**3 Accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below and have been consistently applied within the same accounts.

***Basis of preparation***

The accounts have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets.

***Presentation currency***

The accounts are presented in £ sterling.

***Turnover***

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. Turnover from the sale of goods is recognised when goods have been delivered to customers such that risks and rewards of ownership have transferred to them. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

***Inventories***

Inventories have been valued at the lower of cost and estimated selling price less costs to complete and sell. In respect of work in progress and finished goods, cost includes a relevant proportion of overheads according to the stage of manufacturing/completion.

***Deferred taxation***

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws.

Deferred tax assets and liabilities are not discounted.

***Foreign exchange***

Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rates of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.
