In the current year, the company has applied a number of amendments to IFRS and Interpretations issued by the IASB that are effective for an annual period that begins on or after 1 January 2019. Financial Instruments

Financial assets and liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

The Company's financial assets are classified as subsequently measured at amortised. Management determines the classification of its financial assets at initial recognition. The Company writes off a financial asset when there is information indicating that there is no realistic prospect of recovery.
