NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2022

1. General information

Devonshire Property (MFU) Limited is a private company limited by shares, incorporated in England and Wales (registered number: 12203050). Its' registered office is the Estate Office, Edensor, Bakewell, Derbyshire, DE45 1PJ. The principal activity of the Company throughout the year continued to be that of property development.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The Company's functional and presentation currency is pounds sterling.

The following principal accounting policies have been applied:

2.2 Going concern

The Directors have considered the likely outcome for the 2022/23 year and expectations for 2023/24 including an estimate of cash flow impacts. These indicate that, taking into account reasonably possible downsides and the impact on the operations and its financial resources, the company will have sufficient funds to meet its liabilities as they fall due for the foreseeable future.

Consequently, the Directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

2.3 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities such as bank and cash balances, trade and other accounts receivable and payable, loans from banks and other third parties and loans to and from related parties.

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other debtors and creditors, are initially measured at the transaction price and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade payables or receivables, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short-term instrument constitute a financing transaction, the financial asset or liability is measured, initially, at the present value of the future cash flow discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.
