>2017</b>
	<b>£</b>
