The company was entitled to exemption from audit for this reporting period under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The Directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The directors have chosen to not file a copy of the company's profit and loss account under section 444 (5A) Companies Act 2006.

The members have agreed to the preparation of abridged accounts for this accounting period in accordance with section 444(2A).

The financial statements were approved and authorised for issue by the Board of Directors on 23 April 2024, and are signed on its behalf by:

TANSEY, Alan Joseph

RAILSHEAD RESIDENTIAL LIMITED

Notes to the Financial Statements for the period ended 31 May 2023

1. Accounting policies

Statutory information

The company is a private company limited by shares and registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

Statement of compliance

The financial statements have been prepared in accordance with the Companies Act 2006 and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland including Section 1A Small Entities.

Revenue from sale of goods

Revenue from the sale of goods is recognised when the company has transferred to the buyer the significant risks and rewards of ownership of the goods, usually when goods are delivered and legal title has passed. Providing the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the company and the costs incurred or to be incurred in respect of the transition can be measured reliably.

Tangible fixed assets and depreciation

All fixed assets are initially recorded at cost. Property, plant and equipment is used in the company's principal activity for the production and supply of goods or for administrative purposes and is stated in the balance sheet under the historic cost model. This model requires the assets to be stated at cost less amounts in respect of depreciation and less any accumulated impairment losses. Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value (which is the expected amount that would currently be obtained from disposal of an asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life), over the useful economic life of the respective asset as follows:

Stocks and work in progress

Stock is valued at the lower of cost and estimated selling price less costs to complete and sell. The cost methodology employed by the entity is the first-in first-out method. Estimated selling price less costs to complete and sell are derived from the selling price which the goods would fetch in an open market transaction with established customers less the costs expected to be incurred to enable the sale to complete. Provision is made for slow-moving and obsolete items of stock. Such provisions are recognised in profit or loss.

Work in progress is valued using the percentage of completion method and values are calculated using the lower of cost and estimated selling price less costs to complete and sell. When stocks are sold, the carrying amount of those stocks is recognised as an expense within cost of sales. This takes place in the same period that the associated revenue is recognised.
