- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;

1. General information

The company is a private limited company and is incorporated and domiciled in England. The address of its registered office is 7A Howick Place, SW1P 1DZ, London.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland (FRS 102) and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

2.2 Going concern

The Directors have prepared the financial statements on the going concern basis, on the grounds that the company can meet its liabilities as they fall due. The directors feel that the company is well placed to manage its business risks successfully despite the current economic climate and the uncertainty resulting from the outbreak of Covid-19.

2.3 Financial instruments

The company only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors and loans to and from group undertakings.

Financial assets

Debtors – Debtors are recognised at the original transaction value and subsequently measured at amortised cost. A provision for impairment is established where there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables concerned.

Financial assets and liabilities are offset and the net amount reported in the Balance sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Not all of these accounting policies require management to make difficult, subjective or complex judgements or estimates. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may differ from those estimates. The management believes that there was no material judgement or estimation involved in the preparation of these financial statements.
