Notes to the Financial Statements

Year ended 31 August 2022

1 GENERAL INFORMATION

The company is a private company limited by shares and is registered in England and Wales. The address of the registered office is Berkeley Coach House Woods Hill, Limpley Stoke, Bath, Hants, BA2 7FS, England.

2 STATEMENT OF COMPLIANCE

These financial statements have been prepared in compliance with FRS 102 Section 1A, 'The Financial Reporting Standard applicable to the UK and Republic of Ireland'.

3 ACCOUNTING POLICIES

BASIS OF PREPARATION

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain assets.

The financial statements are prepared in sterling, which is the functional currency of the company.

GOING CONCERN

The company's operations generated a profit after tax and increase in net current assets and are expected to continue to do so. On this basis, the Directors have a reasonable expectation that the company has adequate resources to continue as an operational business for the foreseeable future. The financial statements have therefore been prepared on a going concern basis. In 2020 the company is confronted with the consequences of the novel strain of the Coronavirus disease ("COVID-19") as a pandemic. Although the consequences of the COVID-19 are uncertain in the long term, the company does not expect any material adverse effect on its financial condition or liquidity.

TURNOVER

Turnover is measured at the fair value of the consideration received or receivable for goods supplied, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer, usually on despatch of the goods; the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

CURRENT TAX

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

STOCKS

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

FINANCIAL INSTRUMENTS

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price and are subsequently measured as follows: Debt instruments are subsequently measured at amortised cost and commitments to receive a loan and to make a loan to another entity are subsequently measured at amortised cost. Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

All other financial instruments, including derivatives, are initially recognised at fair value, which is normally the transaction price and are subsequently measured at fair value, with any changes recognised in profit or loss.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

All equity instruments regardless of significance, and other financial assets that are individually significant, are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

4 AVERAGE NUMBER OF EMPLOYEES

The average number of persons employed by the company during the year was Nil (2021: Nil).

7 EVENTS AFTER THE END OF THE REPORTING PERIOD

On 11 March 2020, the World Health Organisation declared the novel strain of Coronavirus disease ("COVID-19") as a pandemic. The extent of COVID-19's effects on the company's operational and financial performance will depend on future developments, including the duration, spread and intensity of the pandemic. As a result of the uncertainty and difficulty to predict, adverse impact to the company's business may occur. Such potential impact is unknown at this time.

8 DIRECTOR'S ADVANCES, CREDIT AND GUARANTEES

No fixed date has been arranged for the full repayment of the directors loan.
