## BETR TECHNOLOGY LTD

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2022

---

#### 1. General information

BETR Technology Ltd is a private limited company (limited by shares) incorporated in England and Wales.

The address of the registered office is Huckletree Soho Koyo Loans, Ingestre Court, Ingestre Place, London, W1F 0JL.

The principal activity of the company is the provision of financial loans and is authorised and regulated by the Financial Conduct Authority.

The average monthly number of employees, including directors, during the year was 13 (2021 – 10).

#### 2. Accounting policies

##### 2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

##### 2.2 Going concern

In their assessment of going concern the directors have considered the current impact on the business as a result of the COVID19 virus. This has not had a significant, immediate impact on the company's operations but the directors are aware that if it were to deteriorate again then this may change. In forming the overall assessment, the directors have had regard to current liquidity and working capital requirements of the company as well as access to additional finance via the issue of equity or loans, from both existing and new providers. The directors are confident that any amounts required to fund the continuing operations of the company will be raised in the appropriate timeframe.

Having regard to the above, the directors believe it appropriate to adopt the going concern basis of accounting in preparing the financial statements.

##### 2.3 Foreign currency translation

###### Functional and presentation currency

The Company's functional and presentation currency is GBP

###### Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

---

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 JULY 2022

---

## 2. Accounting policies (continued)

### 2.4 Revenue

Revenue represents interest, commissions and fees earned in respect of loan balances due from customers during the year. Revenue is recognised in the statement of comprehensive income net of directly attributable costs incurred through customer origination.

### 2.5 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight-line basis over the lease term, unless another systematic basis is representative of the time pattern of the lessee's benefit from the use of the leased asset.

### 2.6 Research and development

In the research phase of an internal project it is not possible to demonstrate that the project will generate future economic benefits and hence all expenditure on research shall be recognised as an expense when it is incurred. Intangible assets are recognised from the development phase of a project if and only if certain specific criteria are met in order to demonstrate the asset will generate probable future economic benefits and that its cost can be reliably measured. The capitalised development costs are subsequently amortised on a straight line basis over their useful economic lives, which range from 3 to 6 years.

If it is not possible to distinguish between the research phase and the development phase of an internal project, the expenditure is treated as if it were all incurred in the research phase only.

### 2.7 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

### 2.8 Borrowing costs

All borrowing costs are recognised in profit or loss in the year in which they are incurred.

### 2.9 Pensions

#### Defined contribution pension plan

The Company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the Company pays fixed contributions into a separate entity. Once the contributions have been paid the Company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the Company in independently administered funds.

---

**BETR TECHNOLOGY LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 JULY 2022**

---

**2. Accounting policies (continued)**

**2.10 Share based payments**

Where share options are awarded to employees, the fair value of the options at the date of grant is charged to profit or loss over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at each balance sheet date so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

The fair value of the award also takes into account non-vesting conditions. These are either factors beyond the control of either party (such as a target based on an index) or factors which are within the control of one or other of the parties (such as the Company keeping the scheme open or the employee maintaining any contributions required by the scheme).

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also charged to profit or loss over the remaining vesting period.

Where equity instruments are granted to persons other than employees, profit or loss is charged with fair value of goods and services received.

**2.11 Taxation**

Tax is recognised in profit or loss.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

**2.12 Intangible assets**

Intangible assets are initially recognised at cost. After recognition, under the cost model, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

All intangible assets are considered to have a finite useful life. If a reliable estimate of the useful life cannot be made, the useful life shall not exceed ten years.

The estimated useful lives range as follows:

Development expenditure	-	5	years
-------------------------	---	---	-------

**2.13 Tangible fixed assets**

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

---

**BETR TECHNOLOGY LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 JULY 2022**

---

**2. Accounting policies (continued)**

**2.13 Tangible fixed assets (continued)**

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Office equipment                      - 3 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

**2.14 Valuation of investments**

Investments in subsidiaries are measured at cost less accumulated impairment.

**2.15 Debtors**

Short term debtors are measured at transaction price, less any impairment.

**2.16 Cash and cash equivalents**

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

**2.17 Creditors**

Short term creditors are measured at the transaction price.

**3. Other operating income**

A charge was registered on 21 October 2021 by way of a fixed charge, floating charge and a negative pledge over the Company's assets. The charge was satisfied in full on 24 August 2021.

Two additional charges were registered on 19 August 2021 and 30 September 2022 by way of a fixed charge, floating charge and a negative pledge over the Company's assets which remain outstanding at the year end.

---

**BETR TECHNOLOGY LTD**

---

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 JULY 2022**

---

**10. Reserves**

**Share options reserve**

The Company has issued equity settled share options to employees since 2018. The exercise price of the options is equal to the estimated market value of the shares at the date of the grant. An expense is recognised based on fair value, with the fair value determined by using the Black Scholes model. The options all vest over 4 years and lapse after 10 years.

In total, 41,202 (2021 - 40,842) share options have been awarded since 2018 of which 33,404 (2021 - 22,340) have vested as at 31 July 2022 and 4,200 (2021 - 4,200) have been sacrificed. As a result, 3,598 (2021 - 14,301) share options are yet to vest. No options have been exercised during the year end and the total charge to statements of comprehensive income is £88,472 (2021 - £473,206).

**11. Pension commitments**

The Company operates a defined contributions pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The pension cost charge represents contributions payable by the Company to the fund and amounted to £22,147 (2021 - £8,465). Contributions totalling £10,600 (2021 - £2,947) were payable to the fund at the balance sheet date and are included in creditors.

**12. Related party transactions**

The company has taken advantage of the exemption in Financial Reporting Standard 102 "Related Party Disclosures" from disclosing related party transactions within a 100% owned group.

**13. Post balance sheet events**

On 30 September 2022 the company issued 34,030 Series A shares for total cash consideration of £1,908,062.

**14. Controlling party**

The directors do not consider there to be an ultimate controlling party.
