NOTES TO THE FINANCIAL STATEMENTS
for the Year Ended 30 April 2022

1. STATUTORY INFORMATION

GC Imaging Services Limited is a private company limited by shares and incorporated and domiciled in England. It has its registered office and principal place of business at Becksid Court, Annie Reed Road, Beverley, HU17 0LF.

The principal activity of the company is that of General medical practice activities.

The presentational currency of the financial statements is Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Having regard to liquidity risk, current market conditions and other factors affecting the company including the impact of Covid-19, the use of the going concern basis of accounting is appropriate as, in the opinion of the directors, there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company to continue as a going concern.

Turnover

Turnover is the amount derived from ordinary activities, measured at the fair value of the consideration received or receivable. Turnover excludes value added tax and trade discounts.

Turnover from services is recognised on completion of service, or when those services span the year end date, by reference to the stage of completion at the balance sheet date.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Tangible fixed assets are measured at cost less accumulated depreciation and any accumulated impairment losses.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
