Current tax represents the amount of tax payable or receivable in respect of the taxable profit (or loss) for the current or past reporting periods.

Consideration is given to whether deferred tax should be provided in respect of material timing differences which have not reversed at the balance sheet date. Deferred tax assets are only recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or future taxable profits.

Current tax assets and liabilities are not discounted and are recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.
