General Information

DMQV LTD is a private company, limited by shares, registered in England and Wales, registration number 12509020, registration address West Suite, 1 Tolherst Court, Turkey Mill, Ashford Road, Maidstone, Kent, ME14 5SF

The presentation currency is £ sterling.

1. Accounting policies

Basis of preparation

Statement of compliance These financial statements have been prepared in compliance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006. **Basis of preparation** The financial statements have been prepared on the going concern basis and under the historical cost convention as modified by the revaluation of land and buildings and certain financial instruments measured at fair value in accordance with the accounting policies. The financial statements are prepared in sterling which is the functional currency of the company.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, net of discounts and value added taxes.

Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rate of exchange ruling at the statement of financial position date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All foreign exchange differences are included to the income statement.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current taxation

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost less any accumulated depreciation and accumulated impairment losses or at a revalued amount.

Any tangible assets carried at a revalued amount are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation is recognised in other comprehensive income and accumulated in capital and reserves. However, the increase is recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in capital and reserves. If a revaluation decrease exceeds the accumulated revaluation gains accumulated capital and reserves in respect of that asset, the excess is recognised in profit or loss.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over the useful lives on the following basis:

Fixtures and Fittings	25% Reducing Balance
-----------------------	----------------------

2. Average number of employees

Average number of employees during the year was 2 (2021 : 0).
