NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2021

1. General information

Firethorn Sherburn Holdings Limited is a private company limited by shares incorporated in England. The registered office is 3rd Floor, 265 Tottenham Court Road, London, W1T 7RQ.

The principal activity of the Company is to act as a holding company for a real estate development company.

The financial statements are presented in sterling which is the functional currency of the Company and rounded to the nearest £.

The Company has no employees other than the directors, who did not receive any remuneration.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Going concern

Notwithstanding that the Company is in a net liability position, the financial statements have been prepared under the going concern assumption as the directors believe the Company will be able to meet its liabilities as they fall due for the foreseeable future. Included within liabilities is an intercompany loan from the Company's parent of £3,538,191. The directors expect the parent to continue to make funds available to the Company and believe that it is appropriate to prepare the financial statements on the going concern basis.

2.3 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.4 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.5 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.6 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the Company would receive for the asset if it were to be sold at the balance sheet date.
