PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a description of how they have benefited the community.

Airborne Allergy Action C.I.C. was set up to raise awareness of the importance of environmental allergen avoidance (alongside prescribed medication) in the home, schools and other places that children spend extended periods of time. It provides benefit in particular to children in Lewisham and surrounding London boroughs, but also nationally, who are suffering from asthma and other allergy related illness caused by environmental allergens (eg. dust mites, indoor and outdoor moulds, tree pollen (particularly birch, hazel and alder), grass pollen & animal dander.)

During the period the company continued to raise awareness of the relevant issues through its Facebook group, sharing tips with stakeholders on the most effective methods of inhaled allergen avoidance. It was also involved in disseminating the findings and recommendations of the 2020 Royal College of Paediatrics and Child Health Report into Indoor Air Quality and Child Health which recommends inhaled allergen avoidance for asthma and allergic rhinitis. There continue to be many reported benefits in improved health of children as a result of undertaking such avoidance.
