Independent Auditors' Report

The Board of Directors
Fujisankei Communications International, Inc.:

We have audited the accompanying balance sheets of Fujisankei Communications International, Inc. (a wholly owned subsidiary of Fuji Television Network, Inc.) as of December 31, 1996 and 1995, and the related statements of income and retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in note 1(b), these financial statements were prepared on the basis of accounting principles generally accepted in Japan, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fujisankei Communications International, Inc. as of December 31, 1996 and 1995, and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles in Japan.

Notes to Financial Statements

December 31, 1996 and 1995

(1) Organization and Summary of Significant Accounting Policies

Book works to the contract

(a) Organization

Fujisankei Communications International, Inc. (the "Company"), a wholly owned subsidiary of Fuji Television Network, Inc., a Japanese corporation, was incorporated in the State of New York on October 1, 1986 to gather overseas news for the parent and affiliated companies and to involve program production and broadcasting, international program sales and acquisitions, public relations, and the analysis of overseas investment opportunities in the area of film, music, publishing, and art. In addition, the Company works very closely with the parent company providing integral cooperation in the fields of marketing, event planning, and overseas filming coordination.

In 1995, the Company closed its foreign branch in Rome.

(b) Principles of Presentation

The accompanying financial statements have been prepared on the basis of accounting principles generally accepted in Japan. The primary difference from those prepared on the basis of accounting principles generally accepted in the United States is accounting for the translation of property and equipment and program sales rights denominated in foreign currencies (see note 1(f)). Management of the Company has decided to include the statements of cash flows and certain notes to the financial statements relating to related party transactions, investment in securities, income taxes and pension plan, all of which are not required disclosures under accounting principles generally accepted in Japan.

(c) Cash Equivalents

For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(d) Depreciation and Amortization

Depreciation of property and equipment is provided over the estimated useful lives, which range from three to 18 years, using the straight-line method. Leasehold improvements are amortized on a straight-line basis over the shorter of the lease term or estimated useful lives of the assets.

(e) Program Sales Rights

Program sales rights are purchased and enable the Company to sell certain television programs. Such rights are amortized based on 80% of current gross revenues.

(f) Foreign Currency Translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollars at year-end rates of exchange except for property and equipment and program sales rights, which are translated at historical rates. Income and expense accounts are translated at exchange rates prevailing at the time the income was earned or expense incurred.

(g) Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" (Statement 109), which is a generally accepted accounting principle in the United States. Under the assets and liability method of Statement 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(h) Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

(2) Investment in Securities

The components of investments in securities, at cost, are as follows:

	<u>1996</u>	<u>1995</u>

As of December 31, 1996, the Company had unused letters of credit of \$116,720.

(8) Pension Plan

A GREEN HER MARKET REFE

On January 1, 1993, the Company established a contributory 401(k) plan. The plan covers substantially all employees except those who are transferred from the parent on temporary assignments in the U.S. Under the plan, participants may contribute a portion of their salary and are immediately vested for the employee portion. The Company's contribution to the plan includes a matching contribution (generally 50% of the first 7% of compensation deferred under the plan). The Company's contribution charged to operating expenses amounted to \$34,616 and \$26,587 in 1996 and 1995, respectively.
