Going concern

During 2019 the company's working capital requirements were provided by funding from Enviromena Asset Management UK Limited. The company's purpose is to act as a holding company for an Italian special purpose vehicle set up to invest in a solar facility. The Italian subsidiary has an option on the right to use certain land, the option for a grid connection and is pursuing planning consent for the development of a solar facility. The funding of these development activities is provided by Enviromena Asset Management UK Limited. Once the solar facility has achieved planning consent it is anticipated that the special purpose vehicle will be sold to a financial investor, the proceeds of which will allow the company to repay the loan due to Enviromena Asset Management UK Limited.

The members of Enviromena Asset Management UK Limited have indicated that they will not demand repayment of their funding and that their support will continue for the foreseeable future, however no formal agreement is in place.

The directors, having considered the above and having made due enquiry, continue to adopt the going concern basis in preparing the financial statements, which assumes the company will continue in operation for the foreseeable future.

Financial instruments

Basic financial instruments are recognised at amortised cost, except for investments in non-convertible preference and non-puttable ordinary shares which are measured at fair value, with changes recognised in profit or loss. Derivative financial instruments are initially recorded at cost and thereafter at fair value with changes recognised in profit or loss.
