**INNOVATION HOLDCO LIMITED**  
**GROUP STRATEGIC REPORT**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

The directors present their strategic report on the group for the year ended 31 December 2022.

**Review of the business**

Innovation Holdco Limited own 80.4% (2021: 80.7%) of Sanolium Group Holding AB.

Sanolium Group Holding AB own 100% of the Cambio Group, a product and service group in the area of E-health. Cambio is one of the largest providers of medical records systems in the Nordic region with users at hospitals, health centres and specialist units. The vision consists of comprehensive IT support for the entire health care system and the group's products being sold mainly under the Cosmic brand.

There are also related business segments in the group. Cambio Viva provides IT support for municipalities' documentation regarding work processes and work flows in care and health care and medical treatment. Cambio CDS provides computerised support for clinical decisions that combines patient-specific data with regulations based on medical evidence to capture risk factors and provide the best possible care for the patient.

The Cambio Group's business model is mainly based on the sale of licences, maintenance and product-related consultancy services.

In order to deliver the highest possible customer value, a new organizational structure was introduced on 1 April 2022. A new product division was added, smaller business areas were consolidated in an incubator division and a rationalization of the technology division was carried out. The reorganization aims for a higher degree of scalability, transparency and efficiency.

The major ongoing implementation project regarding the so-called Sussa procurement has continued and intensified in 2022. The Group received this procurement at the end of 2018 when nine regions in collaboration procured a new care support. The project, one of the largest ongoing in Europe, requires both the development of new functionality and the adaptation of existing ones. In December, the first region approved the delivered technical functionality.

Major contracts in related business areas (incubators) received in 2022 were the sale of Cambio Viva to Umeå Municipality and Cambio MittVaccin to the Västra Götaland Region.

On 30 November 2022, the Group acquired Frisq AB, which is considered to constitute a strategic addition to the Group's product portfolio

**Future Developments**

The Sanolium group, with its ownership of Cambio, is in a strong position in the E-health market. The growth potential is considered to be extremely good both in Sweden and internationally.

**Section 172 (1) Statement**

The directors have acted in a way they consider, in good faith, promotes the success of the group for the benefit of its members as a whole, and in doing so have given regard to (amongst other matters):

**Business Relationships**

The group, Cambio, continually develops strategies to maintain and grow our client base and further improve relationships with our suppliers.

With respect to suppliers the group's policy for the payment of suppliers is to agree to terms of payment in advance in line with normal trade practices and, provided a supplier performs in accordance with the agreement, to abide by such terms.

## **INNOVATION HOLDCO LIMITED**

### **GROUP STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022**

#### **Our People**

The group is committed to being a responsible business. Our behaviour is aligned with the expectations of our people, customers, shareholders, communities, and society as a whole. People are at the heart of delivering quality services both internally and externally. For our business to continue to succeed we continually manage our people's performance and develop and bring through talent while ensuring we operate as efficiently as possible.

#### **Community, Charity and Environment**

The group has a strong commitment to the communities where we are located, to collaborate in the development of the territories close to all the group companies. In this respect, we strive to maintain a good long-term relationship with the people of each territory, and to be respectful of their rights, culture, and traditions.

In 2015, the 2030 universal agenda was adopted for how countries should work for sustainable development in the next decade. The group is committed to complying with regulations related in the regions or countries in which we operate.

#### **Culture and Values**

The group endeavours to maintain the highest levels of confidentiality and good business ethics at all times. We employ fair and honest methodologies and ensure that our staff are aware of and comply with all relevant legislation, statutory codes and internal quality systems.

#### **Shareholders**

The management is committed and openly engaged with our shareholders. The shareholders and their representatives are actively engaged in understanding our strategy, culture, people and the performance of our shared objectives for the short, medium and longer terms.

#### **Principal risk and uncertainties**

The group's operations expose it to a number of financial risks such as currency risk, interest risk, credit risk, cash flow risk and liquidity risk. The group endeavours to minimise potential adverse effects on the group's financial results.

The aim of the group's finance operations is to:

- ensure that the group is able to meet its payment obligations;
- manage financial risks;
- ensure access to finance as necessary; and
- optimise the group's net financial income.

The Board of Directors is ultimately responsible for the exposure, management and monitoring of the group's risks. The frameworks for financial risk management are established by the Board of Directors and are revised annually. The Board of Directors has delegated responsibility for day-to-day risk management to the CEO, who has in turn delegated it to the CFO. The Board of Directors is able to decide on temporary deviations from the established frameworks.

## INNOVATION HOLDCO LIMITED

### GROUP STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2022

#### Financial risk management policies

##### Currency risk

The group operates internationally and therefore is exposed to currency risks arising from various currency exposures. Currency risk arises from future transactions, in particular payment outflows, and assets and liabilities recognised in a currency other than the company's functional currency, known as transaction exposure. The group's exposure to currency risk consists primarily of the fact that transactions between subsidiaries take place in other currencies. The group does not use derivative instruments at present.

##### Credit risk

Credit risk applies to financial instruments such as trade receivables. Policies and procedures exist to ensure the management of trade receivables minimises as far as is reasonably practicable the group's exposure to credit risk.

##### Liquidity risk

The group monitors cash flow as part of its day-to-day control procedures.

##### Cashflow risk

The group's policy is to ensure that it always has sufficient cash to allow it to meet its liabilities when they become due. The risk is mitigated through budgeting and forecasts and a regular review of cash requirements.

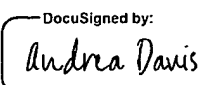

#### Key performance indicators

Gross margin is the main key financial performance indicator of the business. Gross margin was 92.4% (2021: 91.5%) which was in line with budgeted expectations.

#### Environment

Innovation Holdco Limited recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to mitigate any adverse impact that might be caused by its activities.

This report was approved by the board and signed on its behalf by:

DocuSigned by:  
  
0261B00A489B457...  
**A J Davis**  
Director

Date: 22 September 2023

**INNOVATION HOLDCO LIMITED**  
**DIRECTORS' REPORT**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

The directors present their report and the audited financial statements for the year ended 31 December 2022.

These results, together with the comparative results and information, have been determined and presented under IFRS as adopted by the United Kingdom.

**Strategic report note**

The review of the business, principal risks and uncertainties, financial risk management policies, future developments and key performance indications are not shown in the directors' report as they are shown in the strategic report in accordance with S414C (11) of the Companies Act 2006.

**Principal activity**

The group's principal activity is to produce and service E-health software.

**Results and dividends**

The consolidated profit for the year after taxation amounted to SEK 8,467,000 (2021: profit of SEK 12,944,000).

Dividends declared during the year totalled SEK Nil (2021: SEK Nil). The directors do not recommend the payment of a final dividend (2021: SEK Nil).

**Directors**

The directors of the company during the year and to the date of approval of these financial statements were:

R W Bostock (resigned 31 March 2023)  
J Heilmann (resigned 31 March 2023)  
A J Davis (appointed 30 March 2023)  
M Figgner (appointed 30 March 2023)

**Anti Slavery Act 2015**

The products and services delivered by the group are sourced from a broad range of both local and national suppliers. These supplier relationships are sourced and managed by the dedicated internal operational and management team of the group.

The group have defined policies on legislation, child labour, conditions of employment, wages and benefits, health and safety and the environment. These policies have recently been updated to include our policy on anti-slavery and zero tolerance of human trafficking.

The group undertake all reasonable and practical steps to ensure that standards are being implemented throughout Innovation's own operational and administrative business, along with that of our suppliers, in addition to local legislation and regulation compliance. Any instances of non-compliance will be assessed on a case by case basis with appropriate remedial action where required.

The group will only trade with those who fully comply with this policy or are taking verifiable steps towards full compliance. The statement is approved and will be reviewed on a timely basis by the full Board of Directors pursuant to section 54(1) of the modern Slavery Act.

**Going concern**

After making enquiries into future trading forecasts and cash requirements the directors have formed a judgement at the time of approving the financial statements that there is a reasonable expectation that the group has adequate resources to meet all obligations and continue in operational existence for the foreseeable future. For these reasons, the directors continue to adopt the going concern basis in preparing the directors report and financial statements.

**INNOVATION HOLDCO LIMITED**  
**DIRECTORS' REPORT (CONTINUED)**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**Directors' responsibilities**

The directors are responsible for preparing the strategic report, the directors' report and the consolidated financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and International Accounting Standards (ISAs) as adopted by the United Kingdom (UK) and have elected to prepare the parent company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standard and applicable laws including FRS 101 Reduced Disclosure Framework). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards for the company accounts and ISA's for the group accounts have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company and the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**Employee involvement**

Employees are involved on a regular basis in discussions related to their specific interests and staff are encouraged to take an active interest in all aspects of the group's performance. The group seeks to train and develop all staff to continually improve product knowledge and customer service.

**Disabled employees**

The group is committed to a policy of recruitment and promotion on the basis of aptitude and ability without discrimination of any kind. Particular attention is given to the training and promoting of disabled employees to ensure that their career development is not unfairly restricted by their disability, or perceptions of it.

The group's HR procedure makes it clear that full and fair consideration must be given to applications made by and the promotion of disabled persons. Where an employee becomes disabled whilst employed by the group, the HR procedure also requires that reasonable effort is made to ensure they have the opportunity for continued employment within the group. Retraining of employees who become disabled whilst employed by the group is offered where appropriate.

**Future developments**

Information on likely future development in the business have been included in the Strategic Report on page 1.

**INNOVATION HOLDCO LIMITED**  
**DIRECTORS' REPORT (CONTINUED)**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**Research and development**

The group invests in research and development activities appropriate to the size and nature of its operations with the aim of supporting the future development of the group.

**Post balance sheet events**

In March 2023, the Group received a new contract with Region Stockholm. The region acquires the Cosmic Birth system with the aim of streamlining maternal health care and offering quality care in this area.

During the first quarter of 2023, the Group received acceptance approvals from other Sussa customers regarding delivered technical functionality in ongoing implementation projects. Please see Review of the Business on page 1 for further details on Sussa.

**Streamlined Energy Carbon Reporting (SECR)**

The group is considered a low energy user given that the UK carbon usage is below the de minimis threshold of 40,000 Kwh and as such, is exempt from reporting under the SECR regulations.

**Directors' indemnities**

The group has granted the directors with qualifying third-party indemnity provisions within the meaning given to the term by sections 234 and 235 of the Companies Act 2006. This is in respect of liabilities to which they may become liable in their capacity as director of the company and of any company within the group. Such indemnities were in force throughout the financial year and will remain in force.

**Disclosure of information to auditor**

Each of the persons who are directors at the time when this directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This report was approved by the board and signed on its behalf by:

## **INNOVATION HOLDCO LIMITED**

### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INNOVATION HOLDCO LIMITED**

#### **Opinion**

We have audited the financial statements of Innovation Holdco Limited ("the parent company") and its subsidiaries ("the group") for the year ended 31 December 2022, which comprise the Consolidated Statement of Comprehensive Income, the Consolidated and Company Statements of Financial Position, the Consolidated and Company Statements of Changes in Equity, the Consolidated Statement of Cash Flows, the Consolidated Statement of Net Debt and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 Reduced Disclosure Framework (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2022 and of the group's profit for the year then ended;
- the group financial statements have been properly prepared in accordance with UK adopted international accounting standards;
- the parent Company financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Material uncertainty related to going concern**

We draw attention to note 1.4 in the financial statements, which indicates that bond loans of SEK 798,878,000 mature during September 2024, and alternative finance has not yet been secured. As stated in note 1.4 these events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

## INNOVATION HOLDCO LIMITED

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INNOVATION HOLDCO LIMITED (CONTINUED)

#### Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

#### Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

#### Responsibilities of directors

As explained more fully in the directors' responsibilities statement on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations or have no realistic alternative but to do so.

## **INNOVATION HOLDCO LIMITED**

### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INNOVATION HOLDCO LIMITED (CONTINUED)**

#### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

Our assessment focused on key laws and regulations the company has to comply with and areas of the financial statements we assessed as being more susceptible to misstatement. These key laws and regulations included but were not limited to compliance with the Companies Act 2006, International Accounting Standards (ISAs) as adopted by the United Kingdom in respect of the consolidated financial statements, United Kingdom Generally Accounting Practice (UK GAAP) in respect of the parent company financial statements and relevant tax legislation.

We are not responsible for preventing irregularities. Our approach to detecting irregularities included, but was not limited to, the following;

- the senior statutory auditor ensured that the engagement team collectively had the appropriate competence, capabilities and skills to identify or recognise non-compliance with applicable laws and regulations;
- designing our audit procedures to respond to our risk assessment;
- obtaining an understanding of the legal and regulatory framework applicable to the entity and how the entity is complying with that framework;
- obtaining an understanding of the entity's policies and procedures and how the entity has complied with these, through discussions and sample testing of controls;
- obtaining an understanding of the entity's risk assessment process, including the risk of fraud;
- performed analytical procedures to identify any unusual or unexpected transactions;
- performed review of component auditor's work;
- assessed whether judgements and assumptions made in determining the accounting estimates set out in note 2 were indicative of potential bias: and
- performing audit testing over the risk of management override of controls, including testing of journal entries and other adjustments for appropriateness, evaluating the business rationale of significant transactions outside the normal course of business and reviewing for bias, including the valuation of goodwill.

Whilst considering how our audit work addressed the detection of irregularities, we also consider the likelihood of detection based on our approach. Irregularities arising from fraud are inherently more difficult to detect than those arising from error.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditors' report.

**INNOVATION HOLDCO LIMITED**

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF INNOVATION HOLDCO LIMITED  
(CONTINUED)**

**Use of our report**

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

**INNOVATION HOLDCO LIMITED****NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022****1. Accounting policies****1.1 General information**

Innovation Holdco Limited is a private company limited by shares that is incorporated, domiciled, and registered in England and Wales. The address of its registered office is shown on the company information page and the principal place of business is shown in note 13. The principal activity of the group is to produce and service E-health software.

**1.2 Basis of preparation of financial statements**

The financial statements have been prepared in accordance with International Accounting Standards (ISAs) as adopted by the United Kingdom and as issued by the International Accounting Standards Board (IASB), and the Companies Act 2006. The financial reporting framework that has been applied in the preparation of the parent company financial statements is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 Reduced Disclosure Framework (United Kingdom Generally Accepted Accounting Practice). The consolidated accounts have been prepared under the historical cost convention. The consolidated financial statements have been prepared and approved by the directors in accordance with UK adopted international accounting standards.

The financial statements are prepared in Swedish Krona (SEK) which is also the group's functional currency. Amounts are rounded to the nearest thousand, unless otherwise stated. The financial statements are for the year ended 31 December 2022 (2021: year ended 31 December 2021).

The preparation of financial statements in compliance with UK adopted international accounting standards requires the use of certain critical accounting estimates. It also requires group management to exercise its judgement in applying the group's accounting policies. The areas where significant judgement and estimates have been made in preparing the financial statements and their effect are disclosed in note 2.

The principal accounting policies adopted in the presentation of the consolidated financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated:

**1.3 Basis of consolidation**

The consolidated financial statements incorporate the results of Innovation Holdco Limited and all of its subsidiary undertakings. The acquisition method of accounting was used to consolidate all subsidiary companies. Results of subsidiaries acquired or disposed of during a period are included in the consolidation from the date of acquisition or up to the date of disposal.

The acquisition method is used for recognition of the group's business combinations. The purchase sum for the acquisition of a subsidiary consists of the fair value of assets and liabilities transferred. The purchase sum also includes the fair value of all assets or liabilities resulting from an agreement on a conditional purchase sum. Identifiable assets acquired and liabilities assumed in a business combination are initially measured at fair value at the acquisition date. Acquisition-related costs are recognised as an expense when they arise.

Intra group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

The parent company has taken the exemption of S.408 of the Companies Act 2006 not to present its individual Statement of Comprehensive Income and related notes that form part of the financial statements.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. Accounting policies (continued)**

**1.4 Going concern**

The group reported a total comprehensive profit for the financial year of SEK 8,467,000 (2021: profit of SEK 13,200,000). At the Balance Sheet date, the group had strong net assets and a significant cash balance of SEK 497,340,000 (2021: SEK 415,206,000).

Cambio provides business critical software which is used by healthcare professionals on a daily basis. The group has continued to trade well post year end.

The directors have prepared forecasts and concluded that the group will continue to trade for a period of at least 12 months from the date of signing these financial statements within the existing funding facilities. However, bond loans of SEK 798,878,000 mature during September 2024, and alternative finance has not yet been secured, although the directors believe this level of funding will continue to be available to the group. These conditions indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern.

**1.5 Revenue**

Under IFRS 15, revenue is recognised when the customer obtains control over the goods or services sold and is thus able to use the goods or services and obtain the benefit. The group's revenues consist of licensing revenues, maintenance, consulting revenues and other revenues.

**Licensing revenues**

The group recognises licensing revenues from the sale of standard licenses when written agreements have been signed by the customer and when delivery has taken place. The group also recognises revenues relating to strategic development projects within the revenue category of licensing revenues. These usually begin with a feasibility study and the revenue is recognised when that study has been completed. When the feasibility study has led to a development project, the revenue is recognised at the rate of performance of the assignment.

**Maintenance**

Revenue from maintenance contracts is invoiced annually in advance. The revenue is recognised on a straight-line basis over the contract period since the customer receives the benefits on an ongoing basis.

**Consultancy revenue**

Many of the group's service assignments are carried out on an open account and the consultancy revenues are recognised as the customer receives the benefit of the service.

**Other revenues**

Other revenues consist of selling-on costs such as consultancy fees, travel expenses and third-party products.

**1.6 Property, plant and equipment**

Property, plant and equipment is measured at purchase cost, less accumulated depreciation and any impairment losses. Cost includes all expenses directly incurred to make an asset ready for its intended use, as well as any dismantling and removal costs that will be incurred as a consequence of contractual obligations to restore the asset to its original condition.

Costs incurred for ordinary or scheduled maintenance and repairs are charged directly to the Statement of Comprehensive income as incurred. Costs incurred for expanding, upgrading or improving freehold or leasehold structures are capitalised to the extent that they qualify for separate classification as assets or part of an asset.

## INNOVATION HOLDCO LIMITED

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022**1. Accounting policies** *(continued)***1.6 Property, plant and equipment** *(continued)*

Depreciation is charged on a straight-line basis at rates that make it possible to depreciate the assets in full over their useful lives.

Depreciation on assets in order to allocate their historical cost down to the estimated residual value over the estimated useful life is carried out on a straight-line basis as follows:

	Depreciation rate
Land and buildings	20 & 50 years
Equipment	3 - 5 years

The useful lives and net book values of items of property, plant and equipment are reviewed and adjusted, where necessary, at the time of the preparation of the financial statements.

**1.7 Leases**

The group's leases mainly relate to essential office premises and equipment, company cars and rental of a test environment. Lease terms are negotiated on a biannual basis and contain a wide range of different terms and conditions.

The leases are recognised as right-of-use assets and a corresponding liability on the date on which the leased asset is available for use by the group (note 11). Each lease payment is distributed between repayment of the debt and financial expense. The financial expense must be distributed over the leasing period so that an amount corresponding to a fixed interest rate on the liability recognised during each period is attributed to each accounting period.

Right-of-use assets are made subject to depreciation on a straight-line basis over the useful life of the asset or the length of the lease, whichever is the shorter. The leases run for a fixed period of 1-3 years, though an option to extend or terminate the contract exists.

Assets and liabilities arising from leases are initially recognised at present value. Lease liabilities are measured at the present value of the contractual payments due to the lessor over the lease term, with the discount rate determined by reference to the rate inherent in the lease unless (as is typically the case) this is not readily determinable, in which case the group's incremental borrowing rate on commencement of the lease is used. Variable lease payments are only included in the measurement of the lease liability if they depend on an index or rate. In such cases, the initial measurement of the lease liability assumes the variable element will remain unchanged throughout the lease term. Other variable lease payments are expensed in the period to which they relate.

Lease payments are discounted at the marginal interest rate on loans.

The assets with a right of use are measured at historical cost and include the initial measurement of the lease liability, any payments made at or before the time when the leased asset is made available to the lessee less any incentives received, any initial direct costs and restoration costs.

Lease fees attributable to short-term leases and leases for which the underlying asset is of low value are recognised as an expense on a straight-line basis over the lease period. Short-term leases are contracts with a lease period of 12 months or less. Leases for which the underlying asset is of low value relate essentially to office equipment.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. Accounting policies (continued)**

**1.8 Intangible assets**

**Research and development**

The group develops and offers health care information systems including related services. All expenses that are directly related to the development and testing of identifiable and unique products controlled by the group are recognised as intangible assets when the following criteria have been met:

- it is technically possible to complete the product or process so it can be used;
- the group's intention is to complete the product and use or sell it;
- the conditions for using or selling the product exist;
- the way in which the product is likely to generate future economic benefits can be demonstrated;
- adequate technical, financial and other resources to complete the development and to use or sell the product are available; and
- the expenses associated with the product during its development can be reliably calculated.

Research expenditure is expensed when it is incurred. Development costs that were expensed in previous financial years are not recognised as an asset in subsequent financial years. Retained development costs are recognised as intangible assets and are made subject to depreciation from the moment when the asset is ready for use. The useful life amounts to 5 years.

**Goodwill**

Goodwill arises upon acquisition of a subsidiary. It refers to the amount by which the purchase sum, any non-controlling interest in the acquired company and the fair value at the date of acquisition of previous equity interests in the acquired company exceed the fair value of identifiable acquired net assets. In order to test impairment requirements, the goodwill that was acquired is allocated to cash-generating units that are expected to benefit from synergies from the acquisition.

Each unit to which the goodwill has been allocated corresponds to the lowest level in the group at which the goodwill in question is monitored in internal controls. Goodwill is currently monitored in the group as a whole since the group is considered to constitute one cash-generating unit/one segment.

Goodwill is tested for impairment annually or more frequently if events or changes in conditions indicate a possible reduction in value. The carrying amount of the cash-generating unit to which goodwill is attributed (the group as a whole) is compared to the recoverable amount, which is the value in use or the fair value minus selling costs, whichever is the higher. Any impairment is recognised immediately as an expense and is not reversed.

The types of assets identified by the group in connection with acquisitions in the financial year are customer relationships, trademarks and technology. Trademarks are considered to have infinite useful lives and are tested annually for impairment.

**Trademarks, technology and customer contracts**

Separately acquired trademarks and technologies are shown at historical cost. Trademarks, technology and customer contracts acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at a cost less accumulated amortisation and impairment losses.

**1.9 Impairment of property, plant and equipment, intangible assets and goodwill**

Assets that are subject to depreciation or amortisation are assessed at each reporting date to determine if there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets that have been previously impaired are reviewed at each reporting date to assess whether there is any indication that impairment losses recognised in prior years may no longer exist or may have decreased.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. Accounting policies (continued)**

**1.10 Investment in subsidiaries**

Investments in subsidiaries are initially valued at cost and reviewed annually for signs of impairment. If an impairment loss is identified this is recognised immediately in the Consolidated Statement of Comprehensive Income and the value of the investment is reduced accordingly.

**1.11 Financial instruments**

The group's financial assets and liabilities consist of the following items: trade receivables, earned licencing revenue, other receivables, accrued revenues, cash and cash equivalents, bond loans, lease liabilities, trade payables, other liabilities and accrued expenses.

**Initial recognition**

Financial assets and financial liabilities are recognised when the group becomes a party to the contractual terms of the instrument. Purchase and sale of financial assets and liabilities is recognised on the business day, i.e. the date on which the group undertakes to purchase or sell the asset. At initial recognition, financial instruments are recognised at fair value plus transaction costs directly attributable to the acquisition or issue of financial assets or financial liabilities such as fees and commissions.

**Financial assets — classification and valuation**

The group classifies and values its financial assets in the category of amortised. The classification of investments in debt instruments depends on the group's business model for managing financial assets and the contractual terms for the assets' cash flows.

**Financial assets valued at amortised cost**

Assets held for the purpose of collecting contractual cash flows and where those cash flows consist of only principal and interest are valued at amortised cost. The carrying amount of these assets is adjusted according to any expected loan losses. The group's financial assets valued at amortised cost consist of the items of trade receivable, earned licencing revenue, other receivables, accrued revenues and cash and cash equivalents.

**Financial liabilities — classification and valuation**

After initial recognition, the group's financial liabilities are valued at amortised cost applying the effective interest method. Financial liabilities consist of bond loans, lease liabilities, trade payables, other liabilities and accrued costs.

**1.12 Trade receivables**

Trade receivables are amounts attributable to customers relating to sold services provided as part of ongoing business activities. Trade receivables are classified as current assets. Trade receivables are initially recognised at the transaction price. The group holds the accounts receivable for the purpose of collecting contractual cash flows. Thus, at subsequent accounting dates, trade receivables are valued at amortised cost applying the effective interest method.

**1.13 Cash and cash equivalents**

Cash and cash equivalents comprise cash and short-term bank deposits with an original maturity of three months or less, net of outstanding bank overdrafts. The carrying amount of these assets is approximately equal to their fair value. Cash and cash equivalents at the end of the reporting period as shown in the consolidated Statement of Cash Flows can be reconciled to the related items in the consolidated reporting position as shown above.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. Accounting policies (continued)**

**1.14 Borrowings**

The group's borrowings consist of bond loans. Borrowings are initially recognised at fair value, net of transaction costs. Borrowings are subsequently recognised at amortised cost and any difference between the amount received (net of transaction costs) and the repayment amount is recognised in the Statement of Comprehensive Income distributed over the period of the borrowing, applying the effective interest method.

**1.15 Trade payables**

Trade payables are financial instruments and relate to obligations to pay for goods and services acquired from suppliers in the ordinary course of business. Trade payables are classified as current liabilities if they fall due within one year.

**1.16 Employee benefits**

**Short-term payments to employees**

Liabilities for salaries and payments, including non-monetary benefits and paid absences, which are expected to be settled within 12 months from the end of the financial year are recognised as current liabilities at the undiscounted amount expected to be paid when the liabilities are settled. The liability is recognised as an obligation regarding payments to employees in the consolidated Statement of Financial Position.

**Pension obligations**

The group mainly has defined-contribution pension plans. A defined-contribution pension plan is a pension plan under which the company pays fixed contributions to a separate legal entity. The group has no legal or constructive obligation to pay further fees if this legal entity has insufficient assets to make all payments to employees associated with the employees' service during the current or previous periods. The contributions are recognised as personnel expenses in the Statement of Comprehensive Income when they fall due. There is also a pension obligation within the group in the form of endowment insurance. Premiums paid are recognised partly as a financial fixed asset and partly as a provision.

**1.17 Current and deferred taxes**

The income tax expense or credit for the period is the tax payable on the current period's taxable income, based on the applicable income tax rate for each jurisdiction, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**1. Accounting policies** (*continued*)

**1.17 Current and deferred taxes** (*continued*)

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

**1.18 Foreign currency transactions**

**Functional currency and presentation currency**

The various subsidiaries in the group have the local currency as their functional currency since that has been defined as the currency used in the primary economic environment in which each unit is mainly active. The consolidated financial statements are in Swedish Kronor (SEK), which is the parent company's functional currency and the group's presentation currency.

**Transactions and Statement of Financial Position items**

Transactions in foreign currencies are translated to the functional currency at the exchange rates in force on the transaction date. Exchange gains and losses resulting from the payment of such transactions and from the translation of monetary assets and liabilities in foreign currencies at the exchange rate on the Statement of Financial Position date are reported in the operating profit/loss and in the Statement of Comprehensive Income.

**Translation of foreign group companies**

The results and financial position of all group companies that have a functional currency other than the presentation currency are translated to the group's presentation currency. Assets and liabilities for each of the Statement of Financial Positions are translated from the functional currency of the foreign business to the group's presentation currency at the Statement of Financial Position date. Revenues and expenses for each of the Statement of Comprehensive Incomes are translated to Swedish Kronor at the average rate applying at the moment of each transaction. Exchange differences arising on currency conversion of foreign businesses are recognised in Other Comprehensive Income and are carried forward to reserves in equity.

**1.19 Non-controlling interests**

Non-controlling interests in subsidiaries are identified separately from the Group's equity. Non-controlling interests are initially measured at fair value. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity.

Profit or loss and each component of other comprehensive income are attributed to the owners of the company and to the non-controlling interests. Total comprehensive income of the subsidiaries is attributed to the owners of the company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

## INNOVATION HOLDCO LIMITED

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

#### 1.20 IFRS Accounting standards, amendments and interpretations not yet applicable and adopted

The IASB published the following amendments to standards effective from 1 January 2022. All amendments have been reflected within the accounts for the year and there has been no significant impact on the group financial statements:

- IAS 16 – Property, Plant and Equipment
- IAS 37 – Provisions, Contingent Liabilities and Contingent Assets
- IFRS 3 – Business Combinations

At the date of these consolidated financial statements, there are no standards, amendments to standards or interpretations of standards applicable to the group, which have been issued but were not yet effective, which are expected to have significant impact on the group.

#### 2. Key judgements in applying accounting policies and key sources of estimation uncertainty

The group makes estimates and assumptions concerning the future. The directors are also required to exercise judgement in the process of applying group's accounting policies. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

##### Key judgements

###### Goodwill

The group reviews the need for impairment of goodwill on a yearly basis, in accordance with the accounting principle described in note 1.8. Replacement values for cash generating units are determined by calculating useful value which requires some assumptions. The calculation is based on cash flow-forecasts established by management for the coming five years. Cashflow beyond the five year period is extrapolated with a growth rate judged as reasonable given subsidiary specific data.

##### Key sources of estimation and uncertainty

Below is a list of the items that, with reference to the group, require greater subjectivity when making estimates and for which a change in the conditions underlying the assumptions used could have a significant impact on the group's financial results.

###### *Leasing*

When the length of a leasing contract is determined, all available information is regarded to decide whether there is an economic incentive to use an option to prolong the agreement or not. Leasing periods are reconsidered in accordance with new positions.

###### *Capitalisation of own work*

The group procures development of several systems to support in the operations of the business, the systems are reviewed in order to ensure the expense fulfils the requirements for capitalisation within the financial year. Distinguishing the research and development phase and determining whether requirements for the capitalisation of development costs are met and their subsequent amortisation requires judgement.

###### *Property, plant and equipment and intangible assets with finite lives*

Property, plant and equipment and intangible assets with finite lives are tested for impairment to determine if any indicators exist that the assets may have become impaired, and an impairment loss is recognised when indicators exist that difficulties may arise in recovering the net book value through use. Impairment testing requires management to exercise subjective judgement based on the information available within the group and from the market, as

**INNOVATION HOLDCO LIMITED**

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**2. Key judgements in applying accounting policies and key sources of estimation uncertainty (continued)**

well as past experience. Moreover, when a potential impairment is identified, the group determines it using valuation techniques considered appropriate. The correct identification of indicators of potential impairment and estimates made to determine the impairment amount depend on factors that may change over time, affecting the assessments and estimates made by management.

*Allowance for bad debts*

The allowance for bad debts reflects management's best estimate of the losses that will be incurred on trade receivables. The estimate is based on the losses expected by the group, determined based on past experience with similar receivables, current and past overdue accounts, careful monitoring of credit quality and projections about economic and market conditions.

*Provisions for risks and charges*

Provisions are posted for the risk of unfavourable outcome of legal and tax disputes. The values of provisions reflect management's best estimate at the reporting date. This estimate entails the adoption of assumptions that depend on factors that may change over time and which could therefore have significant effects compared with management's current estimates made in the preparation of the consolidated financial statements.

**3. Revenue**

The group revenue is split as follows:

*(amounts in thousands of SEK)*

	<b>2022</b>	<b>2021</b>
License sales	100,293	87,471
Maintenance fees	466,787	444,676
Consultancy revenues	203,293	184,970
Other	217,801	178,818
<b>Total</b>	<b>988,174</b>	<b>895,935</b>

Revenues are analysed by geographical area in the following table:

*(amounts in thousands of SEK)*

	<b>2022</b>	<b>2021</b>
Europe	971,928	874,893
United Kingdom	16,246	21,042
<b>Total</b>	<b>988,174</b>	<b>895,935</b>

Revenues are analysed by timing in the following table:

*(amounts in thousands of SEK)*

	<b>2022</b>	<b>2021</b>
At one point in time	303,586	451,259
Over time	466,787	444,676
<b>Total</b>	<b>770,373</b>	<b>895,935</b>

The Group's largest customers are a number of Sweden's regions. Region Östergötland and Region Uppsala account for 11% and 10% of net sales in 2022, respectively. Revenue recognised over time is invoiced in advance.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**4. Operating profit**

Operating profit/(loss) is stated after charging:

<i>(amounts in thousands of SEK)</i>	<b>2022</b>	<b>2021</b>
Amortisation charges	139,615	126,203
Depreciation charges	10,561	7,622
Depreciation of right-of-use assets	21,849	17,040
Foreign exchange	1,863	3,560
Loss on disposal of right-of-use assets	6,088	2,730
Loss on sale of intangible assets	-	524

**5. Independent auditor's fees**

<i>(amounts in thousands of SEK)</i>	<b>2022</b>	<b>2021</b>
Fees payable to the company's auditor for the audit of the company's annual accounts	486	415
Fees payable to the company's auditor for taxation compliance services	31	27
Fees payable to the subsidiaries' auditor for the audit of the subsidiaries' annual accounts	1,627	1,314
Other non-audit services payable to the subsidiaries' auditor	3,193	3,112
<b>Total</b>	<b>5,337</b>	<b>4,868</b>

**6. Employees**

Staff costs, excluding directors' remuneration, consists of:

<i>(amounts in thousands of SEK)</i>	<b>2022</b>	<b>2021</b>
Wages and salaries	334,740	342,116
Social security costs	90,998	84,203
Other pension costs	36,539	37,074
<b>Total</b>	<b>462,277</b>	<b>463,393</b>

The company incurred no staff costs and had no employees.

**Employee numbers**

The group's average headcount for the year ended 31 December 2022 is summarised as follows:

<b>Average headcount</b>	<b>2022</b>	<b>2021</b>
Administrative	41	27
Developers and support staff	707	743
<b>Total</b>	<b>748</b>	<b>770</b>

**INNOVATION HOLDCO LIMITED**

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**7. Remuneration of directors**

The directors of the company received SEK Nil remuneration during the year (2021: SEK Nil). Their role within the company is deemed to be incidental to their wider role within the group and therefore the company bears no cost in relation to these directors. The directors are also directors of other group companies within which their remuneration is paid.

Key management personnel include the directors of the parent company and directors of the subsidiary companies. They have the authority and responsibility for planning, directing and controlling the activities of the group. The total compensation paid to key management personnel for services provided to the group was SEK 23,393,000 (2021: SEK 29,840,000).

**8. Financial income and charges**

<i>(amounts in thousands of SEK)</i>	<b>2022</b>	<b>2021</b>
Interest income	9,194	853
Exchange rate differences	47,303	5,077
<b>Finance income</b>	<b>56,497</b>	<b>5,930</b>
Interest expenses	(40,190)	(25,214)
Exchange rate differences	(21,278)	(4,412)
Financing costs	(13,424)	(3,412)
<b>Finance charges</b>	<b>(74,892)</b>	<b>(33,038)</b>

**9. Income taxes**

*(amounts in thousands of SEK)*

	<b>2022</b>	<b>2021</b>
<b>Income taxes</b>		
Current tax	(87)	1,922
Deferred tax	(53)	4,954
<b>Total</b>	<b>(140)</b>	<b>6,876</b>
<b>Current tax</b>		
Current tax in profit for the financial year	-	4,774
Adjustment for previous years	(87)	(2,852)
<b>Total current tax</b>	<b>(87)</b>	<b>1,922</b>
<b>Deferred tax</b>		
Other deferred tax	(53)	4,954
<b>Total deferred tax</b>	<b>(53)</b>	<b>4,954</b>

## INNOVATION HOLDCO LIMITED

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022

## 9. Income taxes (continued)

The tax assessed for the year is different to the standard rate of corporation tax in the UK of 19% (2021: 19%). The differences are explained below:

(amounts in thousands of SEK)

Income taxes	2022	2021
Profit/(Loss) before taxation	8,327	19,820
Tax on Profit/(Loss) at standard rate of corporation tax of 19% (2021: 19%)	1,582	3,766
Effects of:		
Expenses not deductible for tax purposes	2,558	-
Deferred tax adjustments	-	(141)
Deferred tax not recognised	196	282
Impact of overseas tax rates	(4,563)	5,821
Adjustments in respect of prior periods	87	(2,852)
<b>Total</b>	<b>(140)</b>	<b>6,876</b>

The group's overseas tax rate is higher than those in the UK primarily because results earned in Sweden are taxed at a rate in excess of 20.6%.

## Factors affecting future tax charges

In May 2021, a change in the rate of corporation tax from 19% to 25% from 1 April 2023 was substantively enacted and a rate of 25% is accordingly applied to deferred taxation balances at 31 December 2022 and 2021.

## 10. Property, plant and equipment

(amounts in thousands of SEK)

	Land and Buildings	Equipment	Total
<b>Balance as of 01 January 2021</b>	<b>3,027</b>	<b>15,089</b>	<b>18,116</b>
Additions	-	12,288	12,288
Disposals	-	768	768

Due after more than one year	748,875	498,224
<b>Total</b>	<b>798,875</b>	<b>548,224</b>

In September 2019, the group issued a senior secured bond for a total amount of SEK 500M. The bond has a variable coupon rate of Stibor 3M plus 4.25% and a maturity of five years, maturing in September 2024.

In May 2022, the group issued an additional SEK 300M on the same terms and the price paid amounted to 101.25% of the coupon value. The premium, SEK 3,750,000 has been accrued over the term of the loan.

The loan terms contain specific conditions for the group's net liabilities. The group is below those conditions by some margin. The group has also taken out a credit facility of SEK 160M that has not yet been utilised. As of 31 December 2022, SEK 0M was utilised.

## 20. Trade and other payables

Advance payments	-	39,909	-	-
Accruals and deferred income	643,480	551,520	701	528
Other liabilities	46,754	33,896	-	-
<b>Total</b>	<b>760,806</b>	<b>683,629</b>	<b>889</b>	<b>632</b>

Liabilities are secured by a rental guarantee for SEK 1,190,000, a capital guarantee of SEK 175,000 and floating charges of SEK 16,500,000.

**INNOVATION HOLDCO LIMITED**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 31 DECEMBER 2022**

**21. Deferred tax liabilities**

Deferred tax liabilities as of 31 December 2022, are analysed as follows:

<i>(amounts in thousands of SEK)</i>	<b>Group 2022</b>	<b>Group 2021</b>
Balance brought forward	334,207	329,253
Charged/(Credited) to Statement of Comprehensive Income	(53)	4,954
Other movements from acquisition	2,909	
<b>Total</b>	<b>337,063</b>	<b>334,207</b>

<i>(amounts in thousands of SEK)</i>	<b>Group 2022</b>	<b>Group 2021</b>
Deferred tax on surplus value	261,229	281,166
Temporary differences	13,033	13,823
Deferred tax on capitalised development costs	62,801	39,218
<b>Total</b>	<b>337,063</b>	<b>334,207</b>

Deferred tax liabilities were booked according to the temporary timing differences between the statutory and the tax assets and liabilities.

**22. Provisions**

Provisions as of 31 December 2022, are analysed as follows:

<i>(amounts in thousands of SEK)</i>	<b>Provisions</b>
As at 31 December 2021	35,845
Charged in the year	10,278
<b>As at 31 December 2022</b>	<b>46,123</b>

Provisions relate to Swedish tax reserves. These reserves are classified as provisions in the UK due to the uncertain timing of movements and payments in the future.

**23. Financial instruments**

The following financial risks are applicable to the group due to the financial liabilities held:

**Liquidity Risk**

The Board of Directors shall ensure that the subsidiaries' organisation is designed so that the overall financial situation is managed and controlled in a satisfactory manner and that laws, regulations and instructions are complied with. Management of liquidity risks that both ensures the Group's ongoing operations and future expansion is part of this.

**Credit risk**

Since the Group's customer base largely consists of Swedish regions with stable economic conditions, historical credit losses have been almost non-existent. As the product portfolio is broadened, including through acquisitions, credit risk in the business increases. Management's analysis of this is that the current situation is not associated with higher credit risk than last year. This analysis is reflected in the provision for expected credit losses for the year is shown in Note 14.

**Market risk**

**Currency risk**

The Group operates in Sweden and internationally and is exposed to currency risks arising from various currency exposures. Currency risk arises from future transactions, primarily payment outflows, and reported assets and liabilities in a currency that is not the company's functional currency, so-called transaction exposure. The Group's exposure to currency risk primarily consists of transactions between subsidiaries taking place in other currencies.

FOR THE YEAR ENDED 31 DECEMBER 2022

## 23. Financial instruments (continued)

In Sanolium, currency risk arises primarily from cross-border trade. Significant balance sheet items in DKK are found within trade receivables. A 10 basis point rise or fall in the exchange rate against the Swedish krona would mean a price gain/loss of SEK 2 million. In accordance with its finance policy, the Group may reduce its transaction exposure by using derivative instruments in the form of futures, swaps and currency options. However, no derivative is used at the balance sheet date.

The table below lists the group's financial instruments, both assets and liabilities. Financial instruments measured at fair value are classified by the levels in the fair value hierarchy. All other financial instruments are classified by the main group of instruments as defined in IFRS 9. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. For financial instruments measured at fair value, the levels in the fair value hierarchy are as shown below.

2022	Financial instruments at amortised cost SEK'000	Financial instruments at FVTPL SEK'000	Total SEK'000
<b>Non-current assets</b>			
Intangible fixed assets	-	-	-

## 24. Business combinations

## Frisq AB

On November 30, 2022, Cambio Healthcare Systems AB, an indirect subsidiary of Innovation Holdco Limited, acquired 100% of the shares in Frisq AB. The purchase price at the time of acquisition amounts to SEK 30,941,000 and an additional purchase price of SEK 4,404,000 will be paid in 9 months, provided that certain key employees are still employed by the company at this time. Acquisition-related items of SEK 4,795,000 have been expensed.

Frisq AB operates in the eHealth business area and has developed a digital solution that enables information sharing between different healthcare units and patients. The care process is thus transparent and can be followed by all parties. The acquisition is expected to broaden Cambio's product range, and the product can be used both separately and also integrated with Cosmic.

	Frisq AB SEK'000
<b>Purchase consideration</b>	
Cash consideration	30,941
Contingent consideration	4,404
<b>Total purchase consideration</b>	<b>35,345</b>
<b>Customer contracts, Technology &amp; Trademark</b>	<b>11,614</b>
Capitalised expenditure on development works	10,803
Other receivables	2,392
Cash and cash equivalents	1,098
Other liabilities	(8,382)
Deferred tax	(2,392)
<b>Total net identifiable assets acquired at fair value</b>	<b>15,133</b>
Consideration	35,345
<b>Goodwill</b>	<b>20,212</b>
<b>Net cash outflow arising on acquisition</b>	
Cash consideration	30,941
Less:	
Cash and cash equivalents acquired	(1,098)
<b>Net cash outflow arising on acquisition</b>	<b>29,843</b>

Goodwill has arisen from the acquisition and consists of synergies and personnel.

**INNOVATION HOLDCO LIMITED**

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022**

**25. Related party transactions**

Related parties consist of all subsidiaries and senior executives in the group and their related parties. Transactions take place on market terms. Amounts due to parent company at year-end total SEK 188,000 (2021: SEK 38,000).

At the year end the group had a balance due from a related party of SEK 1,067,000. The loan is repayable in full on 30 June 2041 and interest is charged at 5% per annum.

**26. Subsequent events**

In March 2023, the Group received an award decision in a procurement conducted by Region Stockholm. The region acquires the Cosmic Birth system with the aim of streamlining maternal health care and offering quality care in this area.

During the first quarter of 2023, the Group received acceptance approvals from other Sussa customers regarding delivered technical functionality in ongoing implementation projects.

**27. Controlling party**

The company's parent undertaking and controlling party is Innovation Limited, a company incorporated in the Cayman Islands.

There is no ultimate parent undertaking or controlling party.
