## **The Directors' Report**

**Year ended 31 December 2010**

---

The directors present their report and the financial statements of the company for the year ended 31 December 2010

### **Principal activities and business review**

The principal activity of the company during the year was, and will continue to be, that of a holding company. The material investments of the company are shown in note 7.

The company is a wholly owned subsidiary undertaking of Virgin Media Inc. The Virgin Media group is a leading provider of entertainment and communications services in the UK, offering "quad-play" television, broadband internet, fixed line telephony and mobile telephony services.

As at 31 December 2010, the Virgin Media group provided services to approximately 4.8 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers and at 31 December 2010 provided mobile telephone services to approximately 1.9 million prepay mobile customers and approximately 1.2 million contract mobile customers over third party networks. As of 31 December 2010, approximately 63.0% of residential customers on the group's cable network were "triple play" customers, receiving broadband internet, television and fixed line telephone services from the group and approximately 11.8% were "quad play" customers, also receiving the group's mobile telephone services.

The Virgin Media group believes that its advanced, deep fibre access network enables it to offer faster and higher quality broadband services than its digital subscriber line, or DSL, competitors. As a result it provides its customers with a leading next generation broadband service and one of the most advanced television on-demand services available in the UK market.

In addition, the Virgin Media group provides a complete portfolio of voice, data and internet solutions to businesses, public sector organisations and service providers in the UK through Virgin Media Business (formerly ntl Telewest Business). The Virgin Media group also has an interest in the UKTV television channels through its joint ventures with BBC Worldwide.

The Virgin Media group sold its television channel business known as Virgin Media TV on 12 July 2010.

### **Future outlook**

In December 2010, the Virgin Media group launched TiVo set-top boxes (with associated software, including middleware), following a strategic partnership with TiVo Inc, or TiVo, to develop a next generation set-top box which provides converged television and broadband internet capabilities. Under the agreement with TiVo, TiVo will become the exclusive provider of user interface software for Virgin Media's next generation set-top boxes and the Virgin Media group will become the exclusive distributor of TiVo services and technology in the UK. This is a "next generation" entertainment set-top box which brings together television, on-demand and web services through a single set-top box and unique content discovery and personalization tools. The Virgin Media TV powered by TiVo service is being rolled out to customers during 2011.

The Virgin Media group's strategic objectives in 2011 revolve around exploiting its superior network infrastructure to offer differentiated products and services, while retaining strong cost control and financial discipline. The Virgin Media group will also place more emphasis on cross-selling mobile services to its Cable customers and seeking to grow revenues from Business customers through an increased focus on managed data services.

The Virgin Media group is also in the process of rolling out the country's fastest widely available broadband service, 100Mb, which is expected to be available right across its network by the middle of 2012. In addition, the group has successfully completed a comprehensive Metro Wi-Fi trial in Ashford, Kent, demonstrating its capabilities in exploiting its growing cable network for the provision of internet connectivity out of the home.

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,

## Notes to the Financial Statements

Year ended 31 December 2010

### 1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

#### *Basis of accounting*

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

#### *Fundamental accounting concept*

The financial statements have been prepared on the going concern basis because the ultimate parent undertaking has given the necessary assurances that sufficient resources will be made available, so that the company can meet its liabilities as and when they fall due, for at least twelve months from the date of approval of these financial statements.

#### *Group accounts*

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 15). These financial statements therefore present information about the company as an individual undertaking and not about its group.

#### *Investments*

Investments are recorded at cost, less any provision for impairment. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the asset's recoverable amount. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the assets or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years.

#### *Cash flow*

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company, Virgin Media Inc.

### 1. Accounting policies (*continued*)

#### *Deferred taxation*

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

#### *Foreign currencies*

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. The resulting exchange differences are taken to the Profit and Loss Account

#### *Trade and other debtors*

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the full amount is written off when the probability for recovery of a balance is assessed as being remote

### 2. Operating profit/(loss) (continued)

The group's inter-company funding arrangements are managed centrally. Recoverability of inter-company receivables is assessed annually. The provision for non-recoverability may decrease or increase as a result of that review. The impairment review of inter-company indebtedness as at 31 December 2010 concluded that a release of the provision against amounts due from group undertakings totalling £25,608,000 should be made (2009 - increase of £115,525,000).

Auditor's remuneration of £1,000 (2009 - £1,000) represents costs attributed to the company by fellow group undertakings that pay all auditor's remuneration on behalf of the Virgin Media group.

The company had corporate directors until 30 April 2010, which received no remuneration. On 30 April 2010 new directors were appointed. The directors received remuneration for the year of £333 in relation to qualifying services as directors of this company, all of which was paid by Virgin Media Limited.

### 3. Staff costs

The company does not have any directly employed staff and is not charged an allocation of staff costs by the Virgin Media group.

### 6. Taxation on profit/(loss) on ordinary activities *(continued)*

#### (b) Factors affecting current tax charge

The tax assessed on the profit/(loss) on ordinary activities for the year is lower than the standard rate of corporation tax in the UK of 28% (2009 - 28%)

The difference between the effective statutory rate and the actual current tax charge is reconciled as follows

	2010 £000	2009 £000
Profit/(loss) on ordinary activities before taxation	<u>34,733</u>	<u>(103,589)</u>
Profit/(loss) on ordinary activities multiplied by rate of tax	9,725	(29,005)

Total current tax (note 6(a))	<u>-</u>	<u>-</u>

#### (c) Factors that may affect future tax charges

There are no factors which may affect the future tax charge

#### (d) Change in tax rate

As at 31 December 2010 the enacted UK corporation tax rate scheduled to take effect in April 2011 was 27%. A rate reduction to 26% was enacted under the Provisional Collection of Taxes Act in March 2011 with effect from 1 April 2011, and further rate reductions were announced, to be introduced in annual decrements to reduce the rate to 23%. These rate changes will affect the amount of future tax payments to be made by the company

In addition, a fellow group undertaking has issued senior secured notes which, subject to certain exceptions, share the same guarantees and security which have been granted in favour of the senior credit facility. On 20 May 2011, the senior secured credit facility was amended to reduce the margins payable, reduce the outstanding loan balance by £25 million and increase the revolving credit facility from £250 million to £450 million.
