STEEL CITY GUARANTEE CO LIMITED

Directors' report period ended 31 December 2021

The directors present their report with the financial statements of the company for the period ended 31 December 2021

Principal activities of the company

Holding Company

Additional information

The Company has made a loss during the year of £5,791 (period to 2020: £2,045) and is in a net liability of £7,836 (2020: £2,045) at the financial year end. The Directors, having considered the Company's objectives and available resources along with its projected income and expenditure, are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the Company has adopted the going concern basis in preparing these financial statements. Director's indemnity As permitted by clause 58 of the Articles of Association, the Directors are indemnified out of the Company's assets against any loss, liability or expense. The indemnity was in force throughout the last financial year and is currently in force. This report has been prepared in accordance with the provision relating to small companies within part 15 of the Companies Act 2006. By applying the small companies provisions, Steel City GP 2 Limited is exempt from providing a strategic report.

STEEL CITY GUARANTEE CO LIMITED

Notes to the Financial Statements

for the Period Ended 31 December 2021

1. Accounting policies

Basis of measurement and preparation

These financial statements have been prepared in accordance with the provisions of Section 1A (Small Entities) of Financial Reporting Standard 102

Other accounting policies

(a) Basis of preparation These financial statements, in respect of the year ended 31 December 2021, are prepared on a going concern basis under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value, as described below, and are in accordance with FRS 102 Section 1A and the Companies Act 2006. (b) Going concern The Company has made a loss during the year of £5,791 (period to 2020: £2,045) and is in a net liability of £7,836 (2020: £2,045) at the financial year end. The Directors, having considered the Company's objectives and available resources along with its projected income and expenditure, are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, the Company has adopted the going concern basis in preparing these financial statements. (c) Foreign currency (i) Functional and presentation currency The Company's financial statements are presented in Pound Sterling (£). The Company's functional and presentation currency is the Pound Sterling. (d) Revenue recognition Revenue represents a fixed priority profit share from Hawkins Road L.P. as per limited partnership agreement. (e) Expense recognition Expenses are recognised on an accruals basis in the period in which they are incurred. (f) Financial Instruments (i) Financial assets Basic financial assets, including trade and other receivables, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method. At the end of each reporting date, financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in the Statement of comprehensive income. If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not been previously been recognised. The impairment reversal is recognised in the Statement of comprehensive income. Financial assets are derecognised when (a) the contractual rights to the cash flows from the assets expire or are settled, or (b) substantially all the risk and rewards of the ownership of the assets are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions. (ii) Financial liabilities Basic financial liabilities, including creditors, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Debt instruments are subsequently carried at amortised cost, using the effective interest rate method. Derecognition of financial liabilities A financial liability (in whole or in part) is derecognised when the Partnership has extinguished its contractual obligations, it expires or is cancelled. Any gain or loss on derecognition is taken to the Statement of comprehensive income. (g) Share Capital Share capital are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. (h) Taxation Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the Statement of financial position date. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the Statement of financial position date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the Statement of financial position date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.
