The directors are satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

The members have not required the company to obtain an audit in accordance with section 476 of the Act.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

The financial statements have been prepared and delivered in accordance with the special provisions applicable to companies subject to the small companies regime. The profit and loss account has not been delivered to the Registrar of Companies.

N Nikiforakis

Director

**Cambridge Multi - Physics Limited**  
**Notes to the financial statements**  
**for the year ended 30 April 2020**

**1 Accounting policies**

***Basis of preparation***

The financial statements have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

***Going Concern***

After reviewing the company's forecasts and projections, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company continues to adopt the going concern basis in preparing its financial statements.

***Debtors***

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

***Creditors***

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

***Taxation***

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods. A current tax asset is recognised in respect of a tax loss that can be carried back to recover tax paid in a previous period. Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.

## 6 Related party transactions

At the balance sheet date Cambridge Numerical Solutions Limited, a company controlled by the director Dr N Nikiforakis, is owed £37,731 (2019 - £37,731) for set up costs incurred in prior years. The directors are of the opinion that this amount will not be repaid within 12 months of the balance sheet date. The balance is included in other creditors due after one year in both the current and previous year.

The loan of £25,000 (2019 - £25,000) made to the company by Cambridge Numerical Solutions Limited, a company under the control of the director Dr N Nikiforakis, does not bear any interest and has no fixed date of repayment. The loan is included in creditors due after one year in both the current and previous year.

## 7 Controlling party

The company is controlled by the directors who currently hold 100% of the issued share capital of the company.
