Business Choice Direct Insurance Services Limited Directors' report

For the period ended 31 December 2017

The directors present this report and the unaudited financial statements for the 17 months from incorporation to 31 December 2017 ("the period").

Business Choice Direct Insurance Services Limited ("the Company") is a limited company incorporated in England and Wales on 28 July 2016 and is a member of the Eldon Insurance Services Limited group ("the Group").

Principal activity

The Company's principal activity is the provision of commercial insurance services, mainly comercial and specialist motor insurance.

Business review

The profit for the year after taxation was £688,000. Dividends of £112,000 were paid in the period and dividends of £443,000 were declared after the period end.

Future outlook

The directors intend for the Company to continue its current operations

Directors

The directors who served during the period and to the date of signing the accounts were:

| E Bilney | (appointed 28 July 2016) |
|------------|--------------------------|
| D N Box | (appointed 28 July 2016) |
| S Eyles | (appointed 28 July 2016) |
| A Marshall | (appointed 28 July 2016) |

There were no changes to directors during the year.

Strategic report exemption

The directors have taken advantage of the small companies' exemption as defined under the Companies Act 2006 from the requirement to prepare a Strategic report.

Financial risk management objectives and policies

The Group parent company, Eldon Insurance Services Limited ("Eldon"), uses financial instruments such as cash, loans, debtors and creditors in order to raise finance for the Company's operations. The existence of these instruments exposes the Company to financial risks which are detailed below.

Liquidity / cash flow risk

The Group seeks to manage financial risk by ensuring sufficient liquidity is available to meet its foreseeable needs and to invest cash assets safely and profitably. The Group as a whole monitors cash flow using sophisticated forcasting techniques to ensure that all liabilities are met when due.

Interest risk

The Group monitors its banking facilities and compliance with related covenants as required. Group monies are also monitored to minimise interest charges on overdrafts and to ensure cash balances are used to offset overdrafts.

Credit risk

The principal credit risk for the Company arises from its debtors as part of its premium cash handling operations. In order to manage credit risk the directors have incorporated a range of credit control procedures to monitor debt levels and to ensure that any debts are collected as soon as reasonable possible.

Business Choice Direct Insurance Services Limited Directors' report (continued)

For the period ended 31 December 2017

Statement of directors' responsibilities

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice ("UK GAAP") (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the proft or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- Select suitable accounting policies and apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are resposible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

This report was approved by the Board and signed on its behalf by:

S Eyles

| As at 31 December 2017 | 500 | 576 | 1,076 |
| | | | |

The notes on pages 6 to 10 are an integral part of these financial statements.

For the period ended 31 December 2017

Accounting policies

1.1 Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of the Financial Reporting Standard 102 ("FRS 102 1A"), the Financial Reporting Standard applicable to smaller entities in the United Kingdom and the Republic of Ireland, and the Companies Act 2006.

1.2 Going concern basis

The directors have a reasonable expectation that the Company has adequate resources to continue operating for the foreseeable future. Accordingly, the going concern basis is used in preparing the financial statements.

1.3 Critical accounting estimates and judgements in applying accounting policies

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the Company's accounting policies; the directors do not consider there to be significant level of uncertainty in any estimate used in preparing these accounts.

There are no estimates and judgements that have a significant risk of causing material misstatement of the reported amounts of assets and liabilities or revenues and expenses.

1.4 Summary of disclosure exemptions

The Company has taken advantage of the reduced disclosures for subsidiary entities provided by FRS 102 and has therefore not provided a Statement of cash flows. The Company has also taken advantage of the exemption from disclosing key management personnel compensation.

1.5 Income recognition

Turnover arises in the UK and mainly comprises insurance broking income. Income is recognised by the Company in respect of insurance broking services supplied, exclusive of value added tax, insurance premium tax and trade discounts, based on the effective commencement or renewal date of the policy.

1.6 Intangible fixed assets

Intangible fixed assets are stated at cost less amortisation. Amortisation is provided on a straight line basis at rates calculated to expense the cost of each asset, less their estimated residual value, over the directors' estimate of their useful lives on the following basis:

- Business information and records

3 years

Goodwill

10 years

1.7 Financial instruments

The Company enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities.

Financial assets are initially recognised at transaction price, unless the arrangement constitutes a financing transaction; therefore the transaction is measured at the present value of the future receipts discounted at at market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method.

At the end of each reporting period, financial assets that are measured at cost and amortised cost are assessed for objective evidence of impairment. If evidence is found, an impairment loss is recognised in the income statement.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate, which is an approximation of the amount the the Company would receive for the asset if it were to be sold at the reporting date.

Business Choice Direct Insurance Services Limited Notes to the unaudited financial statements (continued)

For the period ended 31 December 2017

1.7 Financial instruments (continued)

Financial liabilities are initially recognised at transaction price, unless the arrangement constitutes a financing transaction; therefore the liability is measured at the present value of the future payments discounted at a market rate of interest.

Financial liabilities are derecognised when the contractual obligation is discharged, cancelled or expires.

Financial asset and liabilities are offset and the net amount reported in the Statement of financial position where there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

1.8 Taxation

Current tax which is payable or receivable on taxable profits or losses is recognised as an expense or credit in the period in which the profits or losses arise. The current income tax charge is calculated on the basis of the tax rates enacted or substantially enacted at the reporting date.

1.9 Creditors

Short term creditors are measured at the transaction price.

1.10 Shares

Ordinary shares and non-redeemable preference shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

1.11 Dividends

Equity dividends are recognised when they become legally payable.

2. Turnover

All income arises in the UK from insurance broking activities.

3. Operating profit

Operating profit is stated after charging:

| £'000 |
|-------|
| |
| 221 |
| 76 |
| |
| |
| 2017 |
| £,000 |
| 2,489 |
| 235 |
| 16 |
| 2,740 |
| |

The average number of employees for the reporting period was 69.
